Location, Penny Whistle, Abington Square.

These reports are details of what was said by the callers when they contacted the Northamptonshire Police Control Room. Clearly they indicate that an incident has occurred however it should be noted that the details above are not the result of the investigation. Some incidents report excessive force being used by door staff when phoned in, however when Police Officers have attended it has been found that door staff acted lawfully to eject a quarrelsome customer.

What the above incidents do indicate is that there is Crime and Disorder in the area of Abington Square in the early hours. Northamptonshire Police feel very strongly that a 24hr Premises Licence for Off-sales in this area would compromise the Licensing Objective of the **PREVENTION** of Crime and Disorder.

Northamptonshire Police will on the day of the hearing have the original incident logs to hand and can give a more detailed explanation of it's concerns.
