Average LIBID and LIBOR rates supplied by Sector Treasury Services originally to 4 decimal places rounded to 2 decimal places above.

The monthly rate of return is the average interest rate the Council achieved on fixed investments and deposit account balances it held during the month.

The average 7 day Libid/Libor rate is the rate of return the Council would have achieved in the month if the interest rate applicable on fixed investments held during the month had been the 7 day Libid/Libor rate at the time of investment, and interest had been calculated daily for deposit accounts using the 7 day Libid/Libor rate for each day.

The monthly return - Libid variance is the difference between the rate achieved during the month and the rate that could have been achieved at the average 7 day Libid rate as defined above.
