

Morning Karim

Over the past couple of years I have been involved in organizing a couple of events at The Urban Tiger. I found the place to be a particularly well run plush establishment providing

excellent night time entertainment for Northampton.

Following both events we received a lot of positive feedback from our mixed audience which were mainly drawn from the county's business community, many of which stated they

would return.

In today's world, all tastes and styles have to be catered for and The Urban Tiger fills a much needed void in a discreet and subtle way.

Kind regards

Alan Spooner
