8.0 Policy Considerations

8.1 Statement of Licensing Policy

8.2 s.182 Guidance Licensing Act 2003

Section 9 gives guidance for determination of this application.

Sections 8 & 10 highlights the elements of the Guidance that are most relevant with respect to this application. This is not exhaustive and guidance should be considered fully prior to making decisions with respect to applications.

9.0 Committee

Each application must be considered on its own merits and any conditions attached to licences and certificates must be tailored to the individual style and characteristics of the premises and events concerned. This is essential to avoid the imposition of disproportionate and overly burdensome conditions on

premises where there is no need for such conditions. Standardised conditions should be avoided and indeed, may be unlawful where they cannot be shown to be necessary for the promotion of the licensing objectives in any individual case.
