**Head of Service:** Ruth Austen, Environmental Health and Licensing Manager  
**Lead Officer:** Tracy Tiff, Scrutiny Officer  
**Chair of the Scrutiny Panel:** Councillor Samuel Shaw

**What is it:**

A Community Impact Assessment (CIA) is a document that summarises how the council has had due regard to the public sector equality duty (Equality Act 2010) in decision-making. This document can also be used to consider health and narrowing health inequalities (Health and Care Act 2012)

**When to assess:**

A CIA should be carried out when you are changing, removing or introducing a new service, policy or function. The assessment should be proportionate; a major financial decision will need to be assessed more closely than a minor policy change.

**Due Regard:**

To 'have due regard' means that in making decisions and in its other day-to-day activities the council must consciously consider the need to do the things set out in the general equality duty: eliminate discrimination, advance equality of opportunity and foster good relations.

In relation to health, we need to consider the potential short term and long term implication of for decisions that we take to support the Health and Wellbeing agendas.

How much regard is 'due' will depend on the circumstances and in particular on the relevance of the aims in the general equality duty to the decision or function in question. The greater the relevance and potential impact, the higher the regard required by the duty. We need to make sure that we understand the potential impact of decisions on people with different protected characteristics and also need to consider this information before and as decisions are being made. This will help us to reduce or remove unhelpful impacts and inequalities
