| Northamptonshire<br>County Council  |  | Soundness: - not specified   | (Round 2) consultation, supporting the development of planning policy at the local level. The comments contained within this response are supplementary to an earlier response, submitted in relation to the Round 1 consultation during June 2019, and should therefore be read in conjunction with our previous response.  |   |   |
|---|--|--|--|---|---|
| Representation reference: 197/1/24  Name: Northamptonshire County Council | Refers to:<br>The Plan                           | Legal compliance<br>and soundness:<br>Legal compliance:<br>- not specified<br>Soundness:<br>- not specified  | Comments:  21. The County Council welcomes the approach adopted by Northampton Borough Council in preparing the Draft, which builds on the adopted West Northamptonshire Joint Core Strategy and positively supports the need for collaboration between local authorities and other partner organisations, to ensure that the 'duty to co-operate' obligation is met — particularly in relation to those areas of the borough allocated as Sustainable Urban Extensions (SUEs) and at other strategic housing sites including those in the Northampton Related Development Area. | Suggested changes:<br>None.   | Officer comments:<br>Noted.   |
| Representation reference: 201/1/17  Name: Persimmon Homes                 | Refers to:<br>The Plan<br>and<br>policies<br>map | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments: Along with David Wilson Homes, Persimmon Homes controls the Dallington Grange Sustainable Urban Extension (SUE), which is allocated for development in the adopted West Northamptonshire Joint Core Strategy, 2014 (JCS). An outline planning application for the SUE has achieved resolution to grant planning permission and it is anticipated that the Section 106 agreement will be finalised shortly.   | Suggested changes: We would reiterate our earlier comments that it would be helpful for both decisionmakers and stakeholders if the proposals map associated with the Part 2 Plan illustrated the committed SUEs around Northampton rather than these | Officer comments: The Local Plan Part 2 relates to Northampton's borough boundary. The SUEs are shown in the West Northamptonshire Joint Core Strategy (Local Plan Part 1). |

| Representation<br>reference: 217/1/1<br>Name:<br>National Grid          | Refers to:<br>The Plan | Legal compliance<br>and soundness:<br>Legal compliance:<br>- not specified<br>Soundness:<br>- not specified  | Comments: No comments.  | simply being shown as "white land."  Suggested changes: None. | Officer comments:<br>Noted.  |
|---|------------------------|--|---|---|--|
| Representation<br>reference: 218/1/1<br>Name:<br>Danelaw Real<br>Estate | Refers to:<br>The Plan | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound.  | Comments: Considers the plan to be legally compliant and sound.   | Suggested changes:<br>None                                    | Officer comments:<br>Noted.  |
| Representation reference: 225/1/1  Name: Anthony Smith                  | Refers to:<br>The Plan | Legal compliance and soundness: Plan is not legally compliant: - not in accordance with SCI - not consistent with regulatory requirements - not compliant with duty to cooperate | Comments: With the proposed increase in housing from 300 to 1100 houses Great Houghton would have a serious traffic problem. There is already a dangerous traffic problem with parked cars in the High Street for drivers to navigate. The junction with High Street and the Bedford Road is also very dangerous with no roundabout. The dramatic increase in traffic would be unsustainable through the village and would also create rabbit runs such as along Willow Lane. There are no facilities such as shop, school, bus route in the village which would mean driving to these facilities essential. There is only the village hall and playing field amenities which would be under increased pressure with such an increase in population. The very complicated means for village inhabitants to object to this plan(ie our email was rejected) has probably contributed to many not being able to object who would have wanted to. | Suggested changes:<br>None.                                   | Officer comments: The Council has undertaken a robust land availability assessment, as well as commissioned a detailed Heritage Impact Assessment and traffic modelling exercises. These assessments conclude that the development can be mitigated against and Policy 41 has been formulated to guide developers accordingly. |

| Representation reference: 225/1/2  Name: Anthony Smith                           | Refers to:<br>The Plan                           | Legal compliance and soundness: Plan is not legally compliant:  Plan is unsound: - not positively prepared - not justified | Comments:  The impact of this massive increase in housing to our quiet village will be very damaging. The conjestion, noise and pollution of the increased traffic must be investigated. The safety of pedestrians, cyclists and traffic on already dangerous roads and junctions must be investigated. The lack of facilities ie school, shop, bus route, leisure centre must be investigated.         | Suggested changes: None.  | Officer comments: The Council has undertaken a robust land availability assessment, as well as commissioned a detailed Heritage Impact Assessment and traffic modelling exercises. These assessments conclude that the development can be mitigated against and Policy 41 has been formulated to guide developers accordingly. |
|--|--|--|---|---|--|
| Representation<br>reference: 228/1/1<br>Name:<br>David Russell                   | Refers to:<br>The Plan                           | Legal compliance<br>and soundness:<br>Plan is not legally<br>compliant:<br>- reason not<br>specified                       | Comments: The respondent indicated that the Plan was not legally compliant but gave no reason.  | Suggested changes:<br>None.   | Officer comments:<br>Noted.  |
| Representation<br>reference: 238/1/3<br>Name:<br>West Hunsbury<br>Parish Council | Refers to:<br>The Plan<br>and<br>policies<br>map | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is unsound:<br>- not justified                 | Comments: This objection concerns the failure of Local Plan Part 2 to allocate land as Amenity Green Space at the south of the wider Ladybridge Park/Wootton Brook Park open space (Map 1). This southernmost area comprises a multi-functional use area that is used for football pitches and various forms of informal recreation – such as walking, dog walking, picnics, informal sports and games. | Suggested changes:<br>Allocate Welland<br>Valley FC as<br>amenity green<br>space. | Officer comments: It is agreed that the evidence provided is sufficient to conclude that this site should be designated as an amenity green space. It is also noted that in the  |

|  |                        |   | <ul> <li>The unallocated playing pitches are contiguous and used as one amenity area with the wider Ladybridge Park land to the north and east of the site</li> <li>The more informal open space areas at Ladybridge/Wootton Brook Park, to the north and east of the objection site, are allocated as Amenity Green Space and benefit from the protection afforded to such land by Policy 28 of Local Plan Part 2.</li> <li>There is clear and unambiguous evidence that the playing pitches have had continuous use as local amenity space and playing fields. The land was allocated as such in the 1997 Local Plan under Policy E6, Map 2</li> <li>Part of the playing pitch site had originally been laid out as a cricket pitch before becoming ad hoc football pitches. This use was then formalised when the land was leased by Northampton Borough Council to Welland Valley Football Club (WVFC) who have improved the quality of the pitches. WVFC have been at this site since 2002.</li> <li>By failing to protect the playing pitch/informal recreation area under Policy 28 is contrary to paragraph 97 of national planning policy</li> <li>Sports pitches shown in figures 10, 11 and 12 of Part 3 of the Playing Pitch Strategy</li> </ul> |                             | 1997 Local Plan, the site had been allocated as greenspace. Modify the Policies Map and designate this area as amenity green space. |

| Representation<br>reference: 244/1/5<br>Name:<br>Bastion Group | Refers to:<br>The Plan | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound. | Comments: The comments on the Plan and proposed changes requested as set out in these representations are limited in their nature, scale and extent but would ensure the Plan remains 'effective', 'justified' and 'consistent with national policy'. The changes are required to reinforce the overall general soundness of the Plan, which is vital to ensure that NBC can meet its objectively assessed housing need requirement, support economic growth and maintain its wider advantageous position in the Oxford to Cambridge Arc.  | Suggested changes:<br>None. | Officer comments:<br>Noted.   |

| Representation<br>reference: 248/1/2<br>Name:<br>Welland Valley Rail                          | Refers to:<br>The Plan | Legal compliance and soundness:  Plan is unsound: - not effective                     | Comments: There are a number of improvements to the effectiveness in attached document. (which detail paragraph numbers).  | Suggested changes:<br>See comments. | Officer comments:<br>Noted.    |
|---|------------------------|---|--|-------------------------------------|--------------------------------|
| Representation reference: 250/1/24  Name: St Clair Land and Developments LLP Old Bedford Road | Refers to:<br>The Plan | Legal compliance and soundness: Plan is legally compliant. Plan is sound.             | Comments:  Whilst it is considered that whilst the document would benefit from revisions as set out above, the document does present a plan led approach to meeting those issues which are faced within the Borough. Given the acute housing needs issues faced in the area in recent years, it is considered that the emerging development plan document provides a positive vision and outlines a bold approach and framework to meeting both housing needs and other economic, social and environmental priorities. | Suggested changes:<br>None.         | Officer comments:<br>Welcomed. |
| Representation reference: 250/1/25  Name: St Clair Land and Developments LLP Old Bedford Road | Refers to:<br>The Plan | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound. | Comments:  It is considered that the document has been positively prepared with the objective to contribute towards the achievement of sustainable development. Whilst the above commentary has highlighted where elements of the document are ambiguous and unnecessarily duplicate provisions which are made elsewhere within the development plan or Framework, it remains the respondent's opinion that the document (subject to the above) is 'sound'.  | Suggested changes:<br>None.         | Officer comments:<br>Noted.    |
| Representation reference: 250/1/30  Name: St Clair Land and Developments LLP Old Bedford Road | Refers to:<br>The Plan | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound. | Comments:  Notwithstanding the points raised above, the client is in agreement that the LPP2 presents the most suitable strategy, when assessed against the reasonable alternatives, which is both deliverable and consistent with national policy. Therefore, against the backdrop of our client's land and property interests, the LPP2 is considered both legally compliant and sound in its content.   | Suggested changes:<br>None.         | Officer comments Noted.        |

|                    |            | - not justified      | onwards and adoption by January 2022. The programmed           |                    | 10A of the Town         |
|                    |            | - not effective      | adoption of the WNSP by January 2022 is 2 years later than the |                    | and Country (Local      |
|                    |            | - not consistent     | adoption date of 2020 for the review of the WNJCS on which     |                    | Planning) (England)     |
|                    |            | with national policy | the WNJCS was found sound. It is also noted that the           |                    | Regulations 2012 (as    |
|                    |            |                      | Regulation 18 consultation was delayed until October rather    |                    | amended). The           |
|                    |            |                      | than April 2019 so the preparation of the WNSP is already      |                    | proposed revised        |
|                    |            |                      | behind schedule.   |                    | standard                |
|                    |            |                      |  |                    | methodology for the     |
|                    |            |                      | From December 2019 (5 years after adoption), the strategic     |                    | calculation of          |
|                    |            |                      | policies including the OAHN / housing requirement in the       |                    | housing has not yet     |
|                    |            |                      | adopted WNJCS should be considered out of date. There is       |                    | been implemented.       |

|   |                         |   | potentially a gap of at least 2 years before adoption of the WNSP whilst strategic policies of the adopted WNJCS should be considered out of date. Under the 2019 NPPF, the Council should have a 5 YHLS against either a housing requirement set out in an adopted Plan (2,367 dwellings per annum in adopted WNJCS) or an LHN (2,139 dwellings per annum) where strategic policies are more than 5 years old (para 73). If the Government's proposals for a revised standard methodology for the calculation of LHN are implemented, then the LHN for WN will increase to 2,645 dwellings per annum.   |                             |  |
|---|-------------------------|---|--|-----------------------------|--|
| Representation reference: 229/1/1  Name: Barratt David Wilson Homes | Refers to:<br>Chapter 1 | Legal compliance and soundness: Plan is not legally compliant: - not compliant with duty to cooperate | Comments: Paragraph 1.10 contains an error in so far so there is actually no legal duty to co-operate under the Local Act 2011 to consult with the Local Enterprise Partnership. The Town and County Planning (Local Planning England 2012) as amended, does not place a duty to co-operate with the LEPs and Local Nature Partnerships. Only regard must be had to their activities when preparing local plans, so long as their activities are relevant to plan-making.  Paragraph 1.13 states that the Statement of Common Ground (SOC) will be made prepared alongside the version of the Local Plan to be submitted to the Secretary of State. The NPPF states in paragraph 27, "in order to demonstrate effective and ongoing joint working, strategic policy making authorities should prepare and maintain one or more statement of common ground, documentation the cross boundary matters being addressed and progress in co-operating to address these. These should be produced using the approach set out in National Planning Guidance and be made publicly available through the plan-making process to provide transparency." The National Planning Practice Guidance states that "Authorities should have made a statement of common ground available on their website by the time they publish their draft | Suggested changes:<br>None. | Officer comments: The Localism Act 2011 introduced the Duty to Cooperate. The Town and Country Planning (Local Planning) (England) 2012 outlines the bodies prescribed for the purposes of meeting the legal duty to cooperate. Regulation 4 (2) sets out that Local Enterprise Partnerships should be involved in the DTC. This is outlined in Paragraph 1.11 of the LPP2. Paragraph 27 of the NPPF refers to strategic policies. |

|  |                          |  | plan, in order to provide communities and other Stakeholders with a transparent picture of how they have collaborated". The plan by delaying the SOC, NBC are not demonstrating their statutory duty of co-operation on strategic matters.   |                                    | LPP2 does not contain strategic policies; strategic policies for Northampton are contained in the Part 1 Local Plan - the West Northamptonshire Joint Core Strategy.   |
|--|--------------------------|--|--|------------------------------------|--|
| Representation reference: 243/1/3  Name: Lisa Dawson | Refers to:<br>para. 1.18 | Legal compliance and soundness: Plan is not legally compliant: - not in accordance with SCI - not compliant with duty to cooperate  Plan is unsound: - not justified - not effective | Comments: Within the 195 page document "Northampton Local Plan Part 2 2011-2029; Proposed Submission - Round 2 June 2020" (page 11) you state that "this is the first stage of the plan preparation process and consultation took place in May/June 2016. The public were consulted" At NO point was any resident of Cosgrove Road and or Cosgrove Way made aware or any proposals to build on the area referred to as "The Green" until the Chronicle & Echo ran an article on the 13th July 2020 inviting residents to review a 200 page document. I would like it noted at this point, that a lot of residents are either elderly and/or disabled and many do not have access to Social Media. I do not think that the Council have met their legal obligation in notifying residents of the proposals. | Suggested changes: None specified. | Officer comments: The Council has undertaken consultations in accordance with the requirements set out in the Town and Country Planning (Local Planning) (England) Regulations 2012 as modified. This includes making the documents available for inspection at a principal office and other places (such as libraries) during normal office hours; and published on the local authority website. The Council also advertisedeach stage of consultation within Local Newspapers. |

| Representation reference: 35/1/2  | Refers to:<br>para. 2.27 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.       | Comments: Sound.   | Suggested changes:<br>None.  | Full details of consultation at each stage of the LPP2's progress can be found in the Consultation Statement on the Council's website. The Council have met their full legal obligations regarding publicising the production of the LPP2.  Officer comments: Noted. |

| Representation reference: 62/1/3  Name: Northamptonshire County Council / North Northants JPU | Refers to:<br>para. 3.3<br>and<br>Objective<br>8 | Legal compliance and soundness: Plan is legally compliant. Plan is sound.             | Comments: Strategic objective 8 Firstly, we welcome the fact that health and wellbeing are explicitly recognised within the Local Plan Part 2, integral as they are to creating sustainable communities. Specifically, we support the inclusion of strategic objective 8 – Public Health. We welcome the fact that the important role of planning in supporting health and wellbeing is acknowledged, both from the perspective of creating new development that supports healthy and active lifestyles as well as the importance of securing appropriate infrastructure through the planning process to support the provision of appropriate and accessible local health services.  This is very much in line with the increased focus on health and wellbeing within the National Planning Policy Framework, notably the sections referred to below:  8. Promoting healthy and safe communities  91. Planning policies and decisions should aim to achieve healthy, inclusive and safe places which:  c) enable and support healthy lifestyles, especially where this would address identified local health and well- being needs – for example through the provision of safe and accessible green infrastructure, sports facilities, local shops, access to healthier food, allotments and layouts that encourage walking and cycling. | Suggested changes:<br>None. | Officer comments: Noted.    |

|  |                              |   | 92. To provide the social, recreational and cultural facilities and services the community needs, planning policies and decisions should:  b) take into account and support the delivery of local strategies to improve health, social and cultural well-being for all sections of the community; and Planning Guidance relating to Health and Wellbeing: https://www.gov.uk/guidance/health-and-wellbeing |                             |   |

| Name:<br>HBF   |   | Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Policy 1 sets out the presumption in favour of sustainable development. The 2019 NPPF confirms that Local Plans should avoid unnecessary duplication including repetition of policies in the NPPF itself (para 16f). The presumption in favour of sustainable development is clearly set out in the 2019 NPPF (para 11). In attempting to repeat national policy there is a danger that some inconsistencies creep in and lead to small but critical differences between national and local policy causing difficulties in interpretation and relative weighting. | therefore it should<br>be deleted.  | message that this presumption in sustainable development is required within this predominantly urban area which is dominated by heritage assets and natural environment.   |

| Representation reference: 75/1/4  Name: Town Centre Conservation Area Advisory Committee | Refers to:<br>Policy 3 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective - not consistent with national policy | Comments:  A healthy design should include access to nature and natural environments, and taking the opportunity to create natural environments. This is important not only in existing natural sites at the edge of the town, but also for improving the lives of people living within the town centre by encouraging nature all around them, and creating green corridors of habitat for wildlife. | Suggested changes: Therefore add a bullet point "Designs should create areas of natural environment which prioritise nature, and where allow visual, aural and where possible physical access to people. For small scale sites this may include retaining or creating gardens with soft, permeable surfaces and planting which encourages wildlife, for larger scale sites this may include larger wildlife areas with suitable habitat to encourage nature." | Officer comments: Policy 27 of the LPP2 requires new developments to sustain and enhance existing, and support the creation of, Northampton's green infrastructure. This includes ensuring green infrastructure assets are protected, managed, maintained and connected. Development proposals will need to demonstrate how they make a positive contribution to projects identified in Northampton Green Infrastructure Plan. Policy 3 requires new developments |

| Representation<br>reference: 97/1/10<br>Name:<br>Clayson Country<br>Homes                  | Refers to:<br>Policy 3 | Legal compliance and soundness: Plan is legally compliant. Plan is sound.             | Comments: Furthermore, in respect of Policy 2, 3 and 4, it is considered that the policies could potentially contain cross reference provisions to potential future SPD's which could afford some future flexibility to the Council to allow for responses to changes in circumstances. For example, the Nationally Described Space Standards have been referenced within Policy 4, through linking to SPD the Council would be able to publish local interpretations and locally specific approaches to achieving the overall aims and objectives for the Borough over the life of the plan. | Suggested changes:<br>None. | Officer comments: The preparation of SPDs is, by virtue of regulations, required to be linked to a policy. It is not considered necessary to provide a link to any future SPDs particularly as there is no guarantee that those SPDs will be prepared. |
| Representation<br>reference:<br>148/1/12<br>Name:<br>St Clair Land and<br>Developments LLP | Refers to:<br>Policy 3 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound. | Comments: In terms of Policy 2 and Policy 3 which respectively seek to address place making and design, whilst it is considered that locally specific policy in respect of each is required, some minor revision of each policy could serve to remove some of those elements which are already catered for within the NPPF.   | Suggested changes:<br>None. | Officer comments: The policy has been formulated to provide interpretation of the NPPF for application at the local level.   |
| Representation reference: 148/1/14  Name: St Clair Land and Developments LLP               | Refers to:<br>Policy 3 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound. | Comments: In respect of Policy 2, 3 and 4, it is considered that the policies could potentially contain cross reference provisions to potential future SPD's which could afford some future flexibility to the Council to allow for responses to changes in circumstances.  | Suggested changes:<br>None. | Officer comments: SPDs can be prepared in any case to provide further details on the implementation of the policies. There is no need to mention this in a policy.   |
| Representation reference: 172/1/13   | Refers to:<br>Policy 3 | Legal compliance and soundness:   | Comments:  Homes England's Strategic Plan commits the Agency to improving design quality including through the use of Building  | Suggested changes:<br>None. | Officer comments: Noted.   |

| Representation reference: 251/1/4  Name: Duncan Investments Ltd - Site E of Towcester Rd                  | Refers to:<br>Policy 3 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  Policy 3 requires that new developments are required to 'achieve the Building for Life certification'.  The Council's policy approach to good placemaking should accord with the NPPF and the latest PPG. The PPG1 confirms that the National Design Guide, which 'sets out the characteristics of well-design places and demonstrates what good design means in practice', should also be read alongside. Firstly, the Building for Life 12 (edition 2018) has since been replaced by Building for a Healthy Life (edition 2020) and therefore its inclusion does not represent the most up-to-date assessment framework; though BHL2 does indeed note that 'as BHL is the new name for Building for Life 12, local authorities can use BHL without having to rewrite existing policy documents.' | Suggested changes: Replace Building for Life (edition 2018) with 'Building for a Healthy Life' (Edition 2020).   | Officer comments: Agreed. Modify the plan and replace Building for Life (edition 2018) with 'Building for a Healthy Life' (Edition 2020).  |
| Representation<br>reference: 251/1/5<br>Name:<br>Duncan<br>Investments Ltd -<br>Site E of Towcester<br>Rd | Refers to:<br>Policy 3 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  Notwithstanding, whilst the Developers are supportive of the use of best practice guidance, imposing the requirement to achieve Building for Life certification on new developments should remain discretionary rather than becoming a mandatory policy requirement.  Indeed, the policy wording does not refer to minimum development thresholds and would therefore appear applicable to all new development. Such a proposed approach does not accord with the PPG3 which advises the following:  'What are assessment frameworks and how can they be used appropriately?  Assessment frameworks are a set of criteria against which a design can be assessed. They can cover a range of issues that  | Suggested changes: In this regard, any minimum development threshold should apply to large scale housing and mixed use developments proposing approximately 500 dwellings or more. | Officer comments: Amend Policy 3 Replace Building for Life certification with 'Building for a Healthy Life certification'. The Council considers that all developments should meet Building for a Healthy Life criteria. No modification required. |

are important for securing well-designed places (such as Building for Life 12) or may focus on particular considerations such as climate change or health. Local planning authorities and developers may wish to use assessment frameworks to inform the design and evaluation of proposals, and support discussions with local communities and other interests about the creation of good places. Frameworks are effective when the issues within them are considered in relation to the particular context and character of a local area. Authorities may wish to refer to the use of specific frameworks in their policies or supplementary planning guidance that are most relevant to the vision for their area, although it is important to ensure that they are used in a proportionate way and do not conflict with national or local planning policy.' [Emphasis added] The Developers consider the requirement to achieve Building for Life certification on all new developments is disproportionate and unjustified, contrary to NPPF Paragraph 35 which considers plans and its policies 'sound' provided they are justified. Its inclusion would create the requirement to secure certification/commendation on all new development, with details likely requiring approval at the reserved matters or precommencement stage. In this regard, it is noted that BHL Commendations can be applied for on developments which meet the green light criteria contained within BHL, subject only to the BHL Review and its approval4. In cases for non-large-scale housing development, such a process adds unnecessary cost and delay to the decisionmaking process, contrary to NPPF Paragraph 59 which states

that land with permission should be developed without

|                    |            |                  | unnecessary delay. In any event, the design of applications for small and medium-scale residential development will already be subject to review by the Council's Urban Design Officer against the requirements draft Policy 2 (Placemaking) and elsewhere in Policy 3. To add another layer of design scrutiny through the requirements of a BHL Review would be unnecessary and burdensome.  The requirement to achieve Building for Life certification should be deleted or, alternatively, its wording amended to include a minimum development threshold to align with the objectives and suggested use of assessment frameworks stated within NPPF Paragraph 129:  'Local planning authorities should ensure that they have access to, and make appropriate use of, tools and processes for assessing and improving the design of development. These include workshops to engage the local community, design advice and review arrangements, and assessment frameworks such as Building for Life. These are of most benefit if used as early as possible in the evolution of schemes, and are particularly important for significant projects such as large scale housing and mixed use developments. In assessing applications, local planning authorities should have regard to the outcome from these processes, including any recommendations made by design review panels.' [Emphasis added] |                    |   |

| Representation reference: 200/1/32  Name: HBF            | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The NDSS should only be introduced on a "need to have" rather than a "nice to have" basis. Need is generally defined as "requiring something because it is essential or very important rather than just desirable". The identification of a need for the NDSS should identify the harm caused or may be caused in the future. If it had been the Government's intention that generic statements simply stating in some cases the NDSS had not been met justified adoption of the NDSS then the standard would have been incorporated as mandatory in Building Regulations, which is not the case.  | Suggested changes:<br>None specified. | Officer comments: The NDSS Technical Paper sets out the Council's evidence for adopting optional Nationally Described Space Standards. No modification required.  |
| Representation<br>reference:<br>200/1/33<br>Name:<br>HBF | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  To test the cumulative impact of policy requirement compliancy, the Council's viability assessment should be based on NDSS. The Council's Plan Viability Study by Aspinall Verdi has not properly tested the impacts of introducing the NDSS. The average house sizes tested are not NDSS compliant (see Tables 5-11, 5-12 & 5-13). The Council's viability assessment should recognise that the requirement for NDSS reduces the number of dwellings per site, therefore the amount of land needed to achieve the same number of dwellings must be increased. The efficient use of land is less because development densities have been decreased. At the same time, infrastructure and other contributions fall on fewer dwellings per site, which may challenge viability, delivery of affordable | Suggested changes:<br>None.           | Officer comments: Table 5-3 of the Viability Assessment sets out that the MHCLG NDSS have been used to determine viability of the Plan. No modification required. |

|   |                        |  | housing and release of land for development by landowners especially in lower / middle value areas and on brownfield sites.   |                                       |   |

| Representation reference: 200/1/34  Name: HBF | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The impact of adopting NDSS on affordability should also be assessed. There is a direct relationship between unit size, cost per square metre, selling price per metre and affordability.  Over the last two decades housing affordability in the Borough has worsened. In 1997, the median affordability ratio was 3.1, which has more than doubled by increasing to 7.02 in 2019.  The Council should recognise that customers have different budgets and aspirations. An inflexible policy approach to NDSS for all dwellings will impact on affordability and effect customer choice. The introduction of the NDSS for all dwellings may lead to customers purchasing larger homes in floorspace but with bedrooms less suited to their housing needs. A future purchaser needing a 2 bedroomed home may only be able to afford a 2 bed / 3 person dwelling of 70 square metres with one double bedroom and one single bedroom rather than 2 bed / 4 person dwelling of 79 square metres with two double bedrooms. This may lead to the unintended consequences of potentially increasing overcrowding and reducing the quality of their living environment. Non-NDSS compliant dwellings may be required to ensure that those on lower incomes can afford a property, which meets their bedroom requirements. | Suggested changes:<br>None specified. | Officer comments: The policy has been assessed as being viable. |
| Representation reference: 200/1/35            | Refers to:<br>Policy 4 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.  | Comments:  The Council should assess any potential adverse impacts on meeting demand for starter homes / first-time buyers because the greatest impacts are on smaller dwellings, which may affect  | Suggested changes:<br>None specified. | Officer comments: The policy has been assessed as being viable. |
| Name:   |                        |  | delivery rates of sites included in the housing trajectory. The   |                                       | viable.   |
| НВГ   |                        | Plan is unsound: - not positively prepared - not justified   | delivery rates on many sites will be determined by market affordability at relevant price points of dwellings and maximising absorption rates. | Persimmon Homes       |            | Plan is unsound: - not justified - not effective - not consistent with national policy | that the need for the NDSS must be established in the authority area. The PPG refers to three key aspects that should be assessed as part of this:  Need — evidence should be provided on the size and type of dwellings currently being built in the area, to ensure the impacts of adopting space standards can be properly assessed, for example, to consider any potential impact on meeting demand for starter homes  Viability — the impact of adopting the space standard should be considered as part of the plan's viability assessment with account taken of the impact of potentially larger dwellings on the land supply. Local planning authorities will also need to consider the impact on affordability where a space standard is to be adopted  Timing — There may need to be a reasonable transition period following the adoption of a new policy on space standards to enable developers to factor the cost of space standards into future acquisitions.  Where demonstrating need is concerned, the only commentary is in paragraph 5.9 of the supporting text to draft Policy 4. This states that  "The Council undertook desktop research of just over 100 housing developments granted planning permission between 2015 and 2018, and concluded that around half of the schemes met most of the guidance set out in the NDDS." |                    | Technical Standards paper (July 2020) which outlines the need to comply with the NDSS. |

| Representation reference: 201/1/6  Name: Persimmon Homes | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments: Finally, no consideration has been given to the desirability or otherwise of a transitional period and we would expect this to be assessed in light of the commentary in the PPG.  | Suggested changes: Finally, no consideration has been given to the desirability or otherwise of a transitional period and we would expect this to be assessed in light of the commentary in the PPG. | Officer comments: The LPP2 is expected to be adopted in the second half of 2021. There is sufficient opportunity for developers to transition into the new policy requirements between now and then.                      |
|  |                        | - not justified - not effective - not consistent with national policy  | "In devising suitable floor areas to use we have had regard to MHCLG minimum space standards and new build developments coming forward in the borough."  Simply having "had regard" to the NDSS amongst other factors in deciding on the relevant floor areas to use in appraisals is different from assessing the viability, affordability and supply implications of applying these standards to all future forthcoming schemes over the plan period. In discussing draft Policy 4, Appendix 1 to the Plan Viability Study (June 2020) does not reference the NDSS at all and states that the associated costs have been dealt with through "scheme design and allowance for external works." This is an ambiguous statement and does not give the necessary confidence that NDSS has been properly integrated into the viability modelling. In addition, contrary to the requirements of the PPG, there is no commentary on the impacts of requiring larger dwellings on the future land supply (a significant consideration given the largely urban nature of the authority's area) nor any qualitative consideration of the corresponding impacts upon affordability. |  | storage areas as set out in the Nationally Described Space Standards, or successor guidance. This has been tested through the LPP2's viability assessment and has been found to be achieveable. No modification required. |

| Name:<br>Persimmon Homes |            | Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Persimmon therefore OBJECTS to Policy 4 in its current form since it is not justified by proportionate evidence nor is it compliant with national policy. | The part of the policy that requires compliance with the NDSS should be deleted. | The Council has prepared an Optional Higher Technical Standards paper (July 2020) which outlines the need to comply with the NDSS. All developments are required to provide at least the minimum internal space standards and storage areas as set out in the Nationally Described Space Standards, or successor guidance. This has been tested through the LPP2's viability assessment and has been found to be achieveable. No modification required. |

| Representation<br>reference:<br>250/1/13<br>Name:<br>St Clair Land and<br>Developments LLP<br>Old Bedford Road | Refers to:<br>Policy 4 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound.  | Comments: In respect of Policy 2, 3 and 4, it is considered that the policies could potentially contain cross reference provisions to potential future SPD's which could afford some future flexibility to the Council to allow for responses to changes in circumstances. For example, the Nationally Described Space Standards have been referenced within Policy 4, through linking to SPD the Council would be able to publish local interpretations and locally specific approaches to achieving the overall aims and objectives for the Borough over the life of the plan.  | Suggested changes:<br>None.  | Officer comments: SPDs can be prepared in any case to provide further details on the implementation of the policies. There is no need to mention this in a policy. |
|--|------------------------|--|---|--|--|
| Representation reference: 251/1/6  Name: Duncan Investments Ltd - Site E of Towcester Rd                       | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  Policy 4 requires that new development should ensure 'provision of at least the minimum internal space standards and storage areas as set out in the Nationally Described Space Standards (NDSS) or successor guidance.'  Should the Council wish to apply the optional NDSS to new build dwellings, this should be done in accordance with Footnote 46 of NPPF Paragraph 127(f): 'Planning policies for housing should make use of the Government's optional technical standards for accessible and adaptable housing, where this would address an identified need for such properties. Policies may also make use of the nationally described space standard, where the need for an internal space standard can be justified.'  As set out under Paragraph 31, all policies should be 'underpinned by relevant and up-to-date evidence', and 'should be adequate, proportionate and focussed tightly on supporting and justifying the policies concerned.' Additionally, the PPG5 sets out:  'Where a need for internal space standards is identified, the authority should provide justification for requiring internal space policies. Local planning authorities should take account of [need, viability and timing]' | Suggested changes: The Developers consider that NDSS should only be introduced on a 'need to have' rather than a 'nice to have' basis: the identification of a need for NDSS should identify the harm caused or may be caused in the future. | Officer comments: The NDSS Technical Paper sets out the Council's evidence for adopting optional Nationally Described Space Standards.                             |

|  |                        |  | Before adopting the NDSS, the Council should provide a local assessment evidencing the case for Northampton. The Council has not demonstrated any evidence of need for the NDSS via its desktop research6  The Council undertook a desktop research of circa 100 developments granted consent between 2015 and 2018, which concluded that around half of the scheme met most of the guidance set out in NDSS; as such, there is clearly not a systemic problem which requires resolution.  The Developers consider that NDSS should only be introduced on a 'need to have' rather than a 'nice to have' basis: the identification of a need for NDSS should identify the harm caused or may be caused in the future.   |                                       |   |

| Representation reference: 251/1/7  Name: Duncan Investments Ltd - Site E of Towcester Rd | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  To test the cumulative impact of policy requirement compliancy, the Council's viability assessment should be based on NDSS, however it would appear the Council's Plan Viability Study (Aspinall Verdi, June 2020) has not properly tested the impacts of introducing NDSS.  The average house sizes tested are not NDSS compliant (see Tables 5-11, 5-12 & 5-13). The Council's viability assessment should recognise that the requirement for NDSS decreases site density and, thus, additional land is required in order to achieve the same number of dwellings. It should also recognise that decreased densities results in a less efficient use of land and, at the same time, infrastructure and other contributions fall on fewer dwellings per site, which may challenge viability, delivery of affordable housing and release of land for development by landowners. | Suggested changes:<br>None specified. | Officer comments: Table 5-3 of the Viability Assessment sets out that the MHCLG NDSS have been used to determine viability of the Plan. No modification required. |
| Representation reference: 251/1/8 Name:  | Refers to:<br>Policy 4 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.  | Comments:  The impact of adopting NDSS on affordability should also be assessed given the direct relationship between unit size, cost, value and affordability. Simply put, an increase in unit size is likely to result in an increase in build costs; in turn this will  | Suggested changes:<br>None specified. | Officer comments: The policy has been assessed as viable.   |

| Duncan<br>Investments Ltd -<br>Site E of Towcester<br>Rd  |                        | Plan is unsound: - not justified - not effective - not consistent with national policy   | undoubtedly increase the cost of new housing in a Borough where affordability has significantly worsened in the last decade.  An inflexible policy approach to NDSS for all dwellings is likely to impact on affordability and have a negative effect on customer choice: the introduction of NDSS for all dwellings may lead to customers purchasing larger homes in floorspace but with bedrooms less suited to their housing needs.   |                                       |   |
|---|------------------------|--|--|---------------------------------------|---|
| Representation<br>reference: 251/1/9<br>Name:<br>Duncan<br>Investments Ltd -<br>Site E of Towcester<br>Rd | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments: In this regard, the Council has not assessed the potential adverse impact on meeting demand for starter homes or first-time buyers, as outlined by the PPG7: '[] evidence should be provided on the size and type of dwellings currently being built in the area, to ensure the impacts of adopting space standards can be properly assessed, for example, to consider any potential impact on meeting demand for starter homes.' The delivery rates on many sites will be driven by market affordability at the relevant price points of dwellings and thus maximising absorption rates. An adverse impact on the affordability of starter home and/or first-time buyer products may translate into reduced or slower delivery rates. | Suggested changes:<br>None specified. | Officer comments: The policy has been assessed as being viable. |
| Representation reference: 251/1/10  Name: Duncan Investments Ltd - Site E of Towcester Rd                 | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  Moreover, the Developers note that no assessment has been provided of how many more households will be pushed into affordable housing need as a result of the adoption of the NDSS and the increased costs, as outlined by the PPG8: '[] the impact of adopting the space standard should be considered as part of a plan's viability assessment with account taken of the impact of potentially larger dwellings on land supply. Local planning authorities will also need to consider impacts on affordability where a space standard is to be adopted.'  | Suggested changes:<br>None specified. | Officer comments: The policy has been assessed as viable.       |

|   |                        |  | An unintended consequence of the Council's policy approach may be an increased need for affordable housing at the same time as the cumulative impact of compliancy with policy requirements reduces the viability of development and lessens delivery of affordable housing.  |                                       |  |
|---|------------------------|--|---|---------------------------------------|--|
| Representation reference: 251/1/11  Name: Duncan Investments Ltd - Site E of Towcester Rd | Refers to:<br>Policy 4 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  If the proposed requirement for NDSS is carried forward, then the Council should put forward proposals for transitional arrangements, as advised by the PPG9:  '[] there may need to be a reasonable transitional period following adoption of a new policy on space standards to enable developers to factor the cost of space standards into future land acquisitions.' Any land acquisitions underpinning residential sites may have been secured prior to any proposed introduction of the NDSS and therefore these sites should be allowed to move through the planning system before any proposed policy requirements are enforced. The NDSS should not be applied to any reserved matters applications or any outline or detailed approval prior to a specified date.  The requirement for NDSS should be deleted or, if adopted, the Council should put forward appropriate proposals for transitional arrangements. | Suggested changes:<br>None specified. | Officer comments: It is considered that the development industry has sufficient time to implement this policy. Transitional arrangements are not required. |
| Representation<br>reference: 53/1/3<br>Name:<br>Anglian Water<br>Services Limited         | Refers to:<br>Policy 5 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound.  | Comments: Policy 5 Carbon Reduction, Community Energy Networks, Sustainable Design and Construction, and Water Use - SUPPORT Policy 5 refers to residential developments being required to mininise water consumption by meeting the optional requirement of 110 litres/per person/per day. Anglian Water and the Environment Agency and Natural England has issued advice to local planning authorities (copy attached) stating that there is evidence to demonstrate a need for optional water efficiency standard to be applied in the   | Suggested changes:<br>None.           | Officer comments:<br>Noted.  |

| Representation reference: 75/1/7  Name: Town Centre Conservation Area Advisory Committee | Refers to:<br>Policy 5 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective - not consistent | Anglian Water supply area. As such we fully support the inclusion of this standard in the policy.  We note that changes have made to refer to water re-use measures in response to comments made by Anglian Water as part of the earlier pre-submission consultation.  Opportunities for a more holistic and integrated approach to water management should form part of the plan, to encourage multi-functional water management assets which support other community objectives. This approach combines different elements of water management (e.g. combining SuDS with a water re- use system to both manage runoff and provide an alternative non-potable water supply) together with town planning and design (e.g. integrating the planted SuDS features throughout a development to contribute to 'greener' streetscapes).  For the reasons set out above we fully support the reference made to development proposals incorporating water re-use measures wherever possible to reduce demand on existing water supply and impact on existing sewerage infrastructure.  Comments:  Refurbishment of existing building stock should not simply use the same sustainable construction methods as new build, it must allow for different historic construction methods (e.g. dampproof treatments are not the same for solid wall construction) and the need to preserve and enhance character of heritage assets (e.g. replacing windows not appropriate). | Suggested changes: Therefore add a bullet point "For the conversion, maintenance and refurbishment of historic and traditional | Officer comments: Policy 31 of the LPP2 details the requirement to specifically protect designated and non- designated heritage assets. |

| Representation<br>reference:<br>200/1/38<br>Name:<br>HBF | Refers to:<br>Policy 5 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments: Policy 5: Carbon Reduction, Community Energy Networks, Sustainable Design & Construction and Water Use Under Policy 5 planning applications for major development must include a Sustainability Statement setting out their approach to adaptation to climate change and carbon reduction. All development proposals should, where possible, incorporate decentralised energy networks and actively promote energy efficiency and use of renewable energy sources where there is opportunity to do so.  The 2019 NPPF states that policies should be clearly written and unambiguous (para 16). The policy does not provide a clear indication as to how an applicant should prepare a planning application nor how a decision-maker should react to a development proposal.                            | Suggested changes:<br>None.           | Officer comments: Details of how to apply for planning permission are on the Planning Portal. No modification required. |
| Representation reference: 200/1/39  Name: HBF            | Refers to:<br>Policy 5 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The Council has declared a Climate Emergency and is committed to a target of making Northampton carbon neutral by 2030 (paras 2.48 & 5.11). It is the HBF's opinion that the Council's policy approach should reflect the Government's proposals as set out in the Future Homes Standard consultation, which ended on 7th February 2020. The UK has set in law a target to bring all its greenhouse gas emission to net zero by 2050. New and existing homes account for 20% of emissions. It is the Government's intention to future proof new homes with low carbon heating and world-leading levels of energy efficiency. The Government's consultation addressed:  • options to uplift standards for Part L (Conservation of Fuel & Power) and changes to Part F (Ventilation) Building Regulatios | Suggested changes:<br>None specified. | Officer comments: The Government's guidance has not yet been finalised.   |

|                           | Deferrate              |                                 | <ul> <li>transitional arrangements to encourage quicker implementation; and</li> <li>clarifying the role of Councils in setting energy efficiency standards.</li> <li>The HBF's response recognises and supports the need to move to The Future Homes Standard but the Government's preferred Option 2 for a 31% reduction in carbon emissions compared to the current Part L 2013 requirements in 2020 would be difficult and risky to deliver given the immaturity of the supply chain for the production / installation of heat pumps, and the additional load that would be placed on local electricity networks when coupled with Government proposals for the installation of electric vehicle charging points (EVCP) in new homes. The HBF and its Members favour the Government's Option 1 for a 20% reduction in emissions in 2020 (involving higher fabric efficiency standards than Option 2) and then a further step to Option 2 standards than Option 2) and then a further step to Option 2 standards by 2023, which would allow more time for the supply chain to gear up for the scale of demand entailed. The HBF submission argues that "a stepped and incremental approach should be adopted given, in particular, the large requirement for supply chain and infrastructure investment and skills training to support this ambition. The consensus is that Option 1 should be implemented within 2020, with Option 2 being implemented within two to three years in approximately 2023. Our membership sees that transitional arrangements around this implementation should be 18 – 24 months".</li> </ul> |                                       | Officers                         |

| i                         | 1                      | Diam's                          | _   |                                       |                                  |
| HBF                       |                        | Plan is unsound:                | (ended on 1st June 2020). Currently, there are no sector  |                                       |                                  |

|   |                        | - not positively prepared - not justified - not effective - not consistent with national policy  | people on other utilities such as gas, electricity or water. Some heat network consumers do not have comparable levels of satisfaction as consumers on gas and electricity networks, and they pay a higher price. A consumer living in a building serviced by a heat network does not have the same opportunities to switch supplier as they would for most gas and electricity supplies. All heat network domestic consumers should have ready access to information about their heat network, a good quality of service, fair and transparently priced heating and a redress option should things go wrong. These concerns should be considered by the Council.  The Council's viability assessment excludes any costs for Future Homes Standard or the cost of connection to decentralised energy scheme. The Government's consultation estimated Future Homes Standard costs between £2,557 - £4,847 per dwelling.  |   |  |
|---|------------------------|--|---|---|--|
| Representation reference: 200/1/41  Name: HBF | Refers to:<br>Policy 5 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Policy 5 also states that residential development proposals should demonstrate that dwellings meet the Building Regulation optional higher water efficiency standard of 110 litres per person per day, as set out in Building Regulations Part G2. Water reuse & recycling, rainwater & stormwater harvesting and other suitable measures should be incorporated wherever feasible to reduce demand on mains water supply.  All new dwellings achieve a mandatory level of water efficiency of 125 litres per day per person under Building Regulations, which is higher than that achieved by much of the existing housing stock. This mandatory standard represents an effective demand management measure. The WMS dated 25th March 2015 confirmed that "the optional new national technical standards should only be required through any new Local Plan policies if they address a clearly evidenced need, and where their impact on viability has been considered, in accordance with the NPPG". If the Council wishes to adopt the optional | Suggested changes: The requirement for the optional water efficiency standard is unjustified by supporting evidence. This policy requirement should be deleted. | Officer comments: The Anglian Water region is particularly vulnerable to the impacts of climate change and is identified as an area of serious water stress. As such the optional requirement of 110 litres / person / day is justified. No modification required. |

|  |                        |   | standard for water efficiency of 110 litres per person per day, then the Council should justify doing so by applying the criteria set out in the NPPG (ID 56-013 to 56-017). The NPPG refers to "helping to use natural resources prudently to adopt proactive strategies to take full account of water supply and demand considerations whether a tighter water efficiency requirement for new homes is justified to help manage demand" however the Housing Standards Review was explicit that reduced water consumption was solely applicable to water stressed areas. The Anglian Water company area may be considered an area of water stress but Northampton Borough is only part of this wide area, the Council has provided no evidence that the Borough itself is a water stressed area. |   |  |

|--|------------------------|---|--|--|---|
| Representation reference: 241/1/6  Name: British Horse Society | Refers to:<br>Policy 5 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  'Movement and access walking and cycling' excludes equestrians.  Horse riders have access to only 22% of the public rights of way network and carriage drivers to just 5%. Invariably equestrians have to use the road network to access their nearest bridleway or byway and it is important that they are able to do this safely and are provided with safe routes just as walkers and cyclists are. Including equestrians provides even better value for the public purse.  Over 90% of equestrians are women and 37% of these are over 45 years of age and over a third would pursue no other physical activity (Church et al, 2010 and NHS,2019). 'Horse riding induces physiologically positive effects such as muscle strength, balanceand psychologically positive changes' (Sung et al, 2015). In the current climate mental health is hugely important and horse riding and carriage driving play a large part in enhancing physical and psychological health therefore should be included in improving quality of life and wellbeing through an inclusive transport system accessible to all which emphasises sustainable and active travel. | Suggested changes: In the current climate mental health is hugely important and horse riding and carriage driving play a large part in enhancing physical and psychological health therefore should be included in improving quality of life and wellbeing through an inclusive transport system accessible to all which emphasises sustainable and active travel. | Officer comments: Noted.  |

|                     |            |                      | consulted as part of the Draft Proposed Submission                       |                       |                        |
|                     |            |                      | Consultation (June 2019).  |                       |                        |
|                     |            |                      | However, Anglian Water's response did not disclose any locally           |                       |                        |
|                     |            |                      | specific evidence to suggest whether Northampton Borough is              |                       |                        |

|   |                          |   | itself an area of serious water stress; instead, its response outlined:  'We understand that the Environment Agency considers that the area served by Anglian Water is an area of serious water stress as defined in the Environment Agency 2013 'Water stressed areas final classification report'. Therefore we would fully support the optional water efficiency standard being applied within the Northampton Local Plan area.' [Emphasis added]  Whilst the area served by Anglian Water may be considered an area of water stress, the administrative boundary of Northampton Borough forms only part of this wide area; Anglian Water nor the Council have provided any further evidence which clearly demonstrates that the Borough itself is a water stressed area. This is supported by the PPG12 which confirms:  'In addition to these primary data sources, locally specific evidence may also be available, for example collaborative 'water cycle studies' may have been carried out in areas of high growth.' |   |  |

|  |                        |   | to mitigate any negative health and wellbeing impacts   |                             |   |

|  |                        |   | or maximise the positive contributions to health and wellbeing.  • The planning authority to judge the contribution the development proposals make to health and wellbeing and thus how they meet the health and wellbeing requirements of NPPF and LPP2 Policy 6.  • Inform discussion / consideration of the proposals by consultees such as the local Public Health team and Clinical Commissioning Group.  This approach is aligned to the Planning Practice Guidance. The submitted Health Impact Assessment would inform the views / representations of health sector consultees such as the Northamptonshire Director of Public Health and the local clinical commissioning groups. It would do this by identifying any significant impact on the health and wellbeing of the local population or particular groups within it and inform consideration of whether the new development would have a significant or cumulatively significant effect on health |                             |                          |

Plan is sound. | infrastructure and/or the demand for healthcare services.  Comments: Physical activity Very simply, our population is generally not being active enough to maintain good health and wellbeing. The Northamptonshire Physical Activity & Sport Framework – More Active, More Often (https://www.northamptonshiresport.org/files/59369/northamptonshiremoreactivemoreoften-lowres-mar18.pdf) notes that we are spending significant amounts of our lives in poor health and one of the most important factors in this is that we are not being physically active enough. Achieving higher levels of active travel is likely to require significant investment in the public realm and walking and cycling infrastructure. Specific aspects that should be addressed include:   | Suggested changes:<br>None. | Officer comments: Noted. |

| Representation                       | Refers to: | Legal compliance | <ul> <li>Way marking – ensuring walking and cycling routes are clear, prominent and easily navigable. You may have good walking / cycling routes but if people cannot easily find where they are going, they are less likely to use them.</li> <li>Safe and attractive – walking and cycling routes need to be appealing if they are to be used on a mass scale. Safety is a key aspect of this and should be addressed through high quality infrastructure, including cycleways that are segregated from motor vehicle traffic.</li> <li>Cycle parking – needs to be prominently located, to make it accessible and genuinely appealing to use. This has the added benefit of raising the profile of cycling as a means of travel.</li> <li>Places to rest / stop – for many people, particularly those with mobility issues, having places to stop and rest will be critical.</li> </ul> Comments: | Suggested changes: | Officer comments:   |

| Representation reference: 75/1/8  Name: Town Centre Conservation Area Advisory Committee | Refers to:<br>Policy 6 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective - not consistent with national policy | Comments: Providing access to nature improves wellbeing and can also improve health by promoting physical activity. There is a need to both provide new natural environment on site, and to provide routes to natural environment off-site. This is even more important where the development site was previously a natural environment, the development of which removes opportunities for local residents to experience nature. | Suggested changes: Therefore add a new bullet point: "Promoting access to the natural environment by both providing new natural environment on site, and providing routes to other natural environments nearby e.g. creation of foot-paths". | Officer comments: Policy 27 of the LPP2 requires new developments to sustain and enhance existing, and support the creation of, Northampton's green infrastructure. This includes ensuring green infrastructure assets are protected, managed, maintained and connected. Additionally, new development will need to demonstrate how it improves connectivity to the Local Level Green Infrastructure network beyond the site boundary. No modification required. |

|  | _                      |
|--|------------------------|
|  | b) are safe and        |
|  | accessible, so that    |
|  | crime and disorder,    |
|  | and the fear of        |
|  | crime, do not          |
|  | undermine the          |
|  | quality of life or     |
|  | community              |
|  | cohesion – for         |
|  | example through        |
|  | the use of clear and   |
|  | legible pedestrian     |
|  | routes, and high       |
|  | quality public space,  |
|  | which encourage        |
|  | the active and         |
|  | continual use of       |
|  | public areas; and      |
|  | c) enable and          |
|  | support healthy        |
|  | lifestyles, especially |
|  | where this would       |
|  | address identified     |
|  | local health and       |
|  | well-being needs –     |
|  | for example through    |
|  | the provision of safe  |
|  | and accessible green   |
|  | infrastructure,        |
|  | sports facilities,     |
|  | local shops, access    |
|  | to healthier food,     |
|  | allotments and         |
|  | layouts that           |
|  | encourage walking      |
|  | and cycling.           |

| Representation<br>reference: 234/1/4<br>Name:<br>Diversified Property<br>Fund For Charities | Refers to:<br>Policy 6 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Whilst it is not believed that this is their intention, the implication of these policies, as presently worded, is that a proposal for the change of use of a unit in excess of 1,000sqm would require the submission of a Sustainability Statement, Health Impact Assessment and Travel Plan. Applied to Grafton Trade Park, this could mean that a straightforward change of use application for one of the larger units (for example, to allow another car rental operator within the Trade Park) would trigger the need for such burdensome documents. Such requirements would appear to be inappropriate and disproportionate for such modest changes of use and ought to be removed. | Suggested changes: DPFC therefore suggest that these policies are amended to clarify that they apply solely to proposals for new build floorspace over 1,000sqm and not to changes of use of existing floorspace. | Applicants are expecetd to research what should be included in a Health Assessment, addressing points raised in the NPPF. No modification required.  Officer comments: It is important that these requirements apply to all developments because they all have impacts on sustainability, health and transport related matters. No modification required. |

| Representation reference: 53/1/7  Name: Anglian Water Services Limited            | Refers to:<br>Policy 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective | Comments:  We also note that it refers to major development proposals incorporating SuDS into the design and safeguarding access to Anglian Water's existing water and water recycling infrastructure.  Policy BN7A of the adopted West Northamptonshire Core Strategy requires the incoporation of SuDS in development wherever practicable. As such it doesn't limit the use of SuDS to major development proposals. Therefore the wording as proposed is inconsistent with the Core Strategy which would be read together with Part 2 Local Plan.  It is also important to emphasise that maintaining access to our existing infrastructure is essential for all development proposals and is not limited to major development proposals as suggested. | Suggested changes: We would therefore ask that Policy 7 is amended as follows removing wording in brackets: 'For all (major) development'.              | Officer comments: It is agreed that a proposed modification will strengthen the policy. It is recommended that Policy 7 be modified to remove wording in brackets: 'For all (major) development'. |

| reference: 30/1/14  Name: Northamptonshire County Council | Chapter 7  | and soundness: Plan is not legally compliant: - not in accordance with SCI  | In my view elements of the plan do not meet the stated 'principle of engagement in planning' of 'engaging the community and stakeholders in the early stages of plan-making and at subsequent stages'. For example, Site 0657 (Fraser Road) is in the list of proposed allocations. In the 2017 Sites Consultation Paper, this site was indicated as 'not being taken forward for further investigation'. It then appeared as a residential allocation on the policies map for the previous local plan draft submission version consultation. I have no record of either a public or direct consultation from the council regarding changes to the site assessments. For many sites this would not be an issue but in this case the assessment for site LAA0657 states that the site 'is not in proximity to any designated | None specified.   | In July 2019, the Government introduced a new set of guidelines in terms of what constitutes a "deliverable" housing site for the purposes of plan making. This meant that the Council was required to review its development |

five SUEs located in the Borough. There are no proposed compensatory housing allocations for shortfalls across the NRDA even though the WNJCS Inspector's Final Report sets out that other sites may be part of the response to under-delivery on SUEs (see paras 198-200) and the monitoring provisions of adopted WNJCS Policy S6 are engaged. In this context the LPP2 is not complementary to the adopted WNJCS. The LPP2 is not a positive policy response to assisting delivery of the WNJCS and national policy.

The WN LPP2s are not meeting housing needs nor significantly boosting housing supply. All WN authorities should be making maximum effort to allocate more housing land. The deferral of meeting housing needs to the WNSP as a review of the adopted WNJCS is unacceptable when LPP2s are capable of meeting identified housing need within the plan period to 2029. The WNSP provides no solution to the immediate and pressing need for housing. The LPP2s cannot abandon their function of delivering the WNJCS to the WNSP, which is already behind schedule. The meeting of shortfalls in delivery of identified housing needs for Northampton should be achieved through the LPP2s by the allocation of housing sites in and / or adjacent to the NRDA and / or in sustainable settlements within close proximity of the NRDA. The LPP2s should be based on effect joint working to deal with unmet needs rather than postponing resolution to a review of the WNJCS. The LPP2 is inconsistent with national policy by failing to meet the minimum housing requirements set out in the adopted WNJCS.

The role of the LPP2s is to deliver the requirements set out in the WNJCS. Policy S3 is clear about the delivery that each partner authorities are expected to deliver. The housing trajectory in the adopted WNJCS is heavily reliant on the delivery of the SUEs, which clearly has not materialised as expected. The decision to address Northampton's shortfall is considered to be in conformity to national guidance. The Council has undertaken an extensive Land Availability Assessment, investigating in excess of 500 sites. In determining whether the site should be allocated,

The production of the LPP2 will allow for complimentary growth on a range of different sites across the Borough which will serve to compliment, rather than compete with, the delivery of the larger strategic sites.  |                             |   |
|---|-------------------------|--|--|-----------------------------|---|
| Representation reference: 251/1/32  Name: Duncan Investments Ltd - Site E of Towcester Rd | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments: However, it is critical that the Council's assumptions on lapse rates, non-implementation allowances, lead-in times and delivery rates contained within its overall supply, five-year housing land supply and housing trajectory are accurate and realistic. In this regard, the Developers would be pleased to provide further information to the Council demonstrating the deliverability of residential development at Site east of Towcester Road. It is acknowledged that the land is affected by topography and will require noise mitigation measures. However, it is considered these constraints can be satisfactory accommodated through the design and layout of the scheme, particularly in the context of noise mitigation, which can be achieved through a 'buffer' to the railway and/or acoustic treatment.  An Indicative Concept Masterplan for the site, enclosed at Appendix 1, has been informed by extensive technical analysis. Access is currently achieved from the Towcester Road and there is an existing track under the railway line connecting with land to the east (site ref: LAA1109). Whilst this is not currently suitable for vehicles, it has the potential to provide pedestrian and/or cycle access through to the adjoining land, which would be a significant benefit should the Collingtree SUE be extended west in the future. This would ensure connectivity in this area of Northampton, linking the SUE with the Towcester Road The site is in a sustainable location close to existing properties to the north. A bus stop is located next to the site on the | Suggested changes:<br>None. | Officer comments: Noted. The consultant refers again to the same matters but also refers to Appendix 1 which is an indicative masterplan. |

| Representation reference: 221/1/1  Name: Sharon Ibrahim | Refers to:<br>para. 7.11 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified | Comments: I have concerns around the following: Loss of natural habitat and established trees. | Suggested changes:<br>None | Officer comments: Site 1134 sits adjacent to Beckett's Park which is designated parks and gardens. A border to the east of the site is expected to be retained as part of the site's development. Policy 29 of the LPP2 requires all major development to offset the loss of and secure a net gain in biodiversity through the strengthening, management and / or creation of new habitats. |

| Representation reference: 105/1/7  Name: Great Houghton Parish Council | Refers to:<br>Policy 13 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  However, the identification of an additional larger site at The Green, is at the heart of the Council's flawed strategy. At a time when economic conditions are weaker and resources constrained the Council should be looking to support development on already identified sites, not by unleashing further supply. With its current allocations Local Plan Part 2 seeks to bring forward an additional supply of land of 17.98% against the WNJCS target. This is unnecessary, the Council are already acknowledging persistent under- delivery; unwarranted in that it is not justified by the evidence; and not achievable.  15. The logic is flawed. What other organisation at a time of persistent under- delivery – 2,430 dwellings short of a target of 8,157 (1st April 2019), an under- performance of 29.79% would seek to increase the target by a further 17.98%. This level of over-provision will only lead to further under delivery, sites being allocated unnecessarily and, therefore, not sustainably. A much more measured approach is required, excluding the identification of further large sites and the identification, where possible, of sustainable small and medium sized sites that can be delivered in the short to medium term. In short, the Council are merely repeating past mistakes. On their own evidence larger sites have not achieved what was expected of them. But to make matters worse by allocating almost 25% of the additional housing land at one site The Green. Excluding The Green in favour of smaller sites would still lead to over-provision of 2,594 or 13.75% when compared against WNJCS target. | Suggested changes:<br>None specified. | Officer comments: The NPPF sets out that where there has been a significant under- delivery of housing, a buffer should be applied to maintain the supply of housing. No modification required. |

|---|-------------------------|--|--|-----------------------------|--|
| Representation reference: 113/1/7  Name: East Hunsbury Parish Council | Refers to:<br>Policy 13 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective | Comments: There are 5 proposed sites in East Hunsbury: LAA110, LAA1009, LAA1142, LAA0168 and LAA1102, and a site in West Hunsbury which abuts Towcester Road (LAA1025). N5 (Northampton South SUE) sits across East Hunsbury and Collingtree and has a capacity of 1,000 dwellings, although none have yet been completed. The cumulative impact of the development of these sites, and other approved developments such as the SRFI should be considered.  The proposed remodelling of the Rowtree Road approach to the A45 will do little to mitigate the impact of increased traffic, and there is no consideration for the congestion that occurs in East Hunsbury due to issues on the A45 or the M1.  We do not consider the identified highway infrastructure improvements robust enough to accommodate the cumulative scale of growth proposed. The opportunity should be taken to review traffic impact on Northampton as a whole, including the proposal for a Northern Orbital road which will serve other SUEs and reduce pressure on the A45. | Suggested changes:<br>None. | Officer comments: The LPP2 has undergone traffic modelling and analysis. It has identified highway infrastructure improvements needed to accommodate the cumulative scale of growth. This is outlined in Appendix C. Transport Assessments or Statements will be required for development proposals and these may indicate the need for localised improvement works, particularly around access to |

| Representation<br>reference: 152/1/9<br>Name:<br>Buddies of Beckets | Refers to:<br>Policy 13 | Legal compliance and soundness: Plan is legally compliant. Plan is sound.             | Comments: I oppose building on the St Johns embankment for the following reasons: Loss of natural boarder to the park, which separates Beckets Park from a petrol station and Morrisons car park - to have even more building around a park in a town centre location will mean loss of a valuable green space. It is also well evidenced that people living next to a park often have issues with noise/ASB which will impact upon the council and police having to deal with such complaints. | Suggested changes:<br>None. | Officer comments: Site 1134 sits adjacent to Beckett's Park which is designated parks and gardens. A border to the east of the site is expected to be retained as part of the site's development. Policy 6 of the LPP2 requires development to prevent negative impacts on residential amenity from noise. |

|--|-------------------------|--|---|--|---|
| Representation reference: 172/1/5  Name: Homes England   | Policy 13               | Legal compliance and soundness: Plan is legally compliant.  Soundness: - not specified | Homes England have undertaken work on indicative site capacity of these sites which indicate that the Dwelling Capacity in Policy 13 for a number of these sites is incorrect. As such Homes England objects to the wording of Policy 13 as currently drafted. Please see our more detailed comments on Site Specific Policies 41 & 43 for Refs 1098 & 1139.  As currently drafted, the policy is too prescriptive and does not meet the test of soundness by failing to plan positively by artificially limiting sites' capacity and their ability to contribute to meeting the area's objectively assessed needs. The policy is inconsistent with national policy which requires plans to positively seek opportunities to meet the development needs of their area, and be sufficiently flexible to adapt to rapid change (NPPF 2019, Paragraph 11). | Homes England therefore requests the following changes to Policy 13 to make the Plan sound. 1139 - Ransome Road - Indicative dwelling capacity 500 (5YHLS) | Policy 43 states that development of "at least" 200 dwellings will be required. This means that the housing capacity could be raised. There is no need to change the capacity for the site. |
| Representation reference: 185/1/10  Name: Wildlife Trust for Bedfordshire, Cambridgeshire & Northamptonshire | Refers to:<br>Policy 13 | Legal compliance and soundness: Plan is legally compliant. Plan is sound.              | Comments:  We are pleased to see that the boundary of this allocation for 23 dwellings has been modified so that it no longer includes a section of Kingsthorpe Meadows Local Nature Reserve and Local Wildlife Site. Kingsthorpe Meadows already receives a high number of visitors and therefore, any additional pressure from new developments is concerning. For this allocation to be in line with Policies 27 (Green Infrastructure) and 29 (Supporting and Enhancing Biodiversity) it will need to carefully consider how it will provide a net gain in biodiversity within the application site and also contribute towards the enhancement of the wider green infrastructure in the area, including Kingsthorpe Meadows.   | Suggested changes:<br>None.  | Officer comments: Noted.  |
| Representation reference: 185/1/12   | Refers to:<br>Policy 13 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.                    | Comments: This policy has also been improved since the previous version of the Local Plan Part 2; however, it is still of concern as its potential link to the Upper Nene Valley Gravel Pits Special Protected Area (SPA) has not been established. |  |   | - not positively prepared - not justified - not effective - not consistent with national policy  | sites provides choice for consumers, allows places to grow in sustainable ways and creates opportunities to diversify the construction sector. The LPP2 allocations include a wide range of sites by both size and market locations, which should provide access to suitable land for small local, medium regional and large national housebuilding companies as well as providing opportunities for a wide range of different types of dwellings to meet the housing needs of all households.  Under the 2019 NPPF, the Council should identify at least 10% of its housing requirement on sites no larger than one hectare or else demonstrate strong reasons for not achieving this target (para 68). The Council should confirm compliance with this aspect of national policy. |                                       | housing are under 1 hectare.  |

| Representation reference: 229/1/15  Name: Barratt David Wilson Homes | Refers to: Policy 13  Refers to: | Legal compliance and soundness: Plan is not legally compliant: - not compliant with duty to cooperate  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy  Legal compliance | Comments: The policy and preceding paragraphs do not place enough emphasis on the Government's objective of significantly boosting the supply of new housing. Paragraph 7.10 places an over reliance on the West Northampton Strategic Plan becoming adopted in 2022, to benchmark the housing supply targets. Fundamentally, the significant shortfall in housing supply in Northampton Borough Council, should not be parked for a plan review. | Suggested changes: None. | Land Availability Assessment (SAMLAA) process. Brownfield sites are allocated within the plan but it is also necessary to allocate on greenfield sites to meet housing need.  Officer comments: The housing target as set out in the West Northamptonshire Joint Core Strategy is expected to be delivered by the end of the Northampton LPP2 period (2029). Any new housing target set out in the West Northamptonshire Strategic Plan will enable a review of the Northampton LPP2. Officer comments: |

|--|---|--|--|---|---|
| Representation reference: 232/1/11  Name: Vistry Latimer Collingtree LLP | Refers to:<br>Policy 13                           | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective | Comments:  Vistry and Lagan have commissioned Define to determine the housing capacity of the land between the NSSUE and the railway line, taking account of the constraints affecting that capacity (noise and air pollution from the M1 motorway; noise and vibration from the Northampton Loop Line railway; the floodplain of the Wootton Brook; hedgerows within the site; utilities easements crossing the site; and land needed for public open space, children's play provision and surface water drainage attenuation). Assuming a suitable average net density of 40 dwellings per hectare, Define has determined that the land between the NSSUE and the railway line can accommodate some 336 dwellings.   | Suggested changes: Consider the LPP2 inidicative capacity is too high for sites LAA0168, 1009 and 1142 and that the excess should be accommodated within Northampton South SUE. | Officer comments: The current capacity of sites LAA0168, 1009 and 1142 in Policy 13 is indicative and not confirmed. However, as the sites is recommended to be combined, it is acceptable to change the trajectory. Modify |

|  |                         |  | The Council currently proposes 361 dwellings across the three sites (0168, 1009 and 1142), which would require an inappropriately high average net density of around 43 dwellings per hectare, resulting in an urban form that would be discordant with the average net density of 35 dwellings per hectare within the adjacent NSSUE. We consider that the 'excess' 25 dwellings that it is inappropriate to accommodate on sites 0168, 1009 and 1142 can and should be accommodated within the NSSUE itself, where it would be appropriate to increase the net density of housing in close proximity to its local centre and primary school above the currently permitted 35 dwellings per hectare. In this way, that area of the NSSUE close to its facilities can serve appropriately as its core. |   | the plan to take into account the revised trajectory for the combined sites.  |

|   |                         |   | the slower than anticipated delivery at the Strategic Urban Extensions through reduced reliance on these sites and allocating more small and medium sites on which delivery is known to be consistent, helping 5-year housing land supply and supporting choice and competition as set out in the National Planning Policy Framework (NPPF). This approach is vital to reinforce and maintain the Council's housing supply and maintain and strengthen the town's position in the Oxford to Cambridge Arc.  |                             |                          |
|---|-------------------------|---|---|-----------------------------|--------------------------|
| Representation reference: 244/1/14  Name: Bastion Group | Refers to:<br>Policy 13 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  Notwithstanding Bastion's support for the proposed allocation of Site 0204 under Policy 13 (Residential and other Residential Led Development) given its suitability, availability and deliverability for development set out above, its principal concern for the Plan in terms of 'soundness' relates to the assumed capacity of the proposed allocation in the context of the Plan's stated housing requirement and related approach to its housing delivery trajectory.  NBC has only allocated part of the Bastion landholding but has retained the capacity that was promoted for the wider site (i.e. 100 units). It is important for the 'soundness' of the Plan to clarify this position through these representations. Having undertaken further master planning and site capacity work, Bastion can confirm that the proposed allocation 0204 can accommodate approximately 55 units. The Local Plan Part 2 needs to accurately reflect this site capacity in Policy 13 and in the associated housing delivery trajectory to ensure it remains effective and 'sound'.  Whilst Bastion's clear and unambiguous priority is to secure this proposed allocation, particularly given its ability to pursue the site in the immediate future and facilitate rapid housing delivery at the site, it importantly notes that there is the potential to reinforce the Plan's 'soundness' by way of | Suggested changes:<br>None. | Officer comments: Noted. |

|                                    |                         |   | extending the allocation and increasing site capacity. The baseline technical assessment confirms that there are no constraints to the adjacent land controlled by Bastion, therefore no technical reason to preclude it from contributing towards the Plan's housing requirement.  To assist in any consideration NBC may want to give to this additional land, Bastion has undertaken comprehensive indicative master planning across both the proposed allocation and the adjacent site to demonstrate how coordinated development could be sensitively and effectively achieved.  Critically, Bastion do not object to the current proposed allocation but in the context of rationalising the capacity of this site, as set out above, consider that the most logical approach to reinforcing the 'soundness' of the Plan would be to extend the site boundary to include its wider landholding and thus increase the overall allocation capacity. This, however, should be without prejudice to the allocation of the current proposed allocation 0204.  The inclusion of the adjacent land (wider site) has the potential to increase the total site capacity up to circa 100 units, subject to detailed master planning and a planning application.  It is important to note that throughout the representations and associated supporting documentation the following references are used. For the proposed allocation (NBC reference 0204) this is known as 'draft / proposed allocation' or 'core site' and the adjacent additional land is referred to as 'wider site'. |                             |                             |

The Farm, Hardingstone, this shortfall will now be increased by circa 45 units. This is despite further land in this location being available.

Crucially, Bastion consider that the 'soundness' of the Plan can be reinforced through the minor extension of the current proposed allocation at 'The Farm'. This land is available, suitable and deliverable and has been demonstrated by the Baseline Technical Assessment and master planning to be relatively free of constraints.

To ensure that Policy 13 remains effective and accords with national planning policy in terms of meeting local housing needs in line with Paragraphs 11 and 23 of the NPPF to ensure that there is 'clear strategy for bringing sufficient land forward, and at a sufficient rate, to address objectively assessed needs over the plan period, in line with the presumption in favour of sustainable development', Bastion recommend that this additional land is included within the proposed allocation to increase the capacity of the site and reflect what was anticipated in the Plan in terms of its capacity. This would help reinforce the housing requirement in a location where development has already been demonstrated and established as sustainable and deliverable.

Bastion can confirm that this additional land can be considered deliverable in accordance with the NPPF as it is available now, offers a suitable location for development now, and is achievable with a realistic prospect that housing will be delivered on the site within five years.

In summary, Bastion provide overarching support for Policy 13, however, recommend that to improve the soundness of the policy, Site 0204 should be amended to a capacity of 55 units. Alternatively, to ensure that overall soundness of the Plan is secured, the extent of land

recommend that to improve the soundness of the policy, Site 0204 should be amended to a capacity of 55 units. Alternatively, to ensure that overall soundness of the Plan is secured, the extent of land allocated could be extended to include the 'wider site' shown on enclosed drawing BPG005-004 rev A which would enable the site capacity to be retained.

respondent which is 55 dwellings.
The extended area was omitted in error. It is recommended that the site be considered when the plan is reviewed or it can come forward as a windfall site.

|   |                                |  | allocated could be extended to include the 'wider site' shown on enclosed drawing BPG005- 004 rev A which would enable the site capacity to be retained.  |   |   |

| Representation reference: 251/1/16  Name: Duncan Investments Ltd - Site E of Towcester Rd | Refers to:<br>Policy 13        | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments: Policy S3 of the West Northamptonshire Joint Core Strategy ('WNJCS') sets the housing requirement for Northampton Borough from 2011 to 2029 at 18,870 dwellings (1,048 dpa). As set out in the Plan and the Council's Housing Technical Paper13, 7,073 dwellings (37%) of Northampton's housing requirement of 18,870 dwellings are located on five Sustainable Urban Extensions ('SUEs'). However, the Plan confirms that delivery of these SUEs has been slow and it is therefore no longer expected that all dwellings on SUEs will be completed before the end of plan period in 202914. It is now anticipated that completions from SUEs will total only 5,959 dwellings as opposed to circa 8,000 dwellings anticipated in the adopted WNJCS. The Plan allocates 71 housing or housing-led sites for circa 3,804 dwellings as set out in Policies 13 and 38. These allocations include a wide range of sites by both size and market locations. The Developers agree with this approach as it is considered this will provide access to suitable land for small local, medium regional and large national housebuilding companies, as well as providing opportunities for a wide range of different types of dwellings to meet the housing needs of all households. | Suggested changes:<br>None.   | Officer comments: Noted.                                |

|                |            | with national policy | threatened (para 34). The Council's viability assessment should  |                                 |                       |

|                |            |                      | take full account of compliance with the requirements of Policies 4, 5, 14, 29, 32, 35, 36 and 37 (see HBF representations below). Viability assessment should not be conducted on the margins of viability. As stated by the Council's viability consultants, the full economic consequences of the Covid-19 pandemic are not yet known and such uncertainty means that a larger viability buffer is necessary (ES13 & ES14). If the resultant Benchmark Land Value (BLV) is lower than the market value at which land will trade, then the delivery of housing targets will not be met. Without a robust approach to viability assessment land will be withheld from the market and housing delivery will be threatened, leading to an unsound LPP2 and housing delivery targets not being met. Viability assessment is an iterative process, in low / middle value areas "trade-offs" between affordable housing provision, CIL, S106 contributions and compliance with policy requirements may be necessary. At Examination, viability will be a key issue in determining the soundness of the Northampton LPP2. |                    |                   |

| reference: 231/1/3  Name: Sally Brannan                        | Chapter 7               | and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective                  | We wish to formally object to the Local Plan Part 2 in relation to the planned inclusion of development LAA1107 – Former Abington Mill Farm, land off Rushmere road.  Change of Council Policy The development would be contrary to the previous plan to preserve the river valley for Recreational/Leisure use as stated in the 1997 plan. This restricted the use of the riverside landscape and stated "Development for any other use will not be permitted" This was part of the council policy to safeguard the Nene Valley and Tributaries.  The previous plan stated "in order to enhance and maintain the value which the river valley affords, it is essential that these open spaces remain undeveloped" – What has changed?   | None.                       | National planning guidelines have changed since the previous plan was developed. Housing requirements have also changed and new evidence has been commissioned to inform the Local Plan (Part 2). |
| Representation<br>reference: 231/1/4<br>Name:<br>Sally Brannan | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective | Comments: Traffic We currently experience a high volume of traffic on Rushmere road, as this is the main road from town leading to the Barnes Meadow Roundabout which is one of the busiest roundabouts in the county. The Bedford Road roundabout links the Brackmills Industrial Estate, dual carriageway (A45) motorway (M1) and Bedford Road. To build a 125 house development at this location and to build a further housing estate will impact this massively, resulting in even further delays/tailbacks to all roads at peak times, specifically up/down Rushmere Road which is often gridlocked stretching back to the Billing Road/Park Ave South Junction. A development of 125 dwelling would lead to around an additional 162 vehicles being forced with no alternative onto the Rushmere Road (Based on a UK average car ownership of 1.3 vehicles per household, excluding London) These 125 households would also have visitors, deliveries etc which would further impact on the amount of | Suggested changes:<br>None. | Officer comments: Traffic modelling has been undertaken by Northamptonshire County Council on behalf of the borough for all development allocations in the Local Plan Part 2.                     |

|  |                         |  | vehicles using the Rushmere Road. The Bedford Road roundabout was remodelled in 2019, to take into consideration the additional amount of traffic, which still causes issues of backlog, and rushing to navigate the two lanes that merge into one.  • The proposed entry to the site would be on a bend which would be a hazard to both traffic coming down and up Rushmere Road, and has the potential of being an accident black spot. The potential for the entrance is very limited, due to the river, and path to Brackmills • On match days at the Old Scouts Rugby Club, the parking is already an issue that we face on Rushmere Road and Tanfield Lane. Having a further entry and exit point on, an already busy part, will be a further hazard • The proposed development is within 50m of the A45 and the site proposed would be likely to become an AQMA area similar to other plots placed in similar locations. • Due to the location and natural barriers to movement such as the A45 and the River this would make the use of a car an almost certainty for all travel to and from the estate. |                             |  |
|--|-------------------------|--|--|-----------------------------|--|
| Representation<br>reference: 231/1/5<br>Name:<br>Sally Brannan | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective | Comments:  Wildlife/Natural Environment/Open Space  The area of land in question currently has a large amount of wildlife living within. Erecting a housing development will damage the wildlife currently within it. The majority of the site is within the 250m Upper Nene Gravel Pits Special Protection Area. The land should be preserved, it is home to a wide variety of wildlife including bats (seen frequently flying), Minks etc. The land is also currently home to large electricity pylons.  Flooding  | Suggested changes:<br>None. | Officer comments: There are policies in the plan which seek to protect and enhance the natural environment and the biodiversity within it. Each site proposed for development in the Local Plan Part 2 has been assessed |

|  |                         |  | <ul> <li>A number of residents of Tanfield Lane have lived here since the houses were built, and on numerous occasions we have seen the location prone to flooding. Whilst the floods are not heavy, the land does get water logged. Further development will increase the risk of flooding to our properties.</li> <li>Size of Proposal</li> <li>In Tanfield Lane we have 89 houses, in a larger size plot than the one being proposed. The size of the development means the houses will be packed in, and there will be overcrowding and more vehicles.</li> </ul> |                             | against its flood potential and policy requirements stipulate that developments do not increase flood risk elsewhere. This could be through mechanisms such as Sustainable Drainage Systems (SuDS).   |

The s it e in quest ion here lies between an old orchard and Abington Meadows Nature Reserve to the east and Barnes Meadow Nature Reserve to the west , providing a link in the chain of habitats.  |                             | Methodology and Land Availability Assessment which considers all matters relating to the natural enviroment as one of its areas of investigation.  |
|---|-------------------------|--|--|-----------------------------|--|
| Representation<br>reference: 235/1/5<br>Name:<br>Jane Evans | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified               | Comments: This green space is further protected by the West Northamptonshire Joint Core Strategy (WNJCS) (p. 113): The design of the Nene Valley Nature Improvement Area will help develop the next phase of environment improvements along the Nene Valley lands cape, enha noing and reconnecting nature on a significant scale. With this Strategy in mind, the inclusion of site LAA 1107 is illogical and ill thought out. Policy BNS, The River Nene Strategic River Corridor, in the WNJCS (p. 131) further states that 'the natural and cultural environment of the Nene Corridor through the Plan area, including its t ributaries, will be enhanced and protected in recognition of its important contribution to the area's green infrastructure net work'. | Suggested changes:<br>None. | Officer comments:<br>Noted.  |
| Representation<br>reference: 235/1/6<br>Name:<br>Jane Evans | Refers to:<br>Chapter 7 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is unsound:<br>- not justified | Comments: There is also the obstacle presented by the close proximity of the Washlands RAMSAR site of international significance. The Wildlife Trust BCN has already expressed concern that local residents who walk round the Washlands are disturbing the birds in the Special Protection Area. (Draft Local Plan Habitats Regulations, Append ix E. LUC 189, znd para.). A further 125 households nearby will only add to the problem. The Draft Plan calls for a mitigation strategy, but there seems little likelihood of any strategy being effective in this case.  | Suggested changes:<br>None. | Officer comments: There are policies in place in the Local Plan Part 2 and the West Northamptonshire Joint Core Strategy which seek to secure the protection of the SPA. Policy 30 of the LPP2 will be modified to confirm |

| Representation reference: 235/1/7  Name: Jane Evans | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified | Comments:  While discussing the nature of this Local Wildlife Site it is useful to mention the issue of heritage. Abington Mill Lock was financed by Sir Frederick Montagu MP in about 1760 when the river Nene was being made navigable down to the North Sea. There was a monument stone erected on the island by the lock, commemorating his generos ity. If it is not still there, it may now be in the Northampton Museum. Rendering the river navigable was an important port of Northampton's history and economic deve lopment. The site of the Mill could be o heritage asset comparable to Clifford Hill Lock (funded by Spencer Compton MP), where an information panel explains the hist ory. We would hope the Northampton Borough Council (NBC) would hove the vision to see the importance of marking the course of the old river and the now dere lict lock. In fact the Draft Local Plan (Chap. 10, para. 10.27) supports this vision: The natural and man-made corridors along and following | Suggested changes:<br>None. | its commitment to the preparation of a Mitigation Strategy.  Officer comments: Noted. |

|   |                         |  | resident has said that it can take ten minutes to pull out on to the Rushmere Road at peak t im es . Another access road further down from Tanfield Lone would make matters worse. Added to which, the proposed entry is on o bend where vis ibili ty is obscure d. We appreciate that the Draft Local Plan requires a developer to provide a mit igat ing Traffic Pla n, but we cannot see how this severe problem of congestion and safety can be solved. Again it seems illogical to include site LAA 1107 in the list of sites for deve lopment .  The WNJCS Policy C2, New Developm ents , (p. 67, para. 6.3) states that 'new development s that do not make walking and cycling easy are a reason for Northamptonshire traffic growth being higher than the national average (para. 6.7) Need to locate development where people can access facilities such as |                             | allocation in the LPP2.  |
|---|-------------------------|--|---|-----------------------------|--|
|   |                         |  | retail, education and employment without using the car.' The new development in question would be very isolated - the only road access being at the bottom of the Rushmere Road which is about a quarter of a mile of steep hill. It is highly likely that all travel would be by car.  |                             |  |
| Representation<br>reference:<br>235/1/10<br>Name:<br>Jane Evans | Refers to:<br>Chapter 7 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is unsound:<br>- not justified | Comments:  The third issue is the flood risk. The Environment Agency's flood pred ict ion website (flood- warning- info rmat ion.serv ice.gov.uk) says that a significant area of the site in question is at medium to low risk of flooding. Many local residents have pointed out that over several decades they have seen flooding or waterlogging in the field here. We appreciate that developers must provide a flood risk assessment that sets out mit igat ion meas ures , but in the present situation of climate change it seems\ particularly foolhardy to risk building on this flood plain.   | Suggested changes:<br>None. | Officer comments: A Strategic Flood Risk Assessment has been conducted for Northampton and development is directed away from areas of highest risk. Furthermore, all development proposed in the LPP2 has been |
|   |                         |  | One local res ident, Robert Fu lli love of 26 Tanfield Lane, has said that an underground watercourse runs from somewhere near the road bridge, eastwards parallel to the flood canal. It   |                             | investigated using a robust land   |

|   |                         |  | is only visible in winter and is clearly visible by the contrast ing colour of the grass. Any disturbance by cont ract ors 'activities would upset the natural order of dra inage. The derelict Abington Mill Lock serves the useful purpose of allowing flood water to tumble over from the old course of the r iver.  The NPPF (p. 44, para . 19) warns Councils that 'plans should take a proactive approach to mitigating and adapting to climate change, taking into account the Jong-t erm implication for flood risk'. Site LAA 1107 is surrounded in the north by estates which could be impacted by flooding caused by further buil ding.                        |                                       | availability assessment process.   |
|---|-------------------------|--|---|---------------------------------------|--|
| Representation<br>reference:<br>235/1/11<br>Name:<br>Jane Evans | Refers to:<br>Chapter 7 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is unsound:<br>- not justified | Comments: It seems extraordinary to us that in the Sites Allocation Methodology and Land Availability Assessment (SAMLAA) (p. 314) the flood risk in LAA 1107 is suggested to be minimal. One important fact which was brought to our attention is that house insurance would not be granted because the site is on a flood plain.  | Suggested changes:<br>None specified. | Officer comments: The information used to investigate the sites were from sources such as the Environment Agency. The EA did not have any objections to this allocation.                                   |
| Representation<br>reference:<br>235/1/12<br>Name:<br>Jane Evans | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified               | Comments:  The fourth problem is the distance of the site from local amenities. Another group of residents has already analysed in their Representation the positive and negative scoring given in the Sustainability Appraisal, so we do not wish to repeat their arguments. They point out that the site is three kilometres from the nearest co-ed secondary school. (The School for Boys only accepts girls in the 6th form.) The site is also 500 metres from the primary school, 1 km from local shops, and over 1 km from a GP surgery.  In the WNJ CS, Policy INF 1 (p. 113, para . 11.9) states that 'new development will be supported by and provide access to | Suggested changes:<br>None.           | Officer comments: Every new development brought forward in the LPP2 has been assessed by the Site Assessment Methodology and Land Availability Assessment to take into account a variety of considerations |

|  |                         |  | in frastruct ure, including phys ical, green and social element s. It will integrate with and complement adjoining communities'. Site LAA 1107 is very isolated in this respect from its adjoining communities.  |                             | including local amenities.  |
|--|-------------------------|--|--|-----------------------------|---|
| Representation reference: 235/1/13  Name: Jane Evans | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified | Comments:  The fifth issue relates to soil contamination and soil instability. The estate on Tanfield Lane north of the site was built on the site of a tannery where the soil was contaminated by anthrax. The developers had to remove the contaminated soil and import unaffected soil. One resident, Robert Fullilove of 26 Tanfield Lane, who has lived on the Lane since it was built, has told us that the original Health and Safety report stated that the ground should never again be disturbed. It is possible that the soil on Abington Mill Farm is also contaminated. The SAMLAA acknowledges this fact (p. 314).  The same resident explains that the soil is unstable: the land between the flood canal and the A45 is made up of spoil and redundant fill from the building of the A45 and the re-routing of the river Nene. 'In geotechnica/ terms the make-up of this material is still "loose" - in other words unstable, and therefore any building foundation would almost certainly have to sit on piles. This would require a pile driver banging away all day, or as and when the contractor required.' The NPPF (p. 49, para . 170e) requires Councils to prevent 'new and existing development from contributing to, being put at unacceptable risk from, or being adversely affected by, unacceptable levels of soil, air, water or noise pollution or land instability'. | Suggested changes:<br>None. | Officer comments: Noted. Further investigation of the ground conditions of the site will be undertaken at the detailed application stage. |
| Representation reference: 235/1/14                   | Refers to:<br>Chapter 7 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.                          | Comments: This brings us to the final factor in our Representation: air and noise pollution. The Sustainability Appraisal (p. 315) makes light of the low air quality and noise involved for the residents   | Suggested changes:<br>None. | Officer comments: Noted. Further investigation of the air quality of the site   |

| Representation reference: 244/1/6  Name: Bastion Group          | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant. Plan is sound.                                  | Comments:  As Bastion has reinforced in its previous representations into the Local Plan Part 2 and the WNSP, its land at The Farm, Hardingstone (both the proposed allocation site and the land immediately to the north) is capable of not only providing a cohesive extension to the village but also being a suitable, deliverable and achievable site and sustainable development in accordance with guidance provided in the NPPF and Planning Practice Guidance. It would be a high quality, integrated development in a sustainable location with it being located adjacent to Hardingstone Village, the emerging Sustainable Urban Extension (SUE) on land east of Hardingstone and Brackmills Industrial Estate. These locational factors were all instrumental in the Secretary of State allowing an appeal in April 2016 for up to 1,000 dwellings and related development on adjacent land for the SUE (APP/V2825/A/14/2228866). Bastion's land holding is within walking distance of existing amenities, schools, employment and frequent bus services. It is worth noting that both Secretary of State and the Inspector saw the SUE's proximity to Brackmills Industrial Estate as a | Suggested changes:<br>None.           | Officer comments: Noted.   |

|                    |            |                  | substantial benefit in the site's sustainability credentials and would improve the operation of Brackmills Industrial Estate by creating a labour pool nearby thereby reducing the need to travel to work by car, minimising travel distances, avoiding long-distance commuting and restricting carbon emissions.   |                    |                   |

|                    |            |                  | help minimise habitat loses.  |                    |                   |

| Chapter 7 | 1               |  | Suggested changes:   | Officer comments:  |
|-----------|-----------------|--|--|--|
| Chapter 7 | and soundness:  | Cultural heritage has been identified as a potential constraint  | None.  | Noted.   |
|           | Plan is legally | by NBC as part of the assessment of the site through the Local   |  |  |
|           | compliant.      | Plan process. A Heritage Assessment, undertaken in August        |  |  |
|           |                 | 2020, is submitted in support of the representations and has     |  |  |
|           | Plan is sound.  | informed the early illustrative layout work. The site has been   |  |  |
|           |                 | assessed from a cultural heritage perspective to identify any    |  |  |
|           |                 | constraints and opportunities and in terms of archaeological     |  |  |
|           |                 | assets, the evidence to date derived from the HER, LiDAR data    |  |  |
|           |                 | and other relevant sources does not suggest the presence of      |  |  |
|           |                 | currently unrecorded archaeological remains on the site of a     |  |  |
|           |                 | significance that would prohibit or constrain development. In    |  |  |
|           |                 | respect of build heritage, the site makes some positive          |  |  |
|           |                 | contribution to settings of both Pittam's Farmhouse and the      |  |  |
|           |                 | Hardingstone Conservation Area, therefore it may be necessary    |  |  |
|           |                 | to preserve these aspects of setting through any potential       |  |  |
|           |                 | development. Due to the topography of the study site and the     |  |  |
|           |                 | historic development of Hardingstone, the area which most        |  |  |
|           |                 | strongly contributes to the setting of both the Conservation     |  |  |
|           |                 | Area and particularly Pittam's Farmhouse and its associated      |  |  |
|           |                 | buildings is located to the west of the study site. This is      |  |  |
|           |                 | considered and accommodated in the emerging illustrative         |  |  |
|           |                 | layout. It is considered that the site can be developed in a way |  |  |
|           |                 | which can respond to the setting of the Hardingstone             |  |  |
|           |                 | Conservation Area and the heritage assets within it. Green       |  |  |
|           |                 | infrastructure will be retained on the western edge of the site  |  |  |
|           |                 | to maintain the immediate rural setting of the Conservation      |  |  |
|           |                 | Area, with the roads and buildings aligned to retain, in whole   |  |  |
|           |                 | or part, the views into and out of the Area. The exact nature of |  |  |
|           |                 | these views and the built form within the study site will be     |  |  |
|           |                 | subject to the detailed design process.                          |  |  |
|           |                 | Therefore, with appropriate mitigation measures in place, it is  |  |  |
|           |                 | considered that heritage assets do not present a constraint      |  |  |
|           |                 | upon the allocation of the site for residential development.     |  |  |

| Representation reference: 244/1/13 Name: Bastion Group | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | development. Mitigation measures incorporated into any future development will reduce the potential impact of flooding within the site and the surrounding area and the development will provide benefits regarding flood risk in comparison to existing conditions.  A sustainable drainage solution can be achieved for the site which is likely to include onsite attenuation and discharge to an existing watercourse. As well as accommodating an effective drainage solution, it will provide amenity, landscape and potentially ecological value and will help reduce flood risk onsite and offsite. Therefore, there are no significant flood risk or drainage constraints to the development of the site.  Comments:  Ground Conditions  A Preliminary Contamination Risk Assessment has been undertaken and examines the ground conditions and any potential environmental or ground-related risks associated with the development of the site. The assessment indicates that risk from ground instability is low to very low or does not present a hazard at all. From a contamination perspective, any potential moderate risks are limited to those associated with the agricultural buildings in the southern corner of the site, albeit these are isolated and can be mitigated / remediated. There are therefore, no significant ground conditions constraints associated with the site (neither the proposed allocation or the wider site). | Suggested changes: None.    | Officer comments: Noted.    |

The comments made in relation to site capacity and the adjacent land do not have any impact on the deliverability and availability of the proposed allocation.  |                                       |  |
|---|-------------------------|---|---|---------------------------------------|--|
| Representation reference: 244/1/16  Name: Bastion Group | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  As noted above, and to demonstrate that a coordinated design approach can be achieved, as well as to help inform indicative capacity testing, indicative master planning has been undertaken and is submitted with these representations. We hope that this will provide reassurance to NBC and the Inspector that the site is deliverable, can achieve key design and sustainability objectives and, if beneficial to the soundness of the Plan, can provide for additional land to increase housing delivery and meet the quantum indicated in the Plan.  Whilst further master planning work will be undertaken as technical assessment of the site is progressed, as part of the Plan-making process and to support a subsequent planning application, this early concept plan and illustrative master plan are presented at this stage to reinforce deliverability and indicate the key design principles that will inform proposals going forward.  Bastion are in a position to progress with a planning application for this site within the next 12 months (both proposed allocation and, if there is a positive policy framework in place, for the adjacent land). This will align with the site's position in the housing trajectory and will ensure it can contribute to NBC's 5 Year Housing Land Supply. | Suggested changes:<br>None specified. | Officer comments: The additional land was inadvertantly omitted during the land availability assessment process. Additional land can be allocated when the plan is updated or can come forward as a windfall site. |

|--|-------------------------|--|---|-----------------------------|--------------------------|
| Representation reference: 251/1/3  Name: Duncan Investments Ltd - Site E of Towcester Rd | Refers to:<br>Chapter 7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  Land at Towcester Road (Site ref: LAA1102) is bound by the railway line to the east, the M1 to the south and Towcester Road to the west. As a result, it is extremely well contained and its development would not lead to an unacceptable protrusion into open countryside. Further, the land is not affected by any environmental designations and development of the site would not cause harm to any heritage assets in the context of the Framework.  It is acknowledged that the land is affected by topography and will require noise mitigation measures. However, it is considered these constraints can be satisfactory accommodated through the design and layout of the scheme, particularly in the context of noise mitigation, which can be achieved through a 'buffer' to the railway and/or acoustic treatment.  Access is currently achieved from the Towcester Road and there is an existing track under the railway line connecting with land to the east (site ref: LAA1109). Whilst this is not currently suitable for vehicles, it has the potential to provide pedestrian and/or cycle access through to the adjoining land, which would be a significant benefit should the Collingtree SUE be extended west in the future. This would ensure connectivity in this area of Northampton, linking the SUE with the Towcester Road. The site is in a sustainable location close to existing properties to the north. A bus stop is located next to the site on the Towcester Road providing regular access into Northampton town centre. As such, the site represents a suitable option for development that is both deliverable and developable. Linden Homes as a national housebuilder, and the Developers, has the ability to deliver housing on the site in the short term helping address the current shortfall in housing across Northampton | Suggested changes:<br>None. | Officer comments: Noted. |

|   |   |  | Borough. However, it is recognised that the site may also be suitable for other uses, and the Developers would be willing to consider the potential for this with the Council.   |                             |                             |

|                |            |   | self & custom build and marketing such opportunities   |                    |                                  |
|                |            |   | to entrants on the Register  |                    |                                  |

- engaging with landowners, who own housing sites and encouraging them to consider self & custom build and where the landowner is interested facilitating access to entrants on the Register; and
- working with custom build developers to maximise opportunities for self & custom housebuilding.

The Council should not move beyond encouraging provision of self & custom build plots on residential development sites of more than 100 dwellings. The Council should not seek to place the burden for delivery of self & custom build plots onto developers of sites of more than 100 dwellings contrary to national guidance, which outlines that the Council should engage with landowners and encourage them to consider self & custom build. Furthermore, the Council has provided no justification for the selection of 100 or more dwellings as the threshold for qualifying development proposals.

As set out in the 2019 NPPF, all policies should be underpinned by relevant and up to date evidence, which should be adequate, proportionate and focussed tightly on supporting and justifying the policies concerned (para 31). The Council's Self & Custom Build Register alone is not a sound basis for setting a specific policy requirement. As set out in the NPPG, the Council should provide a robust assessment of demand including an assessment and review of data held on the Council's Register (ID 2a-017-20192020), which should be supported by additional data from secondary sources to understand and consider future need for this type of housing (ID 57-0011-20160401). The Council should analyse the preferences of entries as often only individual plots in rural locations are sought as opposed to plots on housing sites of 100 or more dwellings. It is also possible for individuals and organisations to register with more than one Council so there is a possibility of some double counting. The Register may indicate a level of expression of interest in self & custom build

|                |            |                      | but it cannot be reliably translated into actual demand should such plots be made available. The number of entries on the Council's Register has not been disclosed. |                    |                       |

| Representation reference: 200/1/22 Name: HBF             | Refers to: Policy 14    | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | development and is forced to return to site to build out plots, which have not been sold to self & custom builders.  Comments:  As well as on-site practicalities, any adverse impacts on viability should be tested. The Council's Plan Viability Study does not consider this policy requirement. The Council expects serviced plots to be provided therefore the financial impacts from delayed delivery or non-delivery of self & custom build should be assessed. There may also be a detrimental impact upon the level of affordable housing provision achieved from sites of 100 or more dwellings because self & custom build dwellings are exempt from infrastructure contributions and affordable home ownership provision as set out in national policy hence a greater burden falls onto fewer market sale dwellings. The Council may wish to adopt an aspirational approach to delivering self & custom build housing, but this should not be pursued at the expense of delivering affordable housing. The requirement for provision of self & custom build plots on sites of 100 or more dwellings should be deleted. | Suggested changes: Alterations to the requirement self-build plots. | Officer comments: There were 30 people registered on the self build and custom build database at the time of the policy formulation. A formula was put in place to calculate the number of potential plots required. This policy requirement is considered to be a balance between meeting those needs and not placing onerous demands on housebuilders. |

|                      | Council should focus on the ageing population living in the                   |                       |
|                      | Borough compared to national / regional figures and the                       |                       |
|                      | proportion of older households choosing to live in newly built                |                       |

homes. It is noted that Office for National Statistics (ONS) Overview of the UK Population dated November 2018 estimated that 18.2% of the UK population were aged 65 years or over in 2017 compared with only 15% in Northampton. Optional M4(2) and M4(3) standards should only be introduced on a "need to have" rather than a "nice to have" basis. Need is generally defined as "requiring something because it is essential or very important rather than just desirable".

Many older households already live in the Borough. Many older households will not move from their current home but will make adaptations as required to meet their needs, some will choose to move to another dwelling in the existing stock rather than a new build property and some will want to live in specialist older person housing. The existing housing stock is considerably larger than the new build sector (circa 97,226 dwellings as at 2019) so adapting the existing stock is likely to form part of the solution. It is also important to note that not all health problems affect a household's housing needs therefore not all health problems require adaptations to homes.

All new homes are built to Building Regulation Part M4(1) standards, which include level approach routes, accessible front door thresholds, wider internal doorway and corridor widths, switches and sockets at accessible heights and downstairs toilet facilities usable by wheelchair users. These standards are not usually available in the older existing housing stock and benefit less able-bodied occupants. If the Government had intended that evidence of an ageing population alone justified adoption of optional standards then such standards would have been incorporated as mandatory in the Building Regulations, which is not the case. M4(1) standards are likely to be suitable for most residents.

| Representation reference: 200/1/25 Name: HBF  | Refers to:<br>Policy 14 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Detailed evidence should be gathered to determine whether there is a need for optional standards in Northampton and to justify setting appropriate policy requirements in the LPP2. The West Northamptonshire Housing Market - Northampton Summary by ORS (September 2017) and the Study of Housing & Supporting Needs of Older People across Northamptonshire 2017 by Three Dragons (March 2017) do not provide an evidential basis to justify the Council's proposed policy requirement. Furthermore, this data is now somewhat dated. The recently published Planning Inspectorate Guidance for Local Plan Examination (para 1.11) sets out that evidence base documents dating from two or more years before the submission date for examination of a Local Plan may be at risk of having been overtaken by new data. Such documents should be updated as necessary to incorporate the most recent available information. | Suggested changes:<br>None specified. | Officer comments: Northampton Borough Council adopted the Specialist Housing SPD in November 2019. It provides evidence, and sets out the need, for optional specialist housing standards in Northampton. |

| Representation reference: 200/1/27  Name: HBF | Refers to: Policy 14 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments: As set out in the NPPG (ID 56-008) the requirement for M4(3) should only be required for dwellings over which the Council has housing nomination rights.   | Suggested changes: None specified. | Officer comments: Para 009 – 56-009 of the PPG relates to Part M of the Building Regulations. It outlines the difference between wheelchair accessible homes and wheelchair adaptable homes which fall into Cat M4(2) of Document M. Policies can be applied to only Cat M4(2) wheelchair accessible homes only where the LA is responsible for allocating or nominating a person to live in that dwelling. Therefore it is acceptable to maintain the policy as it is, and require |

| Representation reference: 200/1/28 Name: HBF | Refers to:<br>Policy 14 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The Council's viability testing should take full account of additional costs for any policy requirements for optional M4(2) and M4(3) standards. The costs of both M4(2) and M4(3) should be included in viability testing. The Council's Plan Viability Study only includes a cost of £521 per dwellings for M4(2) on a baseline assessment of 10% provision and £10,307 per dwelling for M4(3). In September 2014, the Government's Housing Standards Review included cost estimates by EC Harris, which for M4(3) were £15,691 per apartment and £26,816 per house respectively, which are higher than the costs used by the Council. Furthermore, any inflationary cost increases since 2014 should be included and M4(3) compliant dwellings are larger than NDSS therefore larger sizes should be used when calculating additional build costs for M4(3) and any other input based on square meterage. | Suggested changes:<br>The requirements<br>for optional M4(2)<br>and M4(3) should<br>be deleted. | all developers to provide 'adaptable' dwellings. The need is evidenced in the Specialist Housing SPD. Cat M4(3) relates to wheelchair user dwellings and the need in Northampton is evidenced in the Housing Market Evidence. PPG does not limit policy ability, as it does for wheelchair accessible.  Officer comments: The Local Plan Viability Assessment was undertaken to assess the viability of policies, and was prepared using the latest market information obtained both through desk top study/ market intelligence and a workshop with developers/ landowners/ agents. |

| Representation<br>reference:<br>229/1/18<br>Name:<br>Barratt David<br>Wilson Homes | Refers to:<br>Policy 14 | Legal compliance and soundness: Plan is not legally compliant: - not compliant with duty to cooperate  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Paragraph 7.15 refers to the Council and their duty to keep a self-build and custom build register to provide the Council with evidence when making provision for serviced plots of land. However, the paragraph is not explicit in terms of the number of plots on the current register of self-build or custom build register, nor is there reference within the paragraph as to other documents and studies that would form the evidence base for projecting the number of self-build and custom build plots over the plan period. It is, therefore, questionable as to how a trigger of 100 dwellings where provision of self-build and custom build housing will be sought. Furthermore the policy is not explicit as to the mechanisms by which a proportion of self-build or custom build can be negotiated between the Council and the Applicant. | Suggested changes:<br>None. | Officer comments: The number of plots on the register will change throughout the lifetime of the Plan. The applicant should liaise with the Council during the application stage to determine the proportion of self-build and custom build housing required. No modification required.                     |

| Representation<br>reference:<br>229/1/19<br>Name:<br>Barratt David<br>Wilson Homes | Refers to:<br>Policy 14 | Legal compliance and soundness: Plan is not legally compliant: - not compliant with duty to cooperate  Plan is unsound: - not positively prepared - not justified - not effective - not consistent  | Comments:  Justification has not been given as to why a plot needs to remain vacant for 3 years. Presumably, as it is captured in the S106 obligation, there would be additional requirement to provide evidence of marketing and marketing at a price that would be of an appropriate value to revert to other forms of housing. The policy should provide the ability to demonstrate there is no need for a self-build or custom build plot within the 3 year period by submitting an up to date Housing Need Survey.  | Suggested changes:<br>None.  | Officer comments: The 3 years relates to the timeline of planning consent being implemented. It is reasonable to allow the same time line for this policy requirement to be met. No modification required.  |
|--|-------------------------|---|--|--|---|
| Representation reference: 229/1/20  Name: Barratt David Wilson Homes               | Refers to:<br>Policy 14 | with national policy  Legal compliance and soundness: Plan is not legally compliant: - not compliant with duty to cooperate  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The housing mix is very prescriptive which does not build in any form of flexibility that could accommodate market demand.  Given my comments to policy 13, there might be the need for a different size, type and tenure of house as a result of predictable events. The policy would be more effective in stating percentage ranges.  Furthermore, as a result of being too prescriptive, more housing market assessments will be submitted by applicants, which will increase the time taken to determine applications, thus further eroding the Council's ability to meet the required housing delivery targets.  It is pleasing to see that an "appropriate proportion" of residential development is required to comply with M4(2) of the building regulation rather than a set %, however, the policy needs to make explicit that an "appropriate proportion" will not only take into account the needs of the Borough but also the site's characteristics and viability.  At present, BDW are working with a neighbouring Authority, in | Suggested changes: Modification "Derived from xxx and xx study, proposals of over 100 dwellings or more will be required to provide a proportion of self-build and custom build, through negotiations between the Council and the Applicant, which takes into account the site's ability to provide such plots | Officer comments: The 3 years relates to the timeline of planning consent being implemented. The Council's most recent evidence supports the mix set out in Policy 14. If evidence suggests the mix should be altered, there is flexibility in the policy to be able to demonstrate that. |

|                |            |                  | characteristics do not lend itself to providing policy 30 of the NNJCS requirements for M4(2) and M4(3) housing, notwithstanding any viability test.  The policy is therefore not justified into how the trigger to provide self-build and custom build plots has been derived and nor is it effective in this regard to allow for negotiation between the Council and applicant in terms of the number of   | through a viability assessment". "To meet the needs of the Borough's residents and to deliver dwellings capable of meeting   |  |
|----------------|------------|------------------|--|--|--|
|                |            |                  | self-build and custom build plots are required.  The policy does not justify why a plot needs to remain vacant for 3 years.  The policy is not effective by virtue of the very prescriptive housing mix which will lead to increased viability assessments being submitted and it is not effective in so far as to the considerations to be taken into account such as the sites characteristics. It is worth nothing that Policy H08, Daventry does allow for consideration of the sites characteristics. | their occupants' changing circumstances over their lifetime, an appropriate proportion of residential development, based on the latest available evidence, including the site's characteristics and viability, should be designed to meet the requirements |  |

Furthermore, there should be a policy requirement for schemes that cannot provide the necessary 35% affordable housing to be supported by a viability assessment.  | the latest need should be sourced from. |   |
|---|-------------------------|--|---|---|---|
| Representation reference: 251/1/19  Name: Duncan Investments Ltd - Site E of Towcester Rd | Refers to:<br>Policy 14 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  Policy 14 requires the following in respect of Specialist and Accessible Housing:  'To meet the needs of the Borough's residents and to deliver dwellings capable of meeting their occupants' changing circumstances over their lifetime, an appropriate proportion of residential development, based on the latest available evidence, must be designed to meet the requirements of Building Regulations Part M4(2) (Accessible and adaptable dwellings) or its successor standard.  4% of all new market dwellings and 8% of affordable dwellings should be constructed to Building Regulations Part M4(3) (Wheelchair user dwellings) standards, or their successor, to enable wheelchair accessibility.'  NPPF Paragraph 16 states that policies should be 'clearly written and unambiguous, so it is evident how a decision maker should react to development proposals'. A policy requirement for an 'appropriate proportion of residential development' to be designed to meet M4(2) standards is unclear and ambiguous, which causes uncertainty for both applicants and decision makers. This element fails the test of soundness and is therefore inconsistent with the Framework. | Suggested changes:<br>None specified.   | Officer comments: Detailed specialist housing requirements are set out in the Northampton Specialist Housing SPD which applicants should refer too. This contains the most up to date evidence and need requirements for specialist housing in Northampton. |

|                     |                      | The relevant evidence-base documents comprise 'The West              |                      |
|                     |                      | Northamptonshire Joint Planning Unit – Housing Market                |                      |

|                           |                         |                                 | Evidence: Executive Summary for Northampton Borough' (ORS, September 2017) and 'Study of Housing and Support Needs of Older People Across Northamptonshire' (Three Dragons and Associates, March 2017) do not provide an evidential basis to justify the Council's proposed policy requirement. Furthermore, this data is now somewhat dated: the 'Procedure Guidance for Local Plan Examination' (The Planning Inspectorate, June 2019) confirms the evidential requirements of submitted plan16: 'Is the evidence base sufficiently up-to-date? Evidence base documents, especially those relating to development needs and land availability, that date from two or more years before the submission date may be at risk of having been overtaken by events, particularly as they may rely on data that is even older. As a minimum, any such documents should be updated as necessary to incorporate the most recent available information. But this may not be necessary for evidence documents on topics that are less subject to change over time, such as landscape character assessments.' [Emphasis added] It is noted the Council acknowledges that 'further work needs to be carried out to establish the proportion of Category 2 dwellings that would be most appropriate'17. Equally, the Study of Housing and Support Needs of Older People Across Northamptonshire' (Three Dragons and Associates, March 2017) confirms that adopting M4(2) requires evidence of need. |  |                                  |

| Representation<br>reference: 123/1/4<br>Name:<br>Henry Martin Ltd | Refers to:<br>Policy 17 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective                     | Comments: Policy 17- Safeguarding Existing Employment Sites Paragraph 80 of the NPPF reques planning policies to "help create the conditions in which businesses can invest, expand and adapt'. It also establishes that "Significant weight should be placed on the need to support economic growth and productivity, taking into account both local business needs and wider opportunities for development." The principle of safeguarding all existing empfoyment sites within the Borough for employment uses is therefore considered to be consistent with the NPPF in respect of supporting economic growth, productivity and business development. | Suggested changes:<br>None. | Officer comments: Noted.    |
| Representation<br>reference: 123/1/5<br>Name:<br>Henry Martin Ltd | Refers to:<br>Policy 17 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective                     | Comments:  Policy 17 is also considered to support tine overall aims of Policy S8(1)(a) of the West Northamptonshire Joint Core trategy which sets out an ambition to deliver job growth through the renewal and regeneration of existing employment sites.  Likewise, the policy approach set out in Policy 17 is deemed to broadly accord with Policy1 of the West Northamptonshire Joint Core Strategy as it seeks to retain existing employment sites and industrial estates to help support a vibrant, successful and developing local economy.  | Suggested changes:<br>None. | Officer comments:<br>Noted. |
| Representation reference: 123/1/6                                 | Refers to:<br>Policy 17 | Legal compliance and soundness:  | Comments:   | Suggested changes:<br>None. | Officer comments: Noted.    |

| Name:<br>Henry Martin Ltd   |                         | Plan is legally compliant.  Plan is unsound: - not effective   | The provisions set out in Policy 17 are also welcomed as they will help to support the future renewal and improvement of the existing business premises at Martin's Yard Business Park. This will enable the owners of the site to respond to the demands of the existing businesses for modern and larger workspaces. Ultimately, this will help to facilitate business growth and thus has the potential to create new job opportunities and protect existing jobs.   |   |  |

| Representation<br>reference:<br>200/1/15<br>Name:<br>HBF                                    | Refers to:<br>Policy 17 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  National policy only permits an allowance for windfall sites if there is compelling evidence that such sites have consistently become available and will continue to be a reliable source of supply. The Council should re-consider the continuing likelihood of 300 dwelling per annum from windfalls where 71 sites for housing development are allocated in the LPP2 and Policy 17 safeguards all existing employment sites.  | Suggested changes:<br>None specified.   | Officer comments: There is a criteria in bullet point 2 of Policy 17 that allows for Change of Use. Although not specifically for housing, this is also permitted via Permitted Development. |
| Representation<br>reference: 234/1/6<br>Name:<br>Diversified Property<br>Fund For Charities | Refers to:<br>Policy 17 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Firstly, the requirement to demonstrate a continuous (and lengthy) period of vacancy of 6-12 months is counterintuitive and may do more harm to economic activity than good in preventing the swift re-occupation with an active use and reducing vacancy periods. It is preferable to have an active economic use of a site (even if an alternative use) than it remain vacant just to satisfy a minimum period specified in policy. DPFC therefore suggest that Policy 17 should be broadened to include additional criteria that could be satisfied as an alternative to allow for the alternative use of units within an Existing Employment Area. These criteria should allow the introduction of non-employment uses where the land or premises are no longer well located or where there is no need | Suggested changes: Policy 17 should be broadened to include additional criteria that could be satisfied as an alternative to allow for the alternative use of units within an Existing Employment Area. | Officer comments: These criteria are already included in the wording of policy 17.   |

|                      |            |                      | to retain the land or premises for business, industrial or warehousing use, having regard to the demand for such land and premises and the requirement to provide for a range and choice of sites available for such use. |                      |                   |

|                      |            |                      | This is a general retailing policy contained within the NLLP2. Its  |                      |                   |
|                      |            |                      | scope is broad, identifying a requirement for the provision of a  |                      |                   |
|                      |            |                      | certain amount of retail floorspace over the plan period,   |                      |                   |
|                      |            |                      | outlining the retail hierarchy, re- iterating a town centre first   |                      |                   |

|  |                         |  | approach, and setting the planning policy context for proposals in defined retail frontages. It also, in line with the National Planning Policy Framework (NPPF) (February 2019), reiterates that a sequential test is to be undertaken for all proposals for main town centre uses outside of designated centres and a retail impact assessment for proposals in excess of 500sqm (substantially lower than the default threshold of 2,500m2 set in the NPPF2).   |   |  |
|--|-------------------------|--|--|---|--|
| Representation reference: 234/1/8  Name: Diversified Property Fund For Charities | Refers to:<br>Policy 17 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  There are a number of town centre uses (as defined in the NPPF) that, due to the requirement for large floorplates, onsite car parking or high ceilings are increasingly located (and arguably better suited) within warehouse units within industrial estates. Gyms are a classic example but there are other leisure and retailing uses that would fit into this category and the "light industrial" nature of operations by the existing occupiers within Grafton Trade Park would make it an attractive location for such uses.  Whilst Policy 17 recognises that such uses are likely to be ancillary to, and support the function of, employment areas, at present, if they are characterised as main town centre uses (as defined in the NPPF) there would be a requirement for a sequential test and retail impact assessment. DPFC therefore recommend that the policy wording and accompanying subtext is amended to recognise this and note, in line with the Retail and Leisure Study (Nexus Planning, September 2018) which forms part of the evidence base for the NLLP2, that any retail impact assessment must be proportionate to the proposals. | Suggested changes: DPFC therefore recommend that the policy wording and accompanying subtext is amended to recognise this and note, in line with the Retail and Leisure Study (Nexus Planning, September 2018) which forms part of the evidence base for the NLLP2, that any retail impact assessment must be proportionate to the proposals. | Officer comments: These criteria are already included in the content of policy 17. |

| Representation reference: 245/1/5 Name: Drapery Property Northampton Ltd | Refers to:<br>Policy 19 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  It must also be noted that Policy 21 supports the delivery of residential accommodation on upper floors in town centres; Policy 12 supports the development of a mix of main town centre and residential uses in town centres; and Policy 9 supports the regeneration of sites within the town centre which will deliver opportunities for housing and economic development for the benefit of Northampton's residents and the local economy.  If town centre properties are required to remain vacant for a period of at least 12-18 months, with suitable marketing, it would seriously impact the Council in achieving their overall aims of the Local Plan and directly contradict other proposed policies which seek to ensure a range of uses, which will ultimately lead to a healthy and vibrant town centre. | jeopardise the recovery and regeneration of town and district centres throughout the local authority area.  Suggested changes: While we would suggest that this policy should be amended to remove the period of marketing/vacancy required altogether, as a minimum, the policy should be amended to distinguish between vacant units at ground floor level and vacant units/properties which also comprise upper floors. For example, proposals which seek to retain | Officer comments: This policy seeks to provide a balanced approach between ensuring that there remains an acceptable supply of retail spaces within the Primary Shopping Area but at the same time allow for change of use subject to evidence of marketing. Combining the outcome of both the consultation exercises and the evidence base provided by Nexus (Retail Study 2018), this requirement is considered to be acceptable. |

It will form a small but important part of the 'whole systems approach to obesity' being taken by Public Health and its partners to address the many factors that influence whether people and communities are able to maintain a healthy diet and a healthy weight.  This has been an effective approach taken in other parts of the country and has been accepted as an appropriate policy approach to respond to local challenges in relation to this key health and wellbeing issue.   |                             |   |
|--|-------------------------|--|--|-----------------------------|---|
| Representation reference: 113/1/21  Name: East Hunsbury Parish Council | Refers to:<br>Policy 23 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective | Comments:  We do not believe the Plan to be justified by evidence or effective in dealing with Sports pitches and amenity space, specifically in relation to the following policies:  Policy 6 – Health and Wellbeing, Policy 23 – Sports facilities, and playing pitches Policy 28 – Providing open space East Hunsbury is an area without sports pitches and future developments should be required to make provision for community access.  There are many in our community who are, or have been, members of Welland Valley Football Club over the years, and the parish council are concerned that the location of the football pitches (off of Ladybridge Drive (Wootton Brook) is not classified as Amenity Green Space. The land has been used as pitches for a number of years and is a prime example of an area of land which should be maintained as amenity green space.  The Parish Council would expect that any planning application for development of sites within East Hunsbury would include provision of open space, sports and recreation facilities, and suitable measures to ensure the maintenance of these spaces for the future. The use of management companies has created an unnecessary burden for residents in other areas, and other ways of managing open space should be encouraged. | Suggested changes:<br>None. | Officer comments: The LPP2 seeks to encourage healthy lifestyles through a variety of policies (6, 23 and 28). Policy 23 sets out that development resulting in the loss the loss of existing sports related community facilities, which is well used and valued, will only be acceptable if adequate alternative provision exists. Policy 28 of the LPP2 requires new major development to sustain or enhance open spaces, and contribute to open space provision as |

| Representation reference: 229/1/23 Name: Barratt David Wilson Homes | Refers to:<br>Policy 23 | Legal compliance and soundness: Plan is not legally compliant: - not compliant with duty to cooperate  Plan is unsound: - not positively prepared - not justified | Comments:  The policy states "The loss of an existing sports related community facility will only be acceptable if there is existing adequate provision and all reasonable efforts have been made to preserve the facility, but it has been proven that it is not economically viable to be retained." This element of the policy is inconsistent with the approach given in part c) of Policy 23 Sports Facilities and Playing Pitches, which promotes the idea of providing alternative provision. The loss of an existing sports related community facility, which is well used and valued, does not afford the idea of replacing an existing sports related community facility to provide at least an adequate alternative | Suggested changes: Modification of policies. "For larger scale SUEs, the level and type of open space, sport and recreational facilities will be the subject to agreement between the | set out in the standards in Policy 28.  It is agreed that there is evidence to suggest that the area in Welland Valley FC (Off Ladybridge Drive) should be designated as Amenity Green Space. Modify the Policies Map accordingly.  Officer comments: The first part of Policy 23 relates to 'sports facilities and playing pitches' and the second part to 'an existing sports related community facility'. The policy goes onto state that 'major developments are |
|---|-------------------------|---|--|---|--|
|   |                         | - not positively  | of providing alternative provision. The loss of an existing sports related community facility, which is well used and valued, does   | facilities will be the subject to   | facility'. The policy goes onto  |
|   |                         |   | community facility to provide at least an adequate alternative provision, as referred to in paragraph 97 of the NPPF.  | _   | developments are expected to contribute to   |
|   |                         | with national policy  | There is no mention in the policy that a major Development can contribute to upgrading existing facilities.  There is also no mention of relocating facilities that could  | within policy 27 "A<br>site of equivalent<br>quality and  | towards providing facilities'; this could be on or off-site.   |
|   |                         |   | actually place them in a better catchment area to serve the existing and future occupants of sites in Northampton.   | accessibility can be provided, prior to the use of the  | No modification required.  |

|  |                         |   | Where it is not appropriate to create new on-site open space, where viable and in accordance with an obligations SPD, consideration should be given to the potential for new housing Developments to contribute towards the enhancement of nearby off- site open space and recreational facilities.  The policy is inconsistent with national policy and is not positively prepared by virtue of not considering that an adequate alternative provision can be provided elsewhere and acknowledging that major development can contribute to the upgrading of existing facilities proportionately within S106 agreements.   | existing site ceasing"   |   |

| Representation reference: 249/1/2  Name: Sport England | Refers to:<br>Policy 23 | Legal compliance and soundness:  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  To be consistent with national planning policy framework paragraph 97 the policy should refer to playing field not playing pitches. It is also unclear why the types of pitch sports have been listed as this is restrictive with other sports considered to be capable of being a pitch sport, which should be considered as part of Policy 23.  The policy is also not effective as it is unclear as to which types of facilities the second bullet point would relate to and whether it would be consistent with NPPF paragraph 97.  It should also be noted that the Plan makes references to the a Playing Pitch Strategy which was completed in early 2018. The document should be kept up to date to be considered to be a sound. | Suggested changes: Proposed change to to change "playing pitches" to "playing fields". | Officer comments: Minor modification of Policy 23 proposed to change "playing pitches" to "playing fields". |

|--|-------------------------|--|---|--|---|
| Representation reference: 113/1/22  Name: East Hunsbury Parish Council | Refers to:<br>Policy 28 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective | Comments:  We do not believe the Plan to be justified by evidence or effective in dealing with Sports pitches and amenity space, specifically in relation to the following policies: Policy 6 – Health and Wellbeing, Policy 23 – Sports facilities, and playing pitches Policy 28 – Providing open space East Hunsbury is an area without sports pitches and future developments should be required to make provision for community access. There are many in our community who are, or have been, members of Welland Valley Football Club over the years, and the parish council are concerned that the location of the football pitches (off of Ladybridge Drive (Wootton Brook) is not classified as Amenity Green Space. The land has been used as pitches for a number of years and is a prime example of an area of land which should be maintained as amenity green space. The Parish Council would expect that any planning application for development of sites within East Hunsbury would include provision of open space, sports and recreation facilities, and suitable measures to ensure the maintenance of these spaces for the future. The use of management companies has created an unnecessary burden for residents in other areas, and other ways of managing open space should be encouraged. | Suggested changes:<br>None.  | Officer comments: The LPP2 seeks to encourage healthy lifestyles through a variety of policies (6, 23 and 28). Policy 23 sets out that development resulting in the loss the loss of existing sports related community facilities, which is well used and valued, will only be acceptable if adequate alternative provision exists. Policy 28 of the LPP2 requires new major development to sustain or enhance open spaces, and contribute to open space provision as |

| Representation reference: 226/1/3 Name: Brian Oldham   | Refers to: The Plan, policies map and new classificati on | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  I would request that the land on the Policies Map immediately adjacent to Policies LAA 1140, LAA 1025, and LAA 1122, should be registered as Classified and not Unclassified as the map illustrates.  This piece of land has football pitches on it which are still in use, and is also used as a Community Space for sporting events for the immediate and wider Community at large and should be protected as such.  Therefore I would strongly urge that the Local Plan - Part 2 for this piece of land is modified to read as Classified and not Unclassified. | Suggested changes:  1 would request that the land on the Policies Map immediately adjacent to Policies LAA 1140, LAA 1025, and LAA 1122, should be registered as Classified and not Unclassified as the map illustrates. | standards in Policy 28.  It is agreed that there is evidence to suggest that the area in Welland Valley FC (Off Ladybridge Drive) should be designated as Amenity Green Space. Modify the Policies Map accordingly.  Officer comments: The policies map will be updated accordingly. |

Plan is sound. | Unclassified.  Comments:  Bastion support this policy and the provision of requisite open space as part of development given the value green infrastructure provides for sustainability, ecology, landscape integration, drainage as well as for health and well-being.  However, Bastion also acknowledge that different scales of   | Suggested changes:<br>None.  | Officer comments:<br>Noted.  |

|   |                         |   | development and sites will better accommodate different types of open space. From a management and maintenance perspective, higher order public open spaces need to be of a certain scale to facilitate effective management regimes. In this context, Bastion fully support the reference to contributing towards offsite provision where standards cannot be met on site and consider this is vital to the soundness of this policy.  It is also important to ensure that accessibility standards and considered alongside quantity standards as Northampton has a wealth of excellent parks and open spaces and it is essential that their use is maximised to support their ongoing maintenance and management. Accessibility to existing spaces should be taken into account in determining whether on-site provision is necessary for small / medium scale development.   |  |  |

| Representation reference: 30/1/2  Name: Northamptonshire County Council | Refers to:<br>Policy 29 | Legal compliance and soundness: Plan is not legally compliant: - not in accordance with SCI  Plan is unsound: - not justified - not consistent with national policy | Comments: Section 2: I was pleased to note that the policy describes a hierarchy of sites and biodiversity assets. However the list does not include Potential Wildlife Sites (PWS) or Local Geological Sites. Some PWS are former Local Wildlife Sites (LWS) which have deteriorated and at last survey date no longer qualified. Others are sites which are suspected to have some biodiversity value but have not been surveyed. PWS are not usually of the same ecological quality as LWS but occasionally surveys have revealed them to be of as much as SSSI quality. Applicants need to know PWS exist and may have significant value so should be included in Policy 29.  The term 'undesignated sites' is not particularly meaningful in biodiversity terms (unlike undesignated heritage assets). I would suggest the term 'other biodiversity assets', which would reflect terminology used in the Biodiversity SPD. | Suggested changes: Section 2: I was pleased to note that the policy describes a hierarchy of sites and biodiversity assets. However the list does not include Potential Wildlife Sites (PWS) or Local Geological Sites. Some PWS are former Local Wildlife Sites (LWS) which have deteriorated and at last survey date no longer qualified. Others are sites | Officer comments: It is agreed Policy 29 should include reference to Potential Wildlife Sites and there should be an alteration to wording of Policy 29 to remove 'undesignated sites' and replace with 'Other biodiversity assets'. |

| requirement could industry guidelines be included in the and standards. policy as has been | Representation reference: 30/1/5  Name: Northamptonshire County Council | Refers to:<br>Policy 29 | Legal compliance and soundness: Plan is not legally compliant: - not in accordance with SCI  Plan is unsound: - not justified - not consistent with national policy | Comments:  The remainder of this section is confusing, and I would reiterate my comments on the previous draft local plan: applicants are not all expected to conduct ecological surveys as the wording implies. Applicants are expected to consult the Biodiversity SPD to find out whether and what surveys might be necessary. This requirement could be included in the policy as has been done in the North Northamptonshire Joint Core Strategy (Policy 4), which states that 'development proposals will need to take account of the Northamptonshire Biodiversity Supplementary Planning Document' If this section is intended to refer to development affecting the SPA then this should clearly be indicated in the policy wording. As currently worded section 3 appears to apply to all development. |  | proposals on biodiversity, (and) [including] indirect impacts such as recreational activities, [in combination impact of developments and any potential effects on functionally linked land to the respective site].  Officer comments: It is agreed that the wording of Policy 29 should be altered to include wording in brackets ():Applicants will be required to (consider the the Northamptonshire Biodiversity SPD or sucessor document and where necessary) undertake up to date, comprehensive ecological surveys in accordance with industry guidelines and standards. |

|                           |                         |                                   | the housebuilding industry to address concerns and risks. The  |  |  |
|                           |                         |                                   | Government has confirmed that more work needs to be  |  |  |
|                           |                         |                                   | undertaken to address viability concerns raised by the   |  |  |

|                           |                         |                                   | housebuilding industry in order that net gain does not prevent, delay or reduce housing delivery. The significant additional costs for biodiversity gain should be fully accounted for in the Council's viability assessment. The DEFRA Biodiversity Net Gain & Local Nature Recovery Strategies: Impact Assessment Table 14: Net Gain Delivery Costs (Residential) sets out regional costs (based on 2017 prices) in East Midlands of £19,951 per hectare of development based on a central estimate but there are significant increases in costs to £69,522 per hectare for off-site delivery under Scenario C. These costs are not included in the Council's viability assessment. There may also be an impact on gross / net site acreage ratio.  The Government will make provision in the Environment Bill to set a transition period of two years. The Government will work with stakeholders on the specifics of this transition period, including accounting for sites with outline planning permission, and will provide clear and timely guidance on understanding what will be required and when. |                             |   |

| Representation<br>reference: 246/1/3<br>Name:<br>Natural England                   | Refers to:<br>Policy 29 | Legal compliance and soundness: Legal compliance: - not specified  Plan is unsound: - not effective - not consistent with national policy   | Comments: Policy 29 wording requires revision and strengthening. Point 1 and 2 within the policy are confusing.  Whilst we welcome the inclusion of biodiversity net gain, for clarity we recommend a separate point within the policy addressing biodiversity net gain. Please note that biodiversity net gain compliments the mitigation hierarchy, it does not replace it. We would also recommend a reference to using the DEFRA biodiversity metric.  | Suggested changes: We would therefore recommend that the mitigation hierarchy is detailed within this policy, please refer to paragraph 175 of the NPPF.  | Officer comments: It is agreed that the following changes should be made to Policy 29 to include the following: The Council will require all major development proposals to avoid, adequately mitigate, or, as a last resort,   |

| Representation                    | Refers to:              | Legal compliance   | It is important that the policy clearly distinguishes the mitigation hierarchy from any biodiversity net gain requirements. This will help to set a transparent and auditable context within which developers can both assess their impacts and provide net gain.  Comments: | Suggested changes:                                   | compensate biodiversity impact and secure a net gain in biodiversity through the strengthening, management and / or creation of new habitats. Biodiversity net gain should be measured through the use of a recognised biodiversity calculator such as the Defra metric.  Officer comments: |

| Representation reference: 30/1/7  Name: Northamptonshire County Council | Refers to:<br>Policy 30 | Legal compliance and soundness: Plan is not legally compliant: - not in accordance with SCI  Plan is unsound: - not justified - not consistent with national policy | Comments:  I question the inclusion of pet predation in the second paragraph of this policy. As stated in the updated HRA report, pet predation is a separate issue from the off-lead dogs which are thought to be the primary source of disturbance to the site's birds. Pet predation is more likely a problem for nesting birds than it is for overwintering birds. As the SPA was classified for overwintering birds I am not convinced that references to pet predation belong in this policy. However I will of course defer to Natural England's judgement on this matter. | Suggested changes:<br>None. | Officer comments: It is agreed that a minor modification, removing the reference to ped predation, will clarify the policy. Amend Policy 30 to remove wording in []: Applications comprising a net gain in residential units within 3 km of the Upper Nene Valley Gravel Pits SPA and Ramsar site will need to demonstrate that the impact of any increased recreational activity [or pet predation] (indirect or direct) |

Anglian Water is supportive of the objective of the request for the modification to protecting the water environment particularly in relation to Upper Nene Valley Gravel Pits Special Protection area.   | None.                       | Noted.                   |
| Representation reference: 53/1/10  Name: Anglian Water Services Limited | Refers to:<br>Policy 30 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective | Comments:  Water abstraction: we consider the reference to water abstraction is ineffective and unnecessary as water abstractions for public water supply are licensed by the Environment Agency and form part of the Water Resource Management Plan process rather than the determination of individual planning applications.  Anglian Water is the water undertaker for Northampton Borough administrative area and is responsible for preparing as part of a statutory process a Water Resources Management plan (WRMP) at least once every 5 years and reviewed continuously which outlines how we will manage the supply/demand balance so that we can continue to serve our customers now and in the future in respect of population growth, climate change and environmental protection. Anglian Water's current WRMP 2019 covers the period 2020 to 2045 and has been approved by Defra.  The WRMP is supported by a Habitats Regulation Assessment report and where necessary an Appropriate Assessment and is | Suggested changes:<br>None. | Officer comments: Noted. |

https://www.anglianwater.co.uk/about-us/our-strategies-andplans/water-resources-management-plan/ Water resources are managed on a larger geographical scale than Councils and individual development proposals. For example the Ruthamford North Water Resource Zone (WRZ) includes Northampton Borough together with the supply systems for Peterborough, Wellingborough, Corby, Daventry and Kettering. The Environment Agency issues licenses to Anglian Water for the abstractions from both groundwater and surface water sources used for public water supply. As such the Environment Agency is the decision maker in respect of any changes to abstraction licenses in accordance with separate legislation (environmental permitting regulations) and directs Anglian Water where it is necessary to limit abstractions to protect water environment. Anglian Water is working closely with the Environment Agency (and Natural England) to ensure that our abstractions are sustainable. Abstraction in all areas where there is any risk of environmental deterioration will be capped at recent abstraction rates, and hence abstraction will not increase. This includes the Northampton Borough area. Water resources are sourced from across Anglian Water company area and water is conveyed between different areas by existing infrastructure. It is proposed that we will build on existing infrastructure by developing a more integrated strategic grid so that we can continue to serve our customers as part of the WRMP proposals. As part of which there will be a new potable water transfer is proposed from Lincolnshire to Ruthamford North WRZ. Anglian Water is also actively working with Water Resource East a partnership which brings together a range of organisations with an interest in water, energy, retail environment, land management and agriculture to develop a long-term, multi-sector water resource strategy for the East of

England.

| Representation reference: 185/1/9  Name: Wildlife Trust for Bedfordshire, Cambridgeshire & Northamptonshire | Refers to:<br>Policy 30 | Legal compliance and soundness: Plan is legally compliant. Plan is sound.  | Comments:  This section of the Local Plan Part 2 highlights the importance of the Upper Nene Valley Gravel Pits Special Protected Area (SPA) as well as the existing and potential threats to it which could occur as a result of the Plan. It has been much improved from the previous version. A key part of the measures which are required to protect the SPA is the production and subsequent adoption of a mitigation strategy. Paragraph 10.17 (along with the Habitats Regulations Assessment Report) states that this will be produced within 12 months of the adoption of the Local Plan Part 2 with the broad principles and a draft agreed with Natural England before adoption. Whilst we are satisfied with this approach; we would like to stress that we do not consider the Local Plan Part 2 to be sound without the mitigation strategy in place. None of the allocations within 3km of the SPA should come forward until it is adopted. | Suggested changes: The mitigation strategy is a key document and we would urge that it is completed as soon as possible. | Officer comments: The timetable for the production and adoption of the Mitigation Strategy for the Upper Nene Valley Gravel Pits has been agreed with Natural England. No modification required.  |
|---|-------------------------|--|---|--|---|
| Representation reference: 239/2/12  Name: Duncan Investments Ltd - Houghton Gate                            | Refers to:<br>Policy 30 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Duncan Investments Ltd would like to take this opportunity to note that the implications of the Upper Nene Valley Gravel Pits SPA on the Houghton Gate site are currently being assessed by the site promoters in consultation with Natural England but there is no in principle objection to the development of the site subject to agreement on development scale and mitigation. Furthermore, migrating bird surveys carried out over the winter of 2018/2019 show that the site does not constitute supporting habitat.  As the northern part of the site falls within the 250m SPA Buffer Zone, Natural England has advised that building heights in this northern area would be restricted and therefore this area will be the focus of open storage uses, site infrastructure, landscaping, drainage and biodiversity enhancement measures.   | Suggested changes:<br>None specified.  | Officer comments: Policy 30 of the LPP2 relates to the Upper Nene Valley Gravel Pits SPA and Ramsar site and sets out how proposals will need to demonstrate no adverse impact on the SPA. In particular, new development within a 250m zone of the SPA must undertake an assessment to demonstrate that it will not have a significant adverse |

| Representation reference: 239/2/13  Name: Duncan Investments Ltd - Houghton Gate | Refers to: Policy 30 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy  Legal compliance | Comments:  4.5 The explanatory text to Policy 30 notes that new housing within 3km of the SPA has increased recreational pressure, contributing to disturbance and decline in bird species which form the SPA qualifying features. As such, there is a need to ensure that increased recreational pressure on the SPA resulting from housing growth is addressed [para 10.18]. The allocation of the Houghton Gate site for employment development will help to assist in addressing this recreational pressure by reducing opportunities for residential development in close proximity to the site. | Suggested changes: For the above reasons, it is considered that the Houghton Gate site can be delivered in accordance with the requirements of Policy 30. A full assessment of the impacts of any scheme on the site and appropriate mitigation would be undertaken and submitted with a planning application.  Suggested changes: | within the area or, if directly adjacent to existing buildings, should reflect building heights.  NBC requests to see any assessment(s) undertaken so far that have been shared with Natural England including overwintering bird surveys.  Officer comments: The site was assessed as not being suitable for allocation. However, if a proposal comes forward, this will be determined through the normal dveelopment management process to assess if it conforms to the relevant policies in the development plan. |

This should be cross-referenced to Appendix C.   | Suggested changes:<br>None. | Officer comments: The Northern Orbital Route is mentioned in paragraph 11.15 of the LPP2.   |
| Representation<br>reference: 230/1/3<br>Name:<br>Moulton Parish<br>Council | Refers to:<br>para. 11.7 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not effective | Comments: Expansion of Northampton's population to the north and further housing is likely to lead to expansion of through-traffic in Moulton. What mitigation is planned to reduce through traffic in Moulton? (the only reference we can find is obliquely via points 11.7 and 11.8). Specifically, where Northampton's plans impact areas outside Northampton Borough (as in this case) a clear commitment should be made to addressing any consequential impact. Please also note other comments made elsewhere about Northern Orbital Route; NOR is unlikely alone to be sufficient to prevent Moulton being used as a rat run for through traffic. | Suggested changes:<br>None. | Officer comments: Policy 32 of the LPP2 requires developers to fund and financially contribute towards a range of transport schemes. Policy 37 of the LPP2 also requires major development to contribute towards the delivery of and where necessary provide land / suitable sites for an new infrastructure. |

| reference: 241/1/8  Name: British Horse Society                      | para. 11.7                   | and soundness: Plan is legally compliant.  Plan is sound.   | Walking and cycling routes - this excludes equestrians. Most walking and cycling activity is for leisure, as is equestrian activity. Provision should be made for all modes of Active Travel and no barriers should be created to prevent public routes being enjoyed by as many user groups as possible. The creation of shared cycle / pedestrian or cycle paths on the carriageway or adjacent to the carriageway creates additional danger for equestrians. They are left sandwiched between fast moving traffic on their outside and then additional fast-moving cycle traffic on their inside – sometimes that cycle traffic is two directional. The lack of links between settlements and parishes is highlighted in the RoWIP for Northamptonshire.  Northamptonshire committed to involve user groups to identify improvements to routes, create new routes where necessary and prioritise Definitive Map anomalies to join up the network. | None.                       | Noted.   |
| Representation<br>reference: 248/1/9<br>Name:<br>Welland Valley Rail | Refers to:<br>para. 11.8     | Legal compliance and soundness: Legal compliance: - not specified  Plan is unsound: - not effective | Comments: 11.8 commitment to modal shift target is extremely welcome.  | Suggested changes:<br>None. | Officer comments:<br>Noted.  |

| Representation reference: 62/1/7  Name: Northamptonshire County Council / North Northants JPU | Refers to:<br>Policy 32 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  We are very supportive of policies that create a shift towards more sustainable and active forms of travel. The benefits to the community / population of higher levels of active / sustainable travel are many and well documented, including less congestion, better health and wellbeing, reduced pollution and economic benefits of improved access to businesses / shops.  Despite many years of policy objectives of achieving a modal shift to active travel, progress has been limited. This is even more pertinent now given the massive health and wellbeing challenges we face and the importance of being active in addressing those.  A shift towards more sustainable travel patterns is likely to be crucial for the success of the town and Borough of Northampton in the future. This is particularly the case given the substantial amount of housing growth likely to take place in Northampton in the coming years and the likely increase in car traffic that this will bring. There are a number of reasons why we think this policy is so important: | Suggested changes:<br>None.           | Officer comments:<br>Noted. |

| Name:<br>English Regional<br>Transport<br>Association |                         | Legal compliance: - not specified  Plan is unsound: - not positively           | Movement – The trackbeds of the old railway lines between Northampton and Market Harborough and Northampton Castle – Brackmills must be protected for restoration for railway use; there should also be provision for eventual reopening of that line to Bedford, improving more connectivity.  |                             | The route of the<br>former<br>Northampton to<br>Market Harborough<br>railway line is  |
|---|-------------------------|--|---|-----------------------------|---|
|   |                         | prepared - not justified - not effective - not consistent with national policy | There must be new stations/halts at Watermills (new University campus) and at Brackmills (industrial estate); furthermore the old Bridge Street station should also be reopened and the ERTA also wishes to see the Northampton – Wellingborough line re-opened.  Northampton North –West and Northern Relief Roads - These will both shift traffic rather than removing it and the new road space will soon fill up with traffic. Furthermore it will also obliterate the track-bed of the old Northampton-Market Harborough railway line which the ERTA also wishes to see reopened.  St.James Inner Relief Road - This is a short-term project (apparently currently put on hold due to funds)and again, this will shift traffic rather than removing it and at best, given there is a considerable amount of commercial and domestic development in Northampton Borough, the new road space will soon fill up with traffic. It will also obliterate the old trackbed of the old Northampton - Bedford railway. There must be provision for a potential level crossing where the road crosses the old track-bed (also see APPENDIX D - Transport and Infrastructure Schedule). |                             | safeguarded in Policy 34 and on the Policies Map. It is proposed to modify the plan to include the railway corridor to Brackmills for future transport use. |

| Representation reference: 113/1/18  Name: East Hunsbury Parish Council | Refers to:<br>Policy 32 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective | Comments:  We do not believe the plan to be positively prepared or effective on the issue of Traffic and Pollution, specifically in relation to the following policies:  Policy 32 – Designing sustainable transport and travel Policy 33 – Highway network and safety The cumulative impact of the development proposed in East Hunsbury on traffic density and air pollution will be significant, particularly as two Air Quality Management Areas abut the parish boundary. The Local Plan should address facilities for walking, cycling and public transport and creating a joined-up approach across Northampton, rather than concentrating efforts on new developments. A reduction in car use will only be achievable with access to reliable public transport services (including the rail network), with additional services and good connections. Linking existing cycle routes with clear, safe, and well-maintained cycle paths to create a proper network is essential. | Suggested changes:<br>None. | Officer comments: Policy 32 of the LPP2 requires developments to fund and financially contribute towards a range of transport schemes and to demonstrate that they can mitigate the proposal's transport impact either on or off-site. The policy requires developments to achieve sustainable transport principles including promoting modal shift away from and reduction of car usage. Policy 35 of the LPP2 requires new development to provide facilities for |

|   |            |  |  |  | electric vehicle charging points. Both policies are expected to improve air quality. No modification required. |

|---|------------------------------|---|--|---|---|
| Representation reference: 248/1/10  Name: Welland Valley Rail | Refers to:<br>para.<br>11.15 | Legal compliance and soundness: Legal compliance: - not specified  Plan is unsound: - not effective | Comments:  11.15 The council then lets itself down by casually presuming that a number of major road projects WILL take place, which clearly run completely counter to pollution, modal shift and decarbonisation targets, and gives the impression that the council will not be holding all development to the same sustainability scrutiny. E.g. "will""the dualling of the A43 from Northampton to Kettering" | Suggested changes: Suggest changing language in 11.15 from "will" to "may" and adding "all planned and potential transport projects will be reviewed against current sustainable transport & travel policy". Clearly if a road is busy enough to consider dualing, and there is not currently a corresponding rail link along that route - it is a prime candidate for provision of a sustainable rail link. Whilst this particular road project may not fall within the council's current geographical boundary, it is still in a good position to influence it, | Officer comments: The dualling of the A43 from Northampton to Kettering is a Northamptonshire County Council scheme which is currently in their Local Transport Plan to come forward within and beyond the Local Plan period. No modification required. |

| Representation reference: 65/1/4  Name: English Regional Transport Association | Refers to: para. 11.16 | Legal compliance and soundness: Legal compliance: - not specified  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy  Legal compliance | Comments:  Movement – The trackbeds of the old railway lines between Northampton and Market Harborough and Northampton Castle – Brackmills must be protected for restoration for railway use; there should also be provision for eventual reopening of that line to Bedford, improving more connectivity. There must be new stations/halts at Watermills (new University campus) and at Brackmills (industrial estate); furthermore the old Bridge Street station should also be reopened and the ERTA also wishes to see the Northampton – Wellingborough line re-opened.  Northampton North –West and Northern Relief Roads - These will both shift traffic rather than removing it and the new road space will soon fill up with traffic. Furthermore it will also obliterate the track-bed of the old Northampton-Market Harborough railway line which the ERTA also wishes to see reopened.  St.James Inner Relief Road - This is a short-term project (apparently currently put on hold due to funds)and again, this will shift traffic rather than removing it and at best, given there is a considerable amount of commercial and domestic development in Northampton Borough, the new road space will soon fill up with traffic. It will also obliterate the old trackbed of the old Northampton - Bedford railway. There must be provision for a potential level crossing where the road crosses the old track-bed (also see APPENDIX D - Transport and Infrastructure Schedule). | which will be further increased when the new unitary authority comes into effect.  Suggested changes: None specified. | Officer comments: The route of the former Northampton to Market Harborough railway line is safeguarded in Policy 34 and on the Policies Map. It is proposed to modify the plan to include the railway corridor to Brackmills for future transport use.  Officer comments: |

| Representation reference: 65/1/7  Name: English Regional Transport Association | Refers to:<br>Policy 34                             | Legal compliance and soundness: Legal compliance: - not specified  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Movement – The trackbeds of the old railway lines between Northampton and Market Harborough and Northampton Castle – Brackmills must be protected for restoration for railway use; there should also be provision for eventual re- opening of that line to Bedford, improving more connectivity. There must be new stations/halts at Watermills (new University campus) and at Brackmills (industrial estate); furthermore the old Bridge Street station should also be re- opened and the ERTA also wishes to see the Northampton – Wellingborough line re-opened. Northampton North –West and Northern Relief Roads - These will both shift traffic rather than removing it and the new road space will soon fill up with traffic. Furthermore it will also obliterate the track-bed of the old Northampton-Market Harborough railway line which the ERTA also wishes to see re- opened. St.James Inner Relief Road - This is a short-term project (apparently currently put on hold due to funds)and again, this will shift traffic rather than removing it and at best, given there is a considerable amount of commercial and domestic development in Northampton Borough, the new road space will soon fill up with traffic. It will also obliterate the old track- bed of the old Northampton - Bedford railway. There must be provision for a potential level crossing where the road crosses | Suggested changes:<br>None specified.  | Officer comments: The route of the former Northampton to Market Harborough railway line is safeguarded in Policy 34 and on the Policies Map. It is proposed to modify the plan to include the railway corridor to Brackmills for future transport use. |

|   |                         |  | the old track-bed (also see APPENDIX D - Transport and Infrastructure Schedule).   |   |  |
|---|-------------------------|--|--|---|--|
| Representation reference: 75/1/12  Name: Town Centre Conservation Area Advisory Committee | Refers to:<br>Policy 34 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective - not consistent with national policy | Comments:  It is not enough to minimise pollution issues, developments must not create or exacerbate pollution issues and should ideally reduce existing pollution issues. This is clearly important for health, but it is also a heritage issue within the remit of the TCCAAC because pollution can have a catastrophic effect on historic buildings (e.g. destroying carved stonework). | Suggested changes: In the second paragraph of this policy, replace "provide opportunities to minimise and where possible reduce pollution issues" to "demonstrate that they will not create or exacerbate pollution issues and if possible will reduce pollution issues". | Officer comments: Policy 34 of the LPP2 relates to transport schemes and requires proposals for future transport schemes to state how they wll contribute to lowering emissions and contribute to the aim of achieving net-zero emissions by 2030. This is in line with Northampton's declaration of a Climate Emergency in 2019. Along with other policies within the plan, it is expected to assist Northampton in reducing pollution and adapting to climate change by the end of the plan period. No |

| Representation<br>reference:<br>195/1/17<br>Name:<br>Mr B Cheer | Refers to:<br>Policy 35 | Legal compliance and soundness: Plan is legally compliant. Plan is sound.  | Comments:  It is considered that Policy 35 and its reference to the Parking Standards SPD is the appropriate approach to dealing with standards in new development and allows for future revisions to the corresponding SPD. However, the implications for housing delivery as a result of changing standards should be seriously considered and understood before any updated SPD is adopted. The most recent iteration of the NCC Parking Standards sought an increased level of parking from residential developments, over and above that which was planned for at the time when the JCS was adopted. The result of an increased land take for parking spaces is less land for residential development and it is urged that through any future consideration of parking standards that this relationship be fully explored and understood. | Suggested changes:<br>None. | Officer comments: Noted.    |
| Representation<br>reference:<br>200/1/44<br>Name:<br>HBF        | Refers to:<br>Policy 35 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments: Under Policy 35 new development must meet adopted parking standards and accord with the principles set out in the Parking Standards Supplementary Planning Document (SPD) including the provision of facilities for EVCPs.  The HBF is supportive of encouragement for the use of electric and hybrid vehicles via a national standardised approach implemented through the Building Regulations to ensure a consistent approach to future proofing the housing stock. Recently, the Department of Transport held a consultation on Electric Vehicle Charging in Residential & Non-Residential Buildings (ended on 7th October 2019).  | Suggested changes:<br>None. | Officer comments:<br>Noted. |

|  |                         |  | This consultation set out the Government's preferred option to introduce a new functional requirement under Schedule 1 to the Building Regulations 2010, which is expected to come into force in 2020. The inclusion of EVCP requirements within the Building Regulations 2010 will introduce a standardised consistent approach to EVCPs in new buildings across the country. The requirements proposed apply to car parking spaces in or adjacent to buildings and the intention is for there to be one charge point per dwelling rather than per parking space. It is proposed that charging points must be at least Mode 3 or equivalent with a minimum power rating output of 7kW (expected increases in battery sizes and technology developments may make charge points less than 7 kW obsolete for future car models, 7 kW is considered a sufficiently future-proofed standard for home charging) fitted with a universal socket to charge all types of electric vehicle currently on the market and meet relevant safety requirements. All charge points installed under the Building Regulations should be untethered and the location must comply with the Equality Act 2010 and the accessibility requirements set out in the Building Regulations Part M. The Government has estimated installation of such charging points add on an additional cost of approximately £976. |  |   |
|--|-------------------------|--|--|--|---|
| Representation<br>reference:<br>200/1/45<br>Name:<br>HBF | Refers to:<br>Policy 35 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared | Comments: The Government has also recognised the possible impact on housing supply, where the requirements are not technically feasible. The Government's recent consultation proposed introducing exemptions for such developments. The costs of installing the cables and the charge point hardware will vary considerably based on site-specific conditions in relation to the local grid. The introduction of EVCPs in new buildings will  | Suggested changes: The requirement for EVCPs should be deleted because of the Government's proposed changes to Building Regulations. | Officer comments: The requirements for EVCPs are required to ensure that the Council continues to address climate change. The |
|  |                         | - not justified<br>- not effective<br>- not consistent<br>with national policy                         | impact on the electricity demand from these buildings especially for multi-dwelling buildings. A requirement for large numbers of EVCPs will require a larger connection to the development and will introduce a power supply requirement,   |  | Government's guidance has not yet been finalised.   |

|                |            |                  | which may otherwise not be needed. The level of upgrade needed is dependent on the capacity available in the local network resulting in additional costs in relation to charge point instalment. The Government recognises that the cost of installing charge points will be higher in areas where significant electrical capacity reinforcements are needed. In certain cases, the need to install charge points could necessitate significant grid upgrades, which will be costly for the developer. Some costs would also fall on the distribution network operator. Any potential negative impact on housing supply should be mitigated with an appropriate exemption from the charge point installation requirement based on the grid connection cost. The consultation proposes that the threshold for the exemption is set at £3,600. In the instances when this cost is exceptionally high, and likely to make developments unviable, it is the Government's view that the EVCP requirements should not apply and only the minimum Energy Performance of Buildings Directive requirements should be applied.  The Council's viability evidence set out in Plan Viability Study by Aspinall Verdi dated June 2020 includes a cost allowance of £1,000 per space but the sufficiency of this allowance cannot be assessed because of the vagueness of the Council's policy wording. |                    |                                      |

| Representation reference: 229/1/28  Name: Barratt David Wilson Homes | Refers to:<br>Policy 35 | Legal compliance and soundness: Plan is not legally compliant: - not compliant with duty to cooperate  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The provision of electric vehicle charging points will need to be secured at Outline or Full Application stage through way of Condition. The ability to provide rapid charging points is dependent on the capacity of the electric substation that serves the Development and the ability of the electric infrastructure network.  Issues have occurred in the wider Northamptonshire area, where Authorities have imposed a car charging scheme condition on Reserved Matters Applications, expecting an electric vehicle car charging scheme to be a form of rapid car charging. This might not be possible if there is no capacity for rapid car charging at the electric substation that serves the site. This happens more often where electricity supply to the site is reliant on an existing substation.  The policy does not expand on what is required in terms of Car Parking Management Strategy.  The policy by not acknowledging these the technical issues or expanding on what a car parking management strategy would entail, is therefore not effective. | Suggested changes: Modification: New developments must meet adopted parking standards and accord with the principles set out in the Parking Standards SPD. Applicants are required to demonstrate that electric vehicle charging is a rapid form of car charging, unless the infrastructure capabilities indicate otherwise.  Transport schemes and major new Developments should also provide a Car Parking | Officer comments: Policy 35 requires provision of electric vehicle charging points and does not mention rapid charging. Applicants will need to meet requirements set out in the relevant parking SPD and liaise with the Highways Authority as a part of their application process. No modification required. |

| Representation reference: 250/1/20  Name: St Clair Land and Developments LLP Old Bedford Road | Refers to:<br>Policy 35 | Legal compliance and soundness: Plan is legally compliant. |                        |            |                                | 'The EPBD also sets out requirements for residential buildings   |                    |  |
|                        |            |                                | undergoing major renovation with more than 10 parking  |                    |  |

|   |                         |  | spaces. As a starting point, the government proposes to transpose the EPBD requirements for major renovations - i.e. the installation of cable routes in all parking spaces in scope as we think this is a proportionate requirement. However, the consultation seeks views on the possibility of going further than the EU requirements.'  The requirement for EVCPs should be deleted given the Government's proposed changes to Building Regulations are still at the consultation stage and therefore have not been finalised.  |                                       |   |
|---|-------------------------|--|---|---------------------------------------|---|
| Representation reference: 251/1/27  Name: Duncan Investments Ltd - Site E of Towcester Rd | Refers to:<br>Policy 35 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | Comments:  In any event, the wording of draft Policy 35 would fail the tests of soundness as per NPPF Paragraph 16 which states that policies should be 'clearly written and unambiguous, so it is evident how a decision maker should react to development proposals'. The policy does not define how many EVCPs are required per plot, or whether these are required on a per dwelling or per space basis.  Resultingly, the draft policy is unlawful in that it devolves fundamental development management policies, which should be set out through the NLP2, to the Parking Standards SPD. The PPG24 is clear that such an approach is contrary to the role of SPDs:  'Supplementary planning documents (SPDs) should build upon and provide more detailed advice or guidance on policies in an adopted local plan. As they do not form part of the development plan, they cannot introduce new planning policies into the development plan. They are however a material consideration in decision-making. They should not add unnecessarily to the financial burdens on development.'  [Emphasis added]  As currently drafted, Policy 35 risks introducing new planning policies into the development plan, such as the imposition of delivering EVCPs and would thus be unlawful. | Suggested changes:<br>None specified. | Officer comments: The adopted Supplementary Planning Document on Parking provides the necessary details on the implementation of this policy. |

|                    |            |                   | In this respect, the Developers wish to refer the Council to the implications of William Davis v Charnwood Borough Council25, where Gilbart J quashed Charnwood Borough Council's enforced housing mix policy on the basis that it should have been adopted as part of a Development Plan Document ('DPD'), requiring independent examination, instead of an SPD, which only requires consultation.  The housing mix policy deferred to an adopted SPD which itself prescribed a specific housing mix expected from new developments, with any departure from the specified percentages requiring justification through evidence.  Gilbart J agreed with the group of claimants in that the policy constituted a statement regarding 'the development and use of land which the local planning authority wish to encourage during any specified period', and was a 'development management policy intended to guide the determination of applications for planning permission.' Accordingly, by virtue of regulations 2, 5 and 6 of the Town and Country Planning (Local Planning) (England) Regulations 2012, the policy needed to be adopted in a DPD rather than an SPD. The housing mix policy was also found to be unlawful due to a failure by the Council to undertake a viability assessment of the policy before the SPD was adopted.  In the case of draft Policy 35, the Developers note that the Council's Plan Viability Study (Aspinall Verdi, June 2020) incorporates a build cost assumption £1,000 per charge points per dwelling26. However, given the ambiguity of the policy requirement, the basis and sufficient of this allowance cannot be accurately assessed. |                    |                   |

It is noted that the Draft Plan specifies that major development (schemes of 10 residential units and above, and commercial developments of 1,00sqm and above) will be assessed on the basis of its impact on local infrastructure (Policy 37), and developer obligations may be secured towards                       | Suggested changes:<br>None.  | Officer comments: Policy 37 should be read in conjunction with Policies INF1 and INF2 of the West   |

|   |                         |   | mitigating this where additional capacity is deemed to be required.  10. In addition, it should be recognised that small sites (below 10 units / 1,000sqm) may still have a cumulative impact on existing provision and capacity, as does the continued application of permitted development rights to convert commercial premises to residential uses, when considered in conjunction with other development in a locality, and whilst s106 developer contributions would not normally be secured from these schemes there should be a recognition that their impact may still need to be mitigated and provision made through Section 106 agreements.  |                             | Northamptonshire<br>Joint Core Strategy. |
|---|-------------------------|---|--|-----------------------------|--|
| Representation reference: 197/1/12  Name: Northamptonshire County Council | Refers to:<br>Policy 37 | Legal compliance and soundness: Legal compliance: - not specified  Soundness: - not specified | Comments:  11. It is the recommendation of the County Council that all major residential and commercial developments should also be assessed on the basis of the need for additional Fire & Rescue infrastructure (both on-site and off-site), which for example may require provision of additional fire hydrants, or contributions towards increasing capacity of fire and rescue facilities, services, and infrastructure to ensure that new development can be adequately served in the event of a fire.  12. New developments and associated infrastructure within Northampton borough equates to an increase in visitors as well as traffic movements. This will inevitably lead to an increase in the spread of fire risk, which places additional demands on Fire and Rescue Service resources to ensure safe places are maintained, consistent with national Government expectations and guidance.  13. Northamptonshire Fire and Rescue Service sets out its criteria for responding to incidents within its Standards of Operational Response (SOR). The standards outline how the Service will respond to different incident types which fall within | Suggested changes:<br>None. | Officer comments: Noted.                 |

This will ensure that current priorities and policies of the County Council and NBC are aligned in relation to the planning and delivery of new education infrastructure and the ability to secure appropriate developer contributions through Section 106 to effectively mitigate the impact of development across different types of infrastructure.  |                                       |   |
|---|-------------------------|--|--|---------------------------------------|---|
| Representation reference: 200/1/48  Name: HBF | Refers to:<br>Policy 37 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments: Policy 37: Infrastructure Delivery & Contributions Under Policy 37 developers are required to provide delivery of "full fibre" connectivity to new build development. The Council should not impose new electronic communications requirements beyond the provision of infrastructure as set out in statutory Building Regulations. In the Budget (11th March 2020), the Government confirmed future legislation to ensure that new build homes are built with gigabit-capable broadband. The Government will amend Part R "Physical Infrastructure for High Speed Electronic Communications Networks" of the Building Regulations 2010 to place obligations on housing developers to work with network operators to install gigabit broadband, where this can be done within a commercial cost cap. By taking these steps, the Government intends to overcome any existing market failure. The Department for Culture, Media and Sport (DCMS) has outlined its intentions on the practical workings of this policy. The policy will apply to all to new builds. Any type of technology may be used, which is able to provide speeds of over 1000 Mbps. All new build developments will be equipped with the physical infrastructure to support gigabit-capable connections from more than one network operator. The new measures will place responsibilities on both developers and network operators:- | Suggested changes:<br>None specified. | Officer comments: Paragraph 112 of the NPPF requires policies to support the expansion of electronic communications networks, including full fibre broadband connections. No modification required. |

|                           |                         |                                 | physical infrastructure necessary for gigabit- capable connections is provided on site for all new build developments and homes are connected by an operator to a gigabit-capable connection;  This requirement exists unless the cost to the developer of providing connectivity exceeds £2,000, or the operator declines to provide a connection;  Developers must seek a second quote from network operators, where the first quote suggests that gigabit-capable broadband cannot be installed within the cost cap;  If gigabit broadband exceeds the cost cap, the developer must provide connectivity to other technologies, which can provide at least superfast connection within the same cost cap, unless the operator declines to provide a connection; and  A commitment to contribute to the costs of connection by network operators. Virgin Media has committed to contributing at least £500, rising in the case of some larger sites to £1,000. Openreach has committed to a combined Openreach and Developer Contribution of  £3,400, with a maximum developer contribution of £2,000.  As soon as Parliamentary time allows, the Government intends to lay the legislation to amend the Building Regulations. The supporting statutory guidance (Approved Documents) will also be published as soon as possible. |                                    |                                      |

| Name:<br>Wildlife Trust for<br>Bedfordshire,<br>Cambridgeshire &<br>Northamptonshire                         |                         | Plan is sound.  | Local Wildlife Site. Kingsthorpe Meadows already receives a high number of visitors and therefore, any additional pressure from new developments is concerning. For this allocation to be in line with Policies 27 (Green Infrastructure) and 29 (Supporting and Enhancing Biodiversity) it will need to carefully consider how it will provide a net gain in biodiversity within the application site and also contribute towards the enhancement of the wider green infrastructure in the area, including Kingsthorpe Meadows.   |                             |   |
|--|-------------------------|---|--|-----------------------------|---|
| Representation reference: 185/1/13  Name: Wildlife Trust for Bedfordshire, Cambridgeshire & Northamptonshire | Refers to:<br>Policy 38 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  This policy has also been improved since the previous version of the Local Plan Part 2; however, it is still of concern as its potential link to the Upper Nene Valley Gravel Pits Special Protected Area (SPA) has not been established. The Habitats Regulations Assessment and Policy 41 requests that overwintering bird surveys should be conducted to investigate the importance of the allocation to the SPA and, using the results of these surveys, to suggest suitable mitigation measures; if it is possible to do so. The area suggested for ecological enhancement within the proposal (Figure 20) seems to have been chosen for landscape rather than biodiversity reasons and is likely to be used for recreation and therefore to be highly disturbed. Policy 41 also lists a range of other issues to be considered within this allocation. We would strongly recommend that the over-wintering bird surveys are carried out as soon as possible so that the importance of the allocation (as functionally linked land) to the SPA and the mitigation/compensation which may be required are clearly established and used to reassess the suitability of the allocation. | Suggested changes:<br>None. | Officer comments: Surveys are expected to be undertaken by the applicant and will be advised to undertake surveys at the outset. No change. |
| Representation reference: 195/1/20   | Refers to:<br>Policy 38 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.       | Comments: In direct response to Policy 38, the respondent welcomes the reference to site 1107: Former Abington Mill Farm, Land of Rushmere Road, and the conclusions within out earlier  | Suggested changes:<br>None. | Officer comments:<br>Noted.   |

| Name:<br>Mr B Cheer                         |                         | Plan is sound.   | submissions in respect of this site remain. The site is, suitable, available and achievable and would secure a viable residential development.  However, we are aware of certain literature which has been circulating within the locale which seems to be seeking to encourage a swell of objection to the allocation of this site for residential purposes. The literature which has been circulated relates to two matters, the first being highways issues and the second being a conflict with planning policy. Given the content of the emerging Part 2 Local Plan, which allocates the site for residential development, the submissions which we expect the Council to receive are inadmissible. In terms of the highways issues which will be highlighted by respondents, it is confirmed by the respondent that any future application for the site will be supplemented by a full range of technical documents including a transport and highways assessment which will demonstrate the site's suitability and achievability. In conclusion, whilst it is considered that whilst the document would benefit from revisions as set out above, the document does present a plan led approach to meeting those issues which are faced within the Borough. Given the acute housing needs issues faced in the area in recent years, it is considered that the emerging development plan document provides a positive vision and outlines a bold approach and framework to meeting both housing needs and other economic, social and |                             |                             |

| Representation reference: 200/1/9  Name: HBF                                       | Refers to:<br>Policy 38 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The Northampton LPP2 deals only with housing shortfalls from the five SUEs located in the Borough by proposing additional housing land allocations. The LPP2 allocates 71 housing / housing led sites for circa 3,804 dwellings as set out in Policies 13 & 38. Housing delivery is maximised, where a wide mix of sites provides choice for consumers, allows places to grow in sustainable ways and creates opportunities to diversify the construction sector. The LPP2 allocations include a wide range of sites by both size and market locations, which should provide access to suitable land for small local, medium regional and large national housebuilding companies as well as providing opportunities for a wide range of different types of dwellings to meet the housing needs of all households.  Under the 2019 NPPF, the Council should identify at least 10% of its housing requirement on sites no larger than one hectare or else demonstrate strong reasons for not achieving this target (para 68). The Council should confirm compliance with this aspect of national policy. | Suggested changes:<br>None specified.   | Officer comments: The SAMLAA investigations concluded that 52% of sites allocated for housing are under 1 hectare. |
| Representation<br>reference: 232/1/9<br>Name:<br>Vistry Latimer<br>Collingtree LLP | Refers to:<br>Policy 38 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective   | Comments:  Nevertheless, although we welcome the proposed allocation of these three sites, we consider their identification as three separate sites in policies 13 and 38 and on the Policies Map and with a separate housing trajectory for each site (Appendix A) is not "sound" (para.  35 of the NPPF), in being neither "justified" (in not being "an appropriate strategy") nor "effective" (in not being "deliverable over the Plan period").  Although the reason why the land immediately to the west of the NSSUE has been identified as three sites is well understood (because site 1142 came under developer control after sites   | Suggested changes:<br>Would like sites<br>0168, 1009 and<br>1142 considered as<br>1 large site. | Officer comments: Agreed.  |

|  |                         |  | 0168 and 1009 – indeed, not until after the Round 1 Proposed Submission consultation, at which point the development of site 1142 became deliverable), the contiguity of the three sites and their adjacency with the NSSUE mean it is not appropriate to conceive of them as three separate allocations. Rather, they should be planned not only as a single allocation, but also as one to be delivered in conjunction with the immediately adjoining NSSUE.   |   |  |
|--|-------------------------|--|--|---|--|
| Representation reference: 232/1/12  Name: Vistry Latimer Collingtree LLP | Refers to:<br>Policy 38 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective | Comments:  Vistry and Lagan have commissioned Define to determine the housing capacity of the land between the NSSUE and the railway line, taking account of the constraints affecting that capacity (noise and air pollution from the M1 motorway; noise and vibration from the Northampton Loop Line railway; the floodplain of the Wootton Brook; hedgerows within the site; utilities easements crossing the site; and land needed for public open space, children's play provision and surface water drainage attenuation). Assuming a suitable average net density of 40 dwellings per hectare, Define has determined that the land between the NSSUE and the railway line can accommodate some 336 dwellings.  The Council currently proposes 361 dwellings across the three sites (0168, 1009 and 1142), which would require an inappropriately high average net density of around 43 dwellings per hectare, resulting in an urban form that would be discordant with the average net density of 35 dwellings per hectare within the adjacent NSSUE. We consider that the 'excess' 25 dwellings that it is inappropriate to accommodate on sites 0168, 1009 and 1142 can and should be accommodated within the NSSUE itself, where it would be appropriate to increase the net density of housing in close proximity to its local centre and primary school above the currently permitted 35 dwellings per hectare. In this way, that area of the NSSUE close to its facilities can serve appropriately as its core. | Suggested changes: Consider the LPP2 inidicative capacity is too high for sites LAA0168, 1009 and 1142 and that the excess should be accommodated within Northampton South SUE. | Officer comments: The current capacity of sites LAA0168, 1009 and 1142 in Policy 13 is indicative and not confirmed. However, as the sites is recommended to be combined, it is acceptable to change the trajectory. Modify the plan to take into account the revised trajectory for the combined sites. |

No<br>modification<br>required.   |
|--|-------------------------|--|--|---|--|
| Representation reference: 239/2/10  Name: Duncan Investments Ltd - Houghton Gate | Refers to:<br>Policy 38 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Duncan Investments Ltd considers that the policy approach in Chapter 8 of the NLP2 would not meet the tests of soundness because:  1. It is not Positively prepared: There is a clear need for additional industrial and warehousing land in Northampton from both a quantitative and qualitative perspective. The policy approach taken fails to adequately promote economic development and the furtherance of economic growth. It fails to set out a clear economic vision and strategy which positively and proactively encourages sustainable economic growth, having regard to Local Industrial Strategies and other local policies for economic development and regeneration.  2. It is not justified: The policy approach does not align with the Local Plan evidence base which concludes that there is an insufficient supply of large-scale units to meet demand over the course of the plan period. In addition, the JPU's current employment land evidence base's conclusion, that there is a need for 28,500 new jobs and 965,009 sqm of B- Class land, is flawed, makes no provision for losses, and is out of date given that this level of jobs growth has already been comfortably exceeded with no mechanism in place for identifying needs post 2029. | Suggested changes: In order to ensure that the Policy approach taken in Chapter 8 is sound it is considered that: 1. The NLP2 should allocate sufficient employment land to address the very significant quantitative and qualitative shortfall of industrial and warehousing land. 2. The Houghton Gate site should be identified as an employment allocation to help meet this shortfall. | Officer comments: Allocations for employment are included in Policy 38. Policy 17 safeguards existing employment land and Policy 18 supports employment provision outside of safeguarded employment sites that meet certain criteria. Employment land is also expected to come forward on Sustainable Urban Extensions around Northampton. No modification required. |

|   |                         |  | 3. It is not effective: The NLP2 fails to identify strategic sites, for local and inward investment to match the strategy and to meet anticipated needs over the plan period. Planning policies should also be flexible to accommodate needs not anticipated in the Plan; and address the specific requirements of different industrial sectors. This is particularly relevant in the context of Northampton Borough's very substantial unmet industrial needs which risks undermining its future economic growth.  4. It is not consistent with national policy: It does not contribute to the achievement of sustainable development, including the economic objective in the Framework to help build a strong, responsive and competitive economy, by ensuring that sufficient land of the right types is available in the right places and at the right time to support growth, innovation and improved productivity. | The Houghton Gate site has the potential to help support a range of economic aspirations at the local and sub- regional level, particularly in terms of meeting Northampton Borough's future growth needs. |  |

| Name: Northamptonshire County Council  | Refers to:              | Soundness: - not specified   | measures and supporting infrastructure to be provided, both for on-site and off-site measures.  Comments:  | amended to include specific reference to the importance of any scheme complying with Policy 37 – Infrastructure to ensure sustainability and address any negative impacts of development of this scale.  | relevant generic development policies in the plan so it is not considered necessary to list them, including Policy 37. |
|--|-------------------------|--|--|--|--|
| Representation reference: 234/1/9  Name: Diversified Property Fund For Charities | Refers to:<br>Policy 39 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments: The redevelopment of Northampton Railway Station and surrounding land is obviously a key aspiration for the NLPP2, with Policy 39 (and the supporting figure) providing details as to how these proposals should be delivered. The junction of Wilmington Terrace and St Andrew's Road is identified for junction improvements as part of the proposals.  Whilst the Trade Park is not accessed directly from this junction, Wilmington Terrace forms the southern boundary and St Andrew's Road the western boundary of the Trade Park with the accesses points into the Trade Park being from junctions with these roads (Quorn Way and Francis Street). | Suggested changes: It is essential that any junction improvements continue to ensure high quality and unfettered vehicular access into the Trade Park. If subsequent iterations of the plan are to contain additional information about these junction improvements DPFC would welcome the opportunity to be consulted and provide comments. | Noted.   |

| Representation reference: 241/1/10  Name: British Horse Society                | Refers to:<br>Policy 39      | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound.   | Comments:  Pedestrians and cyclists are included in the policy.  Opportunities to expand the PRoW network and link to existing PRoW's are to be welcomed but not to disadvantage equestrians. Surfacing of routes should be considered by developers, for example the permeable and durable flexipave/rubber crumb is environmentally and economically more sustainable as well as suiting all users of new multi-use routes.   | Suggested changes:<br>None.        | Officer comments: Minor modification proposed to Policy 32 to refer to integration with public rights of way.  |
|--|------------------------------|---|---|------------------------------------|--|
| Representation reference: 65/1/8  Name: English Regional Transport Association | Refers to:<br>para.<br>13.10 | Legal compliance and soundness: Legal compliance: - not specified  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Movement – The trackbeds of the old railway lines between Northampton and Market Harborough and Northampton Castle – Brackmills must be protected for restoration for railway use; there should also be provision for eventual re- opening of that line to Bedford, improving more connectivity. There must be new stations/halts at Watermills (new University campus) and at Brackmills (industrial estate); furthermore the old Bridge Street station should also be re- opened and the ERTA also wishes to see the Northampton – Wellingborough line re-opened. Northampton North –West and Northern Relief Roads - These will both shift traffic rather than removing it and the new road space will soon fill up with traffic. Furthermore it will also obliterate the track-bed of the old Northampton-Market Harborough railway line which the ERTA also wishes to see re- opened. St.James Inner Relief Road - This is a short-term project (apparently currently put on hold due to funds)and again, this will shift traffic rather than removing it and at best, given there is a considerable amount of commercial and domestic development in Northampton Borough, the new road space will soon fill up with traffic. It will also obliterate the old track- bed of the old Northampton - Bedford railway. There must be provision for a potential level crossing where the road crosses the old track-bed (also see APPENDIX D - Transport and Infrastructure Schedule). | Suggested changes: None specified. | Officer comments: The route of the former Northampton to Market Harborough railway line is safeguarded in Policy 34 and on the Policies Map. It is proposed to modify the plan to include the railway corridor to Brackmills for future transport use. |

| Name:              |            | Plan is unsound:                  | Northampton Local Plan Part 2. This is because Figure 19 in the   |                    |                        |
| Henry Martin Ltd   |            | - not effective                   | Northampton Local Plan Part 2 Submission Draft Round 2  |                    |                        |

shows that the area of land to the north of Martin's Yard Business Park is an employment allocation. This is confirmed in Policy 38 and Policy 40. However, the revised Policies Map does not show this area as an 'Employment Allocation Site' (which should be shaded in light purple). Instead, it shows the expansion site as 'Natural and Semi Natural Green Space' (shaded in light green) and a 'Local Wildlife Site' (brown dots). The policies that are associated with the 'Natural and Semi Natural Green Space' designation and the 'Local Wildlife Site' conflict with Policy 38 and Policy 40 which collectively seek to deliver new employment development on the 1.4-hectare site to the north of the Martin's Yard Business Park. The discrepancies outlined above give rise to policy conflicts, which threaten the deliverability of the Martin's Yard Extension (LAA1005) and thus make the Policies Map unsound. Should these discrepancies be rectified as set out below, it is considered that the Policies Map would be sound: \* Identify the 1.4-hectare employment allocation to the north of Martin's Yard Business Park that is shown on Figure 19 in the Northampton Local Plan Part 2 Submission Draft Round 2 with light purple shading on the Policies Map. \* Amend the 'Natural and Semi Natural Green Space' (light green shading), so that it does not overlap the site allocated for employment development (as per the Policies Map that accompanied the Local Plan Part 2 Submission Draft (April 2019)). \* Amend the Policies Map so that the area covered by the 'Local Wildlife Site' designation does not prevent the 1.4hectare employment allocation to the north of Martin's Yard Business Park coming forward for employment development in the future. Please refer to the accompanying written representations for further information.

| reference: 123/1/14  Name: Henry Martin Ltd | Policy 40<br>and<br>policies<br>map | and soundness: Plan is legally compliant.  Plan is unsound: - not effective | The Key for the revised Policies Ma implies that proposals affecting land identified as 'Natural and Semi Natural Green Space' will be assesseid against Policy 28 (Providing Open Spaces). Policy 28 states:  "New major developments must ensure that open spaces defined on the Policies Map are sustained or enhanced."  It will not be possible to construct the new employment development identified in Policy 40 and sustain the existing amount of 'Natural and Semi Natural Green Space' on the site as required by Policy 28. Therefore, in its current format, the Policies Map gives rise to a conflict between Policy 40 and Policy 28. | As such, it is respectfully requested that the area of land to the north of Martin's Yard Business Park that is identified as an employment allocation in Figure 19 of the Northampton Local Plan Part 2 Submission Draft Round 2 is removed from the 'Natural and Semi Natural Green Space' designation on the revised Policies Maip (as it was on the Policies Map that accompanied the Local Plan Part 2 Submission Draft | It is agreed that the Policies Map need clarifying. Modify the Policies Map (site LAA1005) to highlight the area allocated for employment in purple. |

| reference:                                  | Policy 40                           | and soundness:  | Furthermore, the Key for the revised Policies Map implies that  | Changes to Policies  | It is agreed that the  |
| 123/1/15                                    | and                                 | Plan is legally   | development proposals relating to a 'Local Wildlife Site' will  | Map.   | Policies Map need  |
|   | policies                            | compliant.  | need to comply with Policy 26 and Policy 29. Policy 26 relates  |  | clarifying. Modify   |
| Name:                                       | map                                 |   | to sites for burial space, so it would appear that refenence to   |  | the Policies Map   |
| Henry Martin Ltd                            |                                     | Plan is unsound:  | this policy has been included in error in the Key for the Policies  |  | (site LAA1005) to  |
|   |                                     | - not effective   | Map. Policy 29 seeks to support and enhance biodiversity. As  |  | highlight the area   |

|   |                         |   | explained above, the site's owners intend to work with the Council and other organisations to conserve, manage and enhance the Kingsthorpe Mire Local Wildlife Site in the area of land to the north and east of the new employment site. The third bullet point in Policy 40 provides the necessary provisions to secure these ecological and green infrastructure enhancements and net biodiversity gains. Additionally, it is noted that the 'Local Wildlife Site' designation was not shown on the Policies Map that accompanied the Local Plan Part 2 Submission Draft (April 2019). In light of these factors, it is respectfully requested that the Policies Map is amended so that the area covered by the 'Local Wildlife Site' designation does not prevent the 1.4-hectare expansion site to the north of Martin's Yard Business Park from coming forward for employment development in the future. |   | allocated for<br>employment in<br>purple.  |

| reference:<br>105/1/10<br>Name:<br>Great Houghton<br>Parish Council | Policy 41<br>and<br>Appendix<br>C | and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | The County Council identify The Green — "as a minor unclassified road which is likely to require significant upgrading to accommodate development on this scale". In reality this is an unlit single track road with passing places and blind bends. At the moment, the edges of the road break down, especially during winter, creating large potholes which need regular repair. There is frequent fly tipping in the passing places. At present this route does not cope with its current traffic usage.  | None specified.    | Appendix C states that Transport Assessments will be required for development proposals. These may indicate the need for localised improvement works, particularly around acces to the site.   |
|---|-----------------------------------|---|--|--------------------|--|
| Representation  | Refers to:                        | Legal compliance  | are barely changed, but do indicate additional flow through the Brackmills industrial estate which would appear to be traffic avoiding the Bedford Road.  Combined with knowledge of the existing traffic situation in the area, this would indicate that some significant upgrading of the eastern Bedford Road approach to the Barnes Meadow roundabout will be required, specifically the widening of the river bridge (which being so close to the A45 is a constraint on stacking capacity at the signal stop line).  While this will not be cheap, it should be noted that the design of the bridge does enable relatively easy widening, as this was done on the similar structure west of the A45 some years ago. It should be noted that there is also a discernible movement off traffic off Newport Pagnell Road which is rat-running through Brackmills to reach the A45 at Brackmills Interchange, but this impact may be mitigated if it is easier for traffic from The Green to exit via Bedford Road."  21. This response fails to take account of any impact on the existing village of Great Houghton. Additional traffic generated by the development will have a severe impact on Great Houghton village.  Comments: | Suggested changes: | associated with and resulting from the scheme. Proposals that come forward for the site will also need to be in conformity with Policies 32 (designing sustainable transport and travel), 33 (highway network and safety) and 34 (transport schemes and mitigation). No modification required. |

| Representation reference: | Refers to:<br>Policy 41 | Legal compliance and soundness: | Pedestrians using the length of the High Street have to regularly cross the road as there is pavement on one side only in places. This includes children using school buses from Little Houghton Primary School and Wollaston School and anyone using the Village Hopper bus (they all stop at the White Hart pub).  National Cycle Route 6 passes up the High Street from the disused railway line at the Glebe and then passes along the Green. It is well used and provides an opportunity to improve health and active lifestyles. However, there is an incompatibility between these aims and the additional traffic created by development at The Green that will use the cycle route, making it significantly less safe for cyclists and deterring users of this mode of travel.  The High Street is not suitable for HGVs. Formal warning signs have been placed with regard to HGVs entering the village. This does not deter such use and leads to such vehicles mounting footways.  There are roughly 300 homes in Great Houghton. If 800 new homes are to be built on The Green housing allocation, and assuming a minimum of 2 cars per new dwelling, 1,600 extra vehicles will potentially use The Green. The County Council assumption is that The Green (with significant upgrading) will be used, but that assumption fails to take into account the impact on the High Street, usage and detrimental impact will increase significantly.  Comments:  At the north of the village the High Street meets the A428. The | Suggested changes: None specified. | Policy 37 requires major development proposals to contribute to infrastructure associated with and resulting from the scheme.  Proposals that come forward for the site will also need to be in conformity with Policies 32 (designing sustainable transport and travel), 33 (highway network and safety) and 34 (transport schemes and mitigation).  No modification required. |

| Name:            |            | ,                    | would be used by residents of The Green.                            |                    | demonstrate          |

| Great Houghton<br>Parish Council  |                         | Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy   | This is some 2km (straight line) distant from The Green site allocation. This is considered beyond reasonable for bus users to consider using. The bus stops on the A428 are already difficult for more nearby residents of Great Houghton village to use, particularly those with mobility problems, being accessed via the High Street, the problems of which have already been highlighted. Access for those going eastbound, or returning from Northampton, would also entail crossing the Bedford Road to gain access to the village/The Green site, there have been two recent fatalities in this area of bus users crossing this road.  Bus is not considered an option for The Green site.   |                                       | sustainable travel principles including accessibility and usability of public transport and maximising opportunities for walking and cycling. No modification required.   |
|---|-------------------------|--|--|---------------------------------------|---|
| Representation reference: 105/1/17  Name: Great Houghton Parish Council | Refers to:<br>Policy 41 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  Great Houghton is a village which has grown organically through small developments. The centre of the village is a Conservation Area; this includes the portion of the High Street that would be affected by additional traffic and queueing. The development of 800 new dwellings is out of scale with the village and will begin the gradual erosion of the separation of the village from Northampton. The village will lose its separate identity.  At the moment, leaving the village to the south and travelling towards The Green allocation land, beyond Leys Lane (the entrance to the village hall and playing field), one enters open countryside. This open land is an integral part of the setting of the village and its detachment from other built development. This is noted in the Conservation Area Appraisal "The visual separation between Great Houghton and the built-up area makes a major contribution to the setting and to the character and appearance of the Conservation Area." (page 16, https://www.northampton.gov.uk/info/200207/building_conservation_and_tree s/1629/great_houghton_conservation_area). | Suggested changes:<br>None specified. | Officer comments: Policy 41 of the LPP2 sets out that any proposed scheme will need to take into account the sensitivities and significance of the setting of Great Houghton and the Conservation Area. No modification required. |

|                |            |                      | b) ensure that their size and location will support a sustainable   |                    | modification           |
|                |            |                      | community, with sufficient access to services and employment  |                    | required.              |
|                |            |                      | opportunities within the development itself (without expecting  |                    |                        |
|                |            |                      | an unrealistic level of self-containment), or in larger towns to  |                    |                        |
|                |            |                      | which there is good access;   |                    |                        |

c) set clear expectations for the quality of the development and how this can be maintained (such as by following Garden Cityprinciples), and ensure that a variety of homes to meet the needs of different groups in the community will be provided; d) make a realistic assessment of likely rates of delivery, given the lead-in times for large scale sites, and identify opportunities for supporting rapid implementation (such as through joint ventures or locally-led development corporations)35; and e) consider whether it is appropriate to establish Green Belt around or adjoining new developments of significant size." The Green is not well located or well supported by necessary infrastructure or facilities (paragraph 72a). The Green is not included within existing or planned investment for infrastructure – it will bring an additional and competing claim on such resources. The Green will not be a sustainable community (paragraph 72b). It will be car dependent with poor access to services, especially for those without access to a private car and limited access to employment opportunities. Neither of these will be available on site. Policy 41 fails to identify how any needed infrastructure improvements will be funded or provided; this is not consistent with paragraph 34 of the NPPF: "34. Plans should set out the contributions expected from development. This should include setting out the levels and types of affordable housing provision required, along with other infrastructure (such as that needed for education, health, transport, flood and water management, green and digital infrastructure). Such policies should not undermine the deliverability of the plan." By failing to quantify these needs the allocation of The Green undermines the deliverability of the WNJCS and Local Plan Part

|   |                         |  | 2, we note our earlier points, and the Council's own position, that delivery on large sites is persistently under delivering. Policy 41 does set out a set a parameters for the quality of the development (paragraph 72c).  Policy 41 does not make a realistic assessment of likely rates of delivery (paragraph 72d) nor does it set out any mechanism for how the site can be delivered.  Paragraph 72d is not considered relevant.  Paragraph 103 of the NPPF states:  "Significant development should be focused on locations which are or can be made sustainable, through limiting the need to travel and offering a genuine choice of transport modes. This can help to reduce congestion and emissions, and improve air quality and public health." |                                       |  |
|---|-------------------------|--|---|---------------------------------------|--|
| Representation reference: 105/1/21  Name: Great Houghton Parish Council | Refers to:<br>Policy 41 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  The Green allocation would be significant development and as has been shown elsewhere in this representation, development of this site is not sustainable: it does not limit the need to travel, there is no genuine choice of transport modes; as a result this will lead to increased congestion and have negative impacts on air quality and public health.   | Suggested changes:<br>None specified. | Officer comments: The proposed allocation at The Green, Great Houghton is located next to the large employment site of Brackmills. Existing public transport routes are located to the north and south of the site on the Bedford Road and the Newport Pagnell Road. Any proposal coming forward will need to adhere to Policy 37 of the LPP2 to ensure the relevant |

| Representation<br>reference: 161/1/8<br>Name:<br>Sarah Williams | Refers to:<br>Policy 41 | Legal compliance and soundness: Plan is not legally compliant: - not in accordance with SCI - not consistent with regulatory requirements  Plan is unsound: - not positively prepared - not justified   | Comments:  Loss of character and setting Great Houghton is a village which has grown piecemeal via smaller developments. The village includes a Conservation Area covering the High Street including that part which may be affected by queues. The effect on our village has not been adequately quantified but instead underestimated and glossed over.  As well as the street scene (including within the Conservation Area) being affected, given the size of the development relative to the village and its proximity, the development will dwarf and potentially take over the village and so cause the village to lose its identity, not only from the development of houses but due | Suggested changes:<br>None specified. | Officer comments: Policy 41 of the LPP2 sets out that any proposed scheme will need to take into account the sensitivities and significance of the setting of Great Houghton and the Conservation Area. No modification required.  |

|                    |            | - not effective - not consistent with national policy | to the volume of traffic and the overall disturbance caused by that, leading to a loss of character and setting.  It moves the line of development marking the end of Northampton across the line of the village and is a move towards encirclement/swallowing of the village.  At the moment, you leave the village via the Green and once you pass Leys Lane (the entrance to the village hall and playing field), you are immediately in open countryside. This is part of the feel and setting of the village and this detachment is noted in our Conservation Area designation. If this development went ahead, that would be lost. |                                      |                                   |

| Representation reference: 162/1/3  Name: Peter Summerside         | Refers to:<br>Policy 41 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified               | Comments: This development should not proceed at all. Great Houghton village cannot cope with the 4,000 new vehicle movements per day that this development would generate. | Suggested changes:<br>None. | Officer comments: Traffic modelling has been undertaken by Northamptonshire County Council on behalf of the Borough Council for this site to assess the potential traffic implications of the proposed development on the road network. Policy 32 requires that the transport impacts of new development are mitigated. |
| Representation<br>reference: 162/1/4<br>Name:<br>Peter Summerside | Refers to:<br>Policy 41 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is unsound:<br>- not justified | Comments: The proposals would also spoil the pleasant countryside around the village, diminishing its character and destroying local wildlife habitats.                     | Suggested changes:<br>None. | Officer comments: Any proposal that comes forward will need to comply with the relevant policies contained in the development plan and provide relevant mitigation measures. A buffer is being proposed between the development site and the existing   |

| Representation<br>reference: 162/1/5<br>Name:<br>Peter Summerside | Refers to:<br>Policy 41 | Legal compliance and soundness: Plan is legally compliant. Plan is unsound: - not justified | Comments:  If the scheme proceeds at all, far greater consideration should be given to:  1. Vehicle access improvements - the proposed development is on a single track road  2. Traffic calming in Great Houghton – particularly at the Southern end on The Green (which our property adjoins) – vehicles already thunder through here unhindered with no regard for the lives of pedestrians, pets or wildlife.  3. Protection of cyclists and pedestrians (cyclists use Great Houghton and its environs a lot).  4. Improved drainage and infrastructure – a lot of new homes will require significant infrastructure improvements.  5. Environmental and sound buffering between the development, Great Houghton village and Brackmills.  6. Air quality protection.  7. The conservation status of Great Houghton and its special characteristics which need protecting and preserving - it could easily be ruined and overrun by thoughtless mass housing | Suggested changes:<br>None. | village. An objective of the Local Plan is the provision of green infrastructure, which includes biodiversity net gain as a condition of development.  Officer comments: Noted and will be considered in greater detail at planning application stage if and when a proposal comes forward. |

| Representation reference: 185/1/14  Name: Wildlife Trust for Bedfordshire, Cambridgeshire & Northamptonshire | Refers to:<br>Policy 41 | Legal compliance and soundness: Plan is legally compliant. Plan is sound. | Comments:  This policy has also been improved since the previous version of the Local Plan Part 2; however, it is still of concern as its potential link to the Upper Nene Valley Gravel Pits Special Protected Area (SPA) has not been established. The Habitats Regulations Assessment and Policy 41 requests that overwintering bird surveys should be conducted to investigate the importance of the allocation to the SPA and, using the results of these surveys, to suggest suitable mitigation measures; if it is possible to do so. The area suggested for ecological enhancement within the proposal (Figure 20) seems to have been chosen for landscape rather than biodiversity reasons and is likely to be used for recreation and therefore to be highly disturbed. Policy 41 also lists a range of other issues to be considered within this allocation. We would strongly recommend that the over-wintering bird surveys are carried out as soon as possible so that the importance of the allocation (as functionally linked land) to the SPA and the mitigation/compensation which may be required are clearly established and used to reassess the suitability of the allocation. | archaeological investigation that considers any archaeological potential on the site  Suggested changes: None | Officer comments: Surveys are expected to be undertaken by the applicant and will be advised to undertake surveys at the outset. No change. |

|   |  |                    | Submission Round 2    |
|   |  |                    | states: The RAG (red  |
|   |  |                    | amber green)          |
|   |  |                    | assessments were      |
|   |  |                    | Anglian Water's       |
|   |  |                    | review of sites       |
|   |  |                    | allocated in the      |
|   |  |                    | Local Plan Part 2, to |
|   |  |                    | determine whether     |
|   |  |                    | further water cycle   |
|   |  |                    | work would be         |
|   |  |                    | required. Paragraph   |
|   |  |                    | 5.129 of the April    |
|   |  |                    | 2019 HRA confirms     |
|   |  |                    | that Anglian Water    |
|   |  |                    | reviewed the          |
|   |  |                    | allocated sites (as   |
|   |  |                    | proposed in the       |
|   |  |                    | Local Plan sites      |

|  | consultation) and     |
|--|-----------------------|
|  | confirmed that no     |
|  | significant water     |
|  | treatment issues      |
|  | were anticipated. In  |
|  | response to           |
|  | consultation on the   |
|  | Proposed              |
|  | Submission Local      |
|  | Plan Part 2 (first    |
|  | round Regulation 19   |
|  | consultation),        |
|  | Anglian Water         |
|  | raised concerns       |
|  | about the             |
|  | soundness of the      |
|  | Plan57, suggesting    |
|  | that a requirement    |
|  | for water efficiency  |
|  | standards should be   |
|  | incorporated into     |
|  | policy wording; no    |
|  | further concerns      |
|  | were raised. Policy 5 |
|  | has since been        |
|  | updated to include a  |
|  | requirement for       |
|  | efficiency standards  |
|  | of 110l per person    |
|  | per day in new        |
|  | residential           |
|  | development. The      |
|  | HRA has been          |
|  | updated to reflect    |
|  | that change.          |
|  | No change             |

| Representation reference: 35/1/12  Name: Historic England                | Refers to:<br>Policy 43      | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective - not consistent with national policy | Comments: Whilst the reduction in size of the allocation is welcomed, objections remain to the policy as proposed.                       | Suggested changes: The words 'at least' must be deleted from the first sentence and replaced with 'up to' to ensure clarity and that heritage assets are conserved and enhanced. | Officer comments: Restricting the number of dwellings on this brownfield site can have an impact on the potential of the site to deliver Northampton's local housing needs. The quantum of development proposed will still need to take into consideration all matters associated with the preservation and enhancement of heritage assets. Following updated evidence presented by Homes England a minor modification to the plan is |

| Representation reference: 35/1/13  Name: Historic England | Refers to:<br>Policy 43 | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not effective - not consistent with national policy | Comments: First policy criteria:be two to four storeys in height, with opportunities for taller buildings facing along the principal movement routes and the northern section of the site". This does not accord exactly with the wording in Policy 41 of the HIA (page 105) which states that proposals should 'Be two to four storeys in height, with taller buildings facing along the principal movement routes and the northern section of the site.' It appears that the intention of the HIA was to restrict the height of buildings on the site to 4 storeys max, with those 4-storey buildings being further away from sensitive heritage assets. The Local Plan Policy implies there are opportunities for buildings taller than 4 storeys on the site. Historic England would object due to the impact that would have on the nearby very sensitive heritage assets such as the Battlefield, Delapre Abbey, the Abbey parkland and Conservation Area. | Suggested changes: As such policy criteria bullet point one should be reworded for clarity to read:- "Generally be two to A MAXIMUM OF four storeys in height, with opportunities for THE taller building facing along the principal movement routes and the northern section of the site." | proposed such that the words "at least 200 dwellings" will be replaced with "up to 500 dwellings".  No modification required.  Officer comments: It is agreed that Policy 43 needs clarifying. It is recommended that the policy be modified to comply with the statement contained in the Heritage Impact Assessment, to read: "Be two to four storeys in height, with taller buildings facing along the principal movement routes and the northern section of the site" |

|  |                         | - not consistent<br>with national policy   | highlights the potential for battlefield archaeology to be present including encampments, along with remains of the medieval church that would have formed a component of the wider battlefield.  We have previously advised that archaeological assessment through geophysical survey, metal detecting and excavation should be a pre-cursor to allocation, to create a sufficiently robust evidence base to ensure any proposed allocation is deliverable in accordance with national and local policies.  As the allocation will be in advance of archaeological assessment of the site, the policy should require assessments to be carried out at an early stage to provide fuller understanding of the sensitivities of the site and inform the design process. We advocate that the allocation should have sufficient flexibility to enable areas of significant archaeological remains to be protected within areas of the development's green space'. | assessment will be required to inform development and layout of the site" | modified through an additional criteria to read: "Prior to development of the site, further archaeological assessment will be required to inform development and layout of the site" |

| Representation reference: 185/1/16  Name: Wildlife Trust for Bedfordshire, Cambridgeshire & Northamptonshire | Refers to:<br>Objective<br>10 | Legal compliance<br>and soundness:<br>Plan is legally<br>compliant.<br>Plan is sound.                | Comments:  We are pleased to see that Biodiversity Net Gain is included as one of the monitoring indicators within the Green Infrastructure objective. The indicator suggests that only major developments are included in this monitoring. The National Planning Policy Framework paragraphs 170 and 174 already require all development to show how they can provide a net gain in biodiversity. This will also be included in the Environment Bill when it proceeds through Parliament. | would also be useful to monitor both the plans made at the application stage and their success within the developments post construction.  Suggested changes: We would, therefore, suggest that the indicator looks at a range of developments to see how they are preforming against this objective. It would also be useful to monitor both the plans made at the application stage and their success within the developments post | Officer comments: Policy 29 requires all major development to secure a net gain in biodiversity therefore the monitoring indicator reflects that requirement. No change. |

| Representation reference: 105/1/8  Name: Great Houghton Parish Council | Refers to:<br>Appendix<br>A | Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not positively prepared - not justified - not effective - not consistent with national policy | Comments:  On a practical level it is argued that The Green, with the timescales involved, and the need for infrastructure resources will not be in a position to enhance delivery. Indeed, it will increase the target and fail to deliver. Appendix A, page 179 of Local Plan Part 2 assumes The Green will deliver 800 news units 2018/19 to 2028/29. This is not achievable. We are already in the second of those years (by which time, the Council assumes 50 units completed) and there is no prospect of a start on site in the medium term. Allocating land at The Green will not solve the under-delivery against target in Northampton. Indeed, it will make things worse by adding additional competition to the existing pool of large sites for infrastructure and other resources. The Council should address the under-delivery issue by concentrating resources on delivering the existing SUEs and facilitating the development of smaller sites.  Not justified  As set out above the Parish Council do not consider Local Plan Part 2 is putting forward "an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence" (NPPF, paragraph 35).  The continued over-reliance on a further larger site (The Green) and the existence, within Local Plan Part 2 itself, of | Suggested changes:<br>None specified.   | Officer comments: The West Northamptonshire Joint Planning Unit produces a Joint Monitoring Report which considers the rate of house building in Northampton. The NPPF (para 75) states that authorities should prepare an action plan in line with national planning guidance, to assess the causes of underdelivery and identify actions to increase delivery in future years. It has been identified that large, |

Soundness: - not specified | sufficient smaller sites to increase supply, if not delivery, is a reasonable alternative. In addition, development of The Green is not justified for the following detailed reasons.  Comments: Homes England welcomes the inclusion of the following sites in Appendix A Trajectory for sites allocated in the Local Plan Part 2. Ref 0174 Ransome Road Gateway Ref; 1097 Gate Lodge; Ref 1098 The Green, Great Houghton Ref 1099 Upton Reserve Site; Ref 1139 Merge Homes England plots in Ransome Road. | Suggested changes:<br>None.   | allocated sites are taking longer to build out and as such the LPP2 allocates smaller sites to rectify the historic underdelivery of homes. Policy 37 of the LPP2 requires development proposals to contribute towards new infrastructure associated with and resulting from the scheme. No modification required.  Officer comments: Noted. |

|               |                      | Ransome Road (sites LAA0174 and LAA1139) will be               |                       |
|               |                      | expected to provide improvements to this junction.             |                       |
|               |                      | expected to provide improvements to this junction.             |                       |

Barrack Road / St. Georges Avenue and Kingsthorpe Road / Balfour Road Junctions – Improvements to the Barrack Road / St. Georges Road, and Kingsthorpe Road / Balfour Road junctions required to support the development of Avenue Campus (site LAA1014).' We have highlighted in bold the area of our concern. There was no reference in the previous submission version to the requirement for such a contribution and there have been no discussions with the University in respect of this. As highlighted above, an application for residential redevelopment of Avenue Campus (Ref N/2016/0810) is currently with the Council for determination. In relation to this application, the University's consultant, Jacobs, has reviewed the capacity results for the relevant junctions and concluded that due to the negligible changes (a small increase of 2 additional vehicles in the AM peak and 5 fewer queueing vehicles in the PM peak) there is no justification for mitigation measures. Jacob's revised Transport Assessment January 2019 is enclosed for information (further responses to comments from Northamptonshire Highways can also be provided if required although these have already been submitted to NBC).

No justification has been given for seeking this contribution and as set out above it is not considered that it is necessary. The wording of Appendix C is therefore not justified and is contrary to paragraph 35 of the NPPF.

The above reference to highways contributions from Avenue Campus should therefore be removed from the Plan.

The proposed amendment is required in order to ensure that the plan is justified and effective in line with the NPPF and guidance in the PPG.

| Name: Moulton Parish Council  Representation reference: 201/1/18  Name: Persimmon Homes | Refers to:<br>The Plan<br>and<br>policies<br>map | Plan is legally compliant.  Plan is unsound: - not positively prepared - not effective  Legal compliance and soundness: Plan is legally compliant.  Plan is unsound: - not justified - not effective - not consistent with national policy | comments: We would also note that part of the Dallington Grange SUE is shown on the proposals map as a Local Wildlife Site (LWS) where draft Policy 29 will apply. As the Council will be aware, a suite of detailed botanical surveys and assessment work was undertaken at the Dallington Heath LWS to inform the outline planning application. These works were to ascertain its "true" ecological value and to inform the ecological mitigation and enhancement strategy that will be controlled by planning condition on the outline planning permission. As such, the loss of the element of the LWS that incurs into the site and the mitigation for that loss has already been agreed by the Council in principle as reflected by the resolution to grant planning permission. This is not reflected on the proposals map and we feel that this this will be misleading for decision-makers and stakeholders particularly in light of the wording of draft Policy 29. | Suggested changes: Alterations to Policies Map to reflect changes to the LWS as part of the Dallington Grange SUE development. | School for Boys scheme could fulfill the requirement in this area. However, it does not have planning permission yet. As such other provision may be needed in this area.  Officer comments: It is recommended that the Policies Map be modified to reflect changes to the LWS as part of the Dallington Grange SUE development. |

| Representation<br>reference: 224/1/3<br>Name:<br>Friends of West<br>Hunsbury Parks      | Refers to:<br>The Plan<br>and<br>policies<br>map | Legal compliance and soundness: Plan is legally compliant. Plan is sound.  | Comments: The area of land between LAA1112 and LAA1025 has no category allocated to it. This area is part of Ladybridge Park which is an amenity green space. It has at least 4 football pitches on it and Welland Valley Football Club are licensed by NBC to use the pitches. It is part of an amenity green space which is in constant use. The Park is a gated Park with no access to both Car Parks from 8am to 5:30 in the winter and 8am to 8:30pm in the summer.  | Suggested changes:<br>None specified.  | Officer comments: The council will amend the Plan accordingly.   |

|  | This includes the Car Park by the football pitches, the area of land in question. |  |
